# MEDALLIONS.

THE MEDALLION is the latest novelty for the preservation of photographs, as well as the latest creation to beautify the home and satisfy the artistic taste. The MEDALLION cannot be soiled like paper or cardboard, nor will it break like glass, nor crack like enamel. It is dust, also water proof, and can be washed without injury. Its porcelain finish does not lose its brilliancy. The Medallion is furnished in four sizes, ranging from 41/2 to 71/2 inches in diameter. The smaller size is recommended, because enlargements often result in coarse lines and defects which are not apparent in the original. The Medallion is mounted by a special process over a convex shell, the back being likewise convex, the frame binding the two, giving remarkable strength and stability, and is furnished with adjustible and reversible easel back, which can be used as an easel on a table, or for wall hanging. Furnish good cabinet photograph, which will be returned.

By arrangements with the manufacturers THE ENOUIRER offers one of these handsome Medallions in either of three ways, viz.: 1. For \$1.50 in cash. 2. For FOUR subscribers to THE ENQUI-RER. 3. One Medallion and THE ENQUIRER one year for \$2.50.

If not familiar with Medallions we will be pleased to show you a sample at this office.

## HOOSIER CORN PLANTERS.

THE HOOSIER CORN PLANTER has been on the market for more than 30 years, and its popularity grows than 30 years, and its popularity grows as the years go by. It is made by the same people who manufacture the celebrated Hoosier Grain Drill, and is just as far ahead of other makes of planters, as the drill is ahead of all makes of drills. Farmers who have used the drill, as well as others, will appreciate the force of our claim. We sold the planter last season for the first time, and guarantee it unconditionally, on the strength of the reputation of the manufacturers. Read what farmers who have bought it, have to say:

We have thoroughly tested the Hoosier Corn Planter with fertilizer attachment, and say unhesitatingly that it does everything claimed for it. It does the work well and accurately. It is simple and strong in construction, eas-
