We announce, with deep regret

### GEN. R. H. ANDERSON.

We announce, with much pleasure, that this distinguished citizen has determined to make his residence in our town We welcome him, and his family, cordially, to our midst.

The "Garden Plow and Marker," invented and patented by our worthy fellow citizen, HENRY HAYNESWORTHfor many years our faithful Post Master -is generally approved. We are pleased to notice that he has started a manufactory of them at Sumter.

We have learned with much pleasure, that Mr. Gainey, a very worthy mechanic, at Mayesville, was entitled to the credit for constructing the "sweep" exhibited recently by Mr. B. F. Wilson, at this place.

The Wilmington Star continues to be one of the most spicy and acceptable of our daily exchanges. We are pleased to see, too, the marks of prosperity it reflects on its bright pages.

### "GOOD TIME."

We certainly appreciate the attention of our friend C. T. MASON. He has given us "a good time" piece, which, as we write, smiles upon us from its ellip tical face, making music with its merry click to the scratch of the pen, while marking the moments as they fly.

### FIRE.

We regret to learn that the dwelling of Mr. HENRY D. MAHONEY, about 15 miles from Sumter, with all his household and kitchen furniture, family supplies, clothing, &c., were destroyed by fire, on the morning of the 20th ult. Any contributions to this destitute fami ly will be greatly appreciated, if left at this office.

The origin of the fire is unknown Special care had been taken with the embers left in the fire place, and about 4 o'clock in the morning the family were aroused by the flames, with scarcely time to escape.

### PROVOKING.

We learn that one of the packages of The Sumter Watchman, of the 16th inst., sent to Mayesville, did not reach its destination. We now send fifty-four copies of the Watchman regularly to that office, and, as these are divided and put into three packages, about eighteen copies of our paper, of the date mentioned, failed to reach the hands of subscri bers. This is provoking, and our Mayesville friends have a right to complain about it, and we hope such a thing will not occur again soon.

DARING THEFT. A horse, belonging to Mr. Win. S. SCARBOROUGH, was stolen at BARNETT'S Store, Carter's Crossing, in this County present, in attendance upon an exhibition of some sort. The tracks were followed as far as Swimming Pens. - Bank of Newber We trust the thief will be caught, and Bank of Georgetown ..... Bank of South Carolina. Mr. Scarborough recover his horse.

Finally, a lusty son of Africa rushes into the midst, leaps high up over the capine deadly grip, and lets fall his ponderous carcass upon them.

Just here it may not be amiss to observe that that rendezvous upon the public square is fast becoming an intolerable nuisance. The most shocking obscenities are not unfrequently obtruded upon the ear of those that pass that way, and much else occurs that offends the public sense of decency and

Intellectual superiority occasions little difference in manners or conduct. Nature guarantees a general similarity of action. Opinions and fancies, whether more or less within the province of human control, and an identity of which is not essential to the purpose of existence, admit of an in-lefinite variety. ### OBITUARY.

DIED, in Sumter County, on the 15th Feb., MRS. SUSAN TISDALE, in the 72th year of her age. She had been a member of the M. E. Church, South, for about thirty years, and during her latter days, her life was exemplary as a christian. In her last moments she requested those who conversed with her to meet her in Heaven. Her friends and kindred entertain a good hope that she has gone where the "wicked cease from troubling, and where the weary are at rest."

March 2nd, 1870. THE SEASON AND ITS DANGERS. The human body is chiefly composed of tissues and fibres as sensitive in every change in the condition of the atmosphere as the most delicate electrometer, or the quicksilver in a barometer

abe.
The stomach, the skin, the nerves, the lunge, Spring and the excretory organs are especially liable to be effected by these variations, and the best defence against their disastrous tendency is to keep the digestive nachinery, which feeds and nour-

ishes the whole system, in good working order. If the stomach is weak or disordered neither the blood nor the bile can be in a healthy state, and upon the fitness of these two important fluids for the offices assigned to them by nature, and the regularity of their flow, health in a great measure depends.

When the air is heavily laden with chilling vapors, as it often is at this season of the year, the digestion should be an object of peculiar care. If it is week and languid, the whole physical structure will be enervated. If it is vigorous, the entire organization will be strong to resist the nu oward and depressing influence of a damp and vitiated atmosphere.

A pure and powerful tonic is therefore especially needed as a safeguard against the diseases most common in the spring, and Hostetter's Stomach Bitters being the most wholesome and potent medicine of the class at present known, a course of it is particularly advisable at this pe. riod of the year. The stomach will thereby be toned and strengthened, the liver and bowels FALL regulated, the nervous system braced up, and nature put in a stateof active defence against the miasma which superinduces intermittent and remittent fevers, rheumatism, nervous debility, headache, hypochendria and other complaints which are apt to assail the untoned and unfortified organizations. The body is strengthened without exciting the brain, and consequently no unpleasant reaction follows its reviving and enovating operation.

ZANESVILLE, Onto, February 20th, 1869. Messrs. J. N. HARRIS & CO.,

Gentlemen:—
I have been afflicted for ten or twelve years with Bronchitis in its for ten or twelve years with Bronchitis in its worst form, and have tried everything that I could buy recommended, but with little or no relief, antil I used your Allen's Lung Balsam, which gave me relief in a short time. I believe it is the best proparation extant, for all diseases of the throat and lungs, and I feel it my duty to say this much for my own case, so that others may try it and get relief.

Respectfully,

MATHIAS FREMAN.

It is a Corrigent of the Bowel disorders contingent upon this period ; a grate ful Carminative; a nutritions Syrup; and a gentie Anodyne, inducing calm and refreshing repose, without the pernicious and distressing reactionary disturbance of the nervous system that results from the exhibition of most preparations—expressly made for children.
