dered to deliver them up they were advised by CARROLL, CLARK & CO. the same party to disobey the order; and also, that about two weeks ago, each member of the Waxhaw company received twenty rounds of ammunition. It can be no longer denied that there is ammunition for these guns. We have seen it and can lay our charges, and in giving them publicity we are careful to state nothing but what can be proven. We do not believe the Governor is to blame. We are led to think that the responsibility rests with Gen. Anderson in not carrying out the orders of his Excellency.-Lan-

A Stubborn Fact. There is scarcely any disease in which purgative medicines are not more or less required, and much suffering might be prevented were they more generally used. No person can feel well while a costive habit of body prevails; besides it soon generates serious diseases which might have been avoided by a timely use of Cathartic Medicines. For this purpose Dr. TUTT'S VEGETABLE LIVER Pills are confidently recom mild, safe, prompt and uniform in their action. They contain no Mercury. The "PAIN KILLER," may justly be styled the reat medicine of the world, for there is no region of the globe into which it has not found its way, of the globe into which it has not found its way, and been largely used and highly prized. Moreover, there is no clime to which it has not proved to be well adapted for the cure of a considerable variety of diseases; it is a speedy and safe remedy for burns, sealds, cuts, bruises, wounds and various other injurious, as well as for dysentery, diarrhee and bowel complaints generally, it is admirable suited for converges of man out the face mirably suited for every race of men on the face

the globe.

It is a very significant fact, that notwithstanding the long period of years that the "Pain Killer" has been before the world, it has never lost one whit of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand

covery, and at no previous time has the demand for it been so great, or the quantity made been so large, as it is to-day.

Another significant fact is, that nowhere has the Pain Killer ever been in higher repute, or been more generally used by families and individuals, than it has been here at home, where it was first discovered and introduced. That the Pain Killer will continue to be what we have styled it must will continue to be, what we have styled it, THE GREAT MEDICINE OF THE WORLD, there cannot be the shadow of a doubt .- Providence Advertiser.

To it we are indebted for all the blessings of sociality, all the flowers of humanity and civilization; and what HERDEN says, is equally true and beautiful: "The lyre of Amphior has not built cities; no magic wand has transformed deserts into gardens. THIS LIVING FOUNT are inhaled only by a small circle—its sounds soon die away on the distant shore, and oral tradition "wastes its sweetness on the desert air," as it sails to foreign lands. But writing supplies this defect and gives to the edifice of human improvement, facility and a firm foundation. "The mortal who invented this means to fetter the fugitive spirit, not only in words, but in letters, worked as a God among men." TRY IT. It was poets that ennobled and established the Grecian religion-not priests, not legislators, and not abstract sages. Equally remote from gross feticism and abstruce metaphysical doctrines, they remained true to the character of their youthful, fanciful people, and their mythology became a living picture of nature and the world. Just so, ladies, you must remain true to the "Old Plank Shanty"—select your fancy costumes and fine feathers from the rich assortment always kept within her walls, and you will become living pictures of beauty and nature and win the admira-tion of a fastidious world.
