The Sixth Comet.

Intelligence received at the Warner Observatory, Rochester, N. Y., from Bristol, England, states that Prof. W. F. Denning discovered a new comet on the 4th inst. It is located in the constellation of Leo, right ascension 9 hours 22 minutes, declination North 16 degrees, daily motion 30 minutes East. This is the sixth comet which has been seen since May 1st, five being new discoveries, all but two of which were first observed by Americans, and it is certainly a high compliment to the industry and skill of American astronomers that they have shown so fine a record. The total amount which Mr. H. H. Warner has given in comet prizes during the past year is \$1,300 which shows that the interest taken in astronomical affairs in this county is greatly increasing.

"Don't Know Half their Value."

"They cured me of Ague, Biliousness and Kidney Complaint, as recommended. I had a half-bottle left which I used for my two little girls, who the doctors and neighbors said could not be cured. I would have lost both of them one night if I had not given them Hop Bitters. They did them so much good I continued their use until they were cured. That is why I say you do not know half the value of Hop Bitters, and do not recommend them high enough."—B. Rochester, N. Y. [American Rural Home.]

Trip to Charleston.

"All work and no play," is as hard on editors as on other folk, and having had no "off" for the long period of seven long days, the senior with his wife and two youngest children, enjoyed a trip down to the "city by the sea" last week, and had a jolly time of it, seeing every thing in the grand old city, its splendid market, its magnificent battery, its wilderness of shipping, its immense factories, its old mansions with oysters and shrimps, its corner street pinder cake, its candy and toy bazars, the hugest of which is Von Santens, its street cars, its clever people, and a world of other things, that we cannot resist this small blow over the visit, and say that it was indeed pleasant to be there. The meeting with relatives and friends, the dinings out, the delightful rides, and the kind attention received on all sides will not soon be forgotten. To Mr. Richard Arnold, the genial mail contractor for kind courtesies, in giving us use of his horses, we feel under deep obligation. He is every inch a clever gentleman, my shadow never goes less. We might say much more, but neither time nor space admit.

Suit the Action.

The best Liniment in the world for man or beast is Consens' Lightning Liniment. A Great Premium List.

The New York Weekly Express, established in 1855, is not only one of the OLDEST and CHEAPEST but BEST of the New York Weekly Family Newspapers. It is now making a great and successful effort to reach a larger and more general circulation than any other Weekly Newspaper in the United States, and to this end is offering an attractive list of substantial and valuable premiums to single and club subscribers. The long established reputation and responsibility of the Publishers who not only publish the Weekly Express, but the New York Daily Evening Express is a sufficient guarantee of the character of the premiums offered, and the good faith that will govern their distribution. Besides the many other attractions of The Weekly Express it publishes regularly, by authority, the Brooklyn Tabernacle Sermons of the Rev. T. DeWitt Talmage, D. D. The subscription price, One Dollar a year, places it within the reach of all. The office of the New York Weekly Express is 23 Park Row, New York.

The Thornwell Orphanage.

From the sixth annual report of the Thornwell Orphanage, located in Clinton, S. C., it will appear that there have been thirty orphans under its care, three having been dismissed and six received, during this year. These have been educated, clothed, boarded, trained in various arts, domestic and otherwise, and every possible expense met at an average cost of \$38.75 each. For this sum, they have received a first rate English education, and have been physically and personally cared for, for the entire year of twelve months. During the year, Faith Cottage for the boys has been erected at a total cost of \$1,500. As soon as the Orphans' Seminary, a building for School and Chapel purposes, is erected, the number of inmates can be materially increased. REMEMBER that this institution is supported by voluntary gifts. What you give goes directly to the support of the orphans, and not to pay any officers. Thirteen counties of this State, five States, and five different denominations (of parents) are represented among our children. Boxes of clothing, provisions of all kind, and of course, money, would be very acceptable, just now. Send to Rev. Wm. P. Jacobs, Clinton, S. C. WADLEY, EMANUEL CO., GA., Oct. 10, 1879. Gentlemen: While attending the General Assembly this summer, I tried your Star Carline on my leg, it being affected with an old sore caused by a wound received during the late war. After having thoroughly tested it I am compelled to say that it is a success, for I have had experience with different physicians and remedies, and found nothing to cure me until I used your Star Carline, which has cured a remarkable bad case. Wishing you success, I am, respectfully, JOHN BELLI.

The Fourth Annual Fair.

Of the Newberry Agricultural & Mechanical Society was opened yesterday at the Fair Grounds. All fears that the drought and the consequent poor crops would cause a failure were entirely dispelled by the large and fine display of exhibits, especially in those departments that were expected to be most affected. The exhibition in the department of field crops is superior to last year. In the stock department the entries are ahead of any preceding Fair, both in numbers and quality. Such a fine collection of horses and mules is seldom seen in this State. The household department is up to the usual high standard: there are pickles, jellies, preserves, wines, etc., in endless variety. In the departments of mechanics and domestic manufactures the exhibits are quite creditable. The cattle display is very good. The entries of swine are few in number, but they make up in quality. The total number of entries in all departments is 1226.

The attendance yesterday was not large, though as large as usual on the first day. There was a general exhibition in the arena of all the cattle, and also of all the horses. There were many fine horses in the ring under saddle and in harness; there were nineteen in single harness alone.

The gates open this morning at 9 o'clock. A large crowd is anticipated. The forenoon will be devoted to the examination in the arena of the cattle, and a display of horses. The Committee will take the ribbons to-day.

This afternoon, at 3 o'clock, the Society will meet at the Fair Grounds for the purpose of electing officers for the ensuing year, and for the transaction of other important business.

The Fair continues through to-morrow. At the close of the Fair to-morrow the premiums will be awarded.

"Eviction."

The play and performers at the Opera House last night possessed great merit indeed, it may be justly said that no entertainment of the season has been so attractive. The audience, which was a large one, was much pleased. Mr. Vermer, as "Terence O'Brien," was the embodiment of the character he assumed, as was also Mr. Charles Freno, as the "Balliff," Mr. Coffey, as the "Groom," and Mr. James Duffy, as "Barney Kelly." The several other characters were well sustained, and the play in its entirety was presented to the unqualified satisfaction of the audience. The play and actors are especially commended to amusement patrons as being of a superior order of merit. A notable feature of the performance is the perfect dialect of the several characters, making the genuine Irish comedy conspicuous in its perfection. It is a rare element in traveling companies, and the success of last evening was all the more gratifying because not counted. The story of the play is wisely chosen, and the characters that the entertainment is worth the patronage of amusement seekers, and all admirers of a first-class play by first-class players will attend the concluding performance of the company.—*Atlanta Constitution*, Oct. 7.

Don't Wake Them," and represents a little girl, seated at a bedside, where her two sick dolls are, and she is holding up her fingers, warningly, if written for. Mr. Cramer put all the scenery on the stage one day last week, and shifted it around to see how it would work. The scenery is very fine; and the shifting apparatus works like a charm. The drop curtain, representing a scene on the banks of the Nile, is splendid.

From various quarters we hear reports of the cotton crop turning out better than was expected. Mr. Jno. C. Goggans who expected in August to get only 15 bales has already gathered 20. Capt. Conner, of Jalapa, who expected 16 will get 25. There are many other like cases.

We never saw stock in better condition at this time of the year. One reason of this is, no doubt, due to the fact that nearly everybody has his threshing and ginning done now by steam instead of horse power. There is no harder work on horses and mules than running a gin or thresher.

Joe Williams, colored blacksmith, while shoeing Mr. H. C. Wilson's horse last Saturday struck him in the eye and knocked it out. The horse died from the effects of the injury last Thursday. Mr. Wilson got out a warrant for Joe Tuesday, charging him with malicious mischief. Joe, learning of the warrant, fled, and was captured by Constable Caldwell a mile from town. His statement is that he struck at a mule with a bridle rein and accidentally hit the horse in the eye. The horse was a very good one.

Jack, the bootblack, "jumped the town" Saturday under shadowy circumstances. Turning aside from his regular occupation he went into the commission business. He bought a dozen strings of fish for Mr. Z. L. White, and a dollar and a half worth of chickens for somebody else, pocketed the proceeds, and left for parts unknown. Jack is a Charleston negro, who made his appearance in Newberry about a month ago. He is about eighteen years old, is very black and has a defect of the eyes, which gives him a peculiar appearance.

We Notice That the Fair is a great deal better than was anticipated; indeed it is something for Newberry County to be proud of.

That Col. Jno. R. Spearman has a thoroughbred Guernsey bull and a thoroughbred Guernsey heifer on exhibition. That Mr. J. M. D. Kinard of Ninety-Six has a head of fine cattle on exhibition, including Devons, Durhams and grades.
