

The Store That Always Sells for Less

The Store That Sells as it Advertises

The great amount of business we have done during the month of October was beyond our record.

We sold as much during the month of October as we figured on selling during the whole season, and we were compelled to go to the Northern markets the second time to buy a new supply.

Now our stock has already arrived. We have at present the largest stock between here and Augusta, and realizing that most of the season is almost gone, and we have bought a little too heavy, therefore we are going to reduce prices in each department from now until December 1st to reduce our stock.

This is the best opportunity you have ever had to buy your winter supply at such low prices, and it will pay you to take advantage of it.
