Farming Machines.
Attention is directed to the advertisement of Mr. Fred A. Schumpert, who is the agent for several first class machines for farming work. If you are in want of a Harrower, Reaper, Mower or Sko, go to him.

Robinson's Humpty Dumpty
Played in the Opera House last Thursday night to a large audience. There were a few laughable features in the performance, but as a whole it did not come up to expectation. The performance may be briefly described as a revised and abridged edition of a circus with the best parts left out.

Hold Us Somebody
While we repeat what the Lincoln County Common School Journal, in one of its issues, has said, and then let us down east: "The Newberry Herald, published weekly at Newberry, S. C., by Thos. F. Greneker, Ed. & Prop., is one of the newest and whitest as well as one of the handsomest papers on our list."

Dr. J. E. Eschbins Berley, of Pomaria, graduated the 1st instant at the Charleston Medical College. He is now a full fledged M. D., and is authorized to administer pills and potions to all who need them. Mr. Berley took a high stand in his class. He received the prize for the best report of Dr. Kinloch's lectures on Surgery—the prize being two handsome volumes of Dr. Gross's System of Surgery.

Three Cheers.
I afflicted with that most painful and annoying disease, Hemorrhoids, or Piles, use Tabler's Buckeye File Ointment. It is victorious in cases of even the longest standing, and establishes a permanent cure. Procure a bottle and be relieved. Price 50 cents. White's Cream White Vermifuge is the best worm killer. For sale by Dr. W. E. Pelham. e.o.w.

Barn Burned.
A barn containing 175 or 200 bushels of corn belonging to Mr. John W. Monks, near Pomaria, was burned last Friday night. The fire was discovered about 3 o'clock in the upper part of the building, which shows that it must have been the act of an incendiary. The stables near by, in which were all Mr. Monks' horses and mules, narrowly escaped the flames. No clue to the perpetrator.

The American Farmer

For March 1st, still further improved in appearance and convenience, it is full of reasonable articles.

In the issue for March 15th, the awards will be announced of the prizes for the best essays on mixed farming, improved live stock, fruit growing, trucking and tobacco, and the editors say it is in store for the month of March. The Farmer is a friend whose semi-monthly visits should be welcome to every farmer. It is published by Sam'l Sands & Son, Baltimore, at \$1.50 a year, or at \$1 to clubs of five or more.

Peterson's Magazine,

"The Ladies' favorite," as it is generally called, is before us, for April, and is even better than usual. Among other costly embellishments, it has a "Colored Pattern for a Table-Cover," one of those new and stylish affairs only to be found in this magazine, and alone worth the price of the number. The steel engraving, and the exceptional illustrations, are also some fifty illustrations for the fashions and for the work-table, giving the latest styles and patterns for both. No other lady's book rivals this in the high character of its literature. Every lady ought to take this magazine. It should give them a fair trial, and will become thereby enthusiastically in the praise of their curative qualities. [Portland Argus.

Always Relieves Her

W. E. PELHAM, Druggist, Newberry, S. C. I have used your "Pectoral Syrup" in my family with great benefit. My wife is troubled, now and then, from Colds and Coughs, arising from measles contracted several years ago. Whenever troubled your Pectoral always relieves her.

Respectfully yours,
J. CALVIN NEEL.

The Debating Club

Decided Friday night that it is not desirable that this government have a plural executive. To-morrow night the Club will discuss the phonetic system of spelling.

The Club elected the following officers for the ensuing month: President, Prof. A. P. Pifer; Vice-President, L. W. Simkins, Esq.; Secretary, Mr. W. H. Hunt, Jr.; Critic, Rev. Luther Broadus.

A Foolish Mistake.

Don't make the mistake of confounding a remedy with quick medicines. We speak from experience when we say that Parker's Ginger Tonic is a sterling health restorative which will do all that is claimed for it. We have used it ourselves with the happiest results for Rheumatism and when worn out by overwork. See adv.

A Financial Basis.

A colored man driving a poor horse attached to a small wagon loaded with fodder was accosted by a friend and brother on the street as follows: "Hy, dar, Sam, what for you bring dat fodder here? Why don't you give it to dat poor horse?" Sam replied: "You fool, nigger; dere's money in de fodder, but dar ain't no money in de horse." Many farmers seem to act on the same principle. There is money in cotton, but no money in corn and oats; and therefore they raise all cotton.

60 ACRES TO THE MULE.

Plant no corn except in bottoms. When the small grain is cut plant the stubble land in peas in rows 24 inches apart with a two-footed plow. The reasons in favor of peas against corn are: (1) that they are worth just as much as corn; (2) the cost of raising them is about one-third that of raising corn; (3) they fertilize the land, while corn exhausts it. Next year

REVERSE THE CROPS;

plant small grain where cotton was planted the year before, and cotton where grain was. Do this, and the fertilizing by cotton seed and peavines raised on the farm will improve the land every year; and in twenty-one years the land will be as rich as when the timber was first cut off.

When a farmer gets a living off his land for himself and stock; the lands get their living; and the cotton brings clear money. Some will say that a mule cannot tend sixty acres; but Mr. Crowl says it can do it easily if he has the right kind of a man to assist it. To prove this he says that year before last Mr. Hamilton, of Edgewood, with two mules, making 50 bales and made bricks with these same mules that year \$250 worth of wood. A great many farmers don't know what a mule can do, because they have never given him a fair showing.

Mr. Crowl says that one serious mistake many make is in PUTTING OFF FARMING OPERATIONS TILL JANUARY;

that a farmer should lay all his plans, pitch his crops, and begin his year's work in the first of September. The fall and early winter, the best time for working, is in great part wasted and stock is kept idle at a big expense, while the farmer is dawdling about waiting for January to come. Another serious mistake is to buy mules, wagons and farming implements (all which cost heavily) and to leave the care of everything to the land without giving back to the land anything. If a farmer makes \$500 off a piece of land he should put \$250 of it back on the land in improving it. There ought to be a law to punish a man for allowing his land to go to waste.

Mr. Crowl says that with a long handle hoe, a spade and a rake he can do almost any kind of this County and make a plenty for himself and his two children; as much or more than the average farmer makes with a mule or two.

Mr. Crowl gives the following advice: If you would have your farm well attended to attend to it yourself and see that you raise your own provisions at least; but if you don't care, get someone else to attend to it for you, and then it doesn't matter much what is planted. He says: "Farming is a slow business; but it is a sure business, certain."

Disappointment in matters of pleasure is hard to be borne, in matters affecting health it becomes cruel. Dr. Bull's Cough Syrup never disappoints those who use it for obstinate coughs, colds, irritation of throat and lungs, etc.

Give Aid to a Good Cause!

We learn that the ladies of Sharon Methodist Church, in connection with several of Hopewell and Tabernacle, are raising for their noble-spirited sisters of the Baptist Church, will spread a "Hot Supper" at Martin's Depot, on the evening of the 24th of March, inst., to raise means to aid in finishing and furnishing the parsonage of North Newberry Circuit. It is expected that there will be a large gathering. Features of innocent attraction and entertainment will be provided for the young of both sexes. Contributions in money and meats, cakes, etc., are solicited, and a general invitation to Christians of all denominations, and those who will aid this good cause, is hereby extended.

Suit the Action.

The best Liniment in the world for man or beast is Consens' Lightning Liniment. For Rheumatism, Lane Back, Pain in side, Neuralgia, Corns and Bunions, it is a certain cure, and for Spavin, Ringbone, Galls, Cuts and Scratches on animals, it is the best remedy known. Price 50 cents a bottle. White's Cream White Vermifuge is the best worm killer. For sale by Dr. W. E. Pelham. e.o.w.

A TALK WITH A PRACTICAL FARMER.

How to Make Farming Successful.

We had a long talk a few days ago with Mr. J. A. Crowl, one of Newberry's most successful farmers, on the subject of farming. His ideas on the subject appear to us as most practical value. The conversation began by our asking Mr. Crowl whether he proposed to keep a

WESTERN CORN CRIB

this year. His reply was that he did not; that he has planted 140 acres in wheat and oats, and intends to make food enough for himself, his hands and his stock. He will reduce his cotton acreage this year one-fourth; next year he will reduce it one-half, and will keep it there. The Lien Law he regards as having proved a great injury to the farming interests. Enacted at a time when cotton was high, it was expected that the farmers would easily pay their liens and have money enough left over to buy more land, and to get deeper in debt. They have been making frantic efforts to get out by

RAISING HIGH COTTON CROPS;

but every effort has sunk them deeper. The effect of the lien system has been to force the farmer to raise too much cotton, which he is compelled to sell at a low price while he pays a high price for his provisions. Mr. Crowl gives his idea of proper farming thus: Pitch your crop the

and work according to system. With one mule and a hand hired for 50 cents a day you can sow 15 acres of grain in 15 days of September; and 15 acres in 15 days in October. As the mule will do 30 acres of grain sown down at an expense of \$15, exclusive of the cost of seed, and that you should raise. In November fix up a few small patches of Lucerne, or clover of some kind. With the same mule in December and January haul in firewood, and litter to make up for cotton. This same mule can attend 30 acres in cotton also, making all together
