ically and from that the thing spread. the small blaze assumed the proportions of a conflagration, enveloping the country. Whatever the trouble the first question of the French, according to the proverb is, "What's the name of the woman?" Of course a woman was at the bottom of it. The woman this time, according to the story, is Mrs. Sadie Nichols. - Philadelphia August 21: William H. Hicks, paymaster for the Schaum

& Uhlinger company, textile machinists of this city, was held up and robbed of \$6,000 within a short distance of the machine shops today by two highwaymen, one of whom shot him in the right arm. Hicks, accompanied by Walter P. McDonald, was on his way to the shop with a satchel containing the \$6,000, when he was waylaid, it is charged, by John Posicki and a companion. The highwaymen held pistols at the heads of Hicks and McDonald and demanded the satchel containing the money. Hicks drew a grabbed the satchel and fired at him. The bullet struck Hicks in the right arm, compelling him to drop his rein the neighborhood chased Posicki, who jumped on a trolley car and commanded the motorman to run the car as fast as he could, but the pursuers pulled the trolley pole from the wire and stopped the car and the fugitive was caught. Later Anton Mojeski was arrested on suspicion of being one of the highwaymen. -In December, 1897, a woman named

Augusta Nack was sentenced to the penitentiary of New York for fifteen years for killing William Guldensuppe. She was discharged in July, 1907, after a lonely house and there to kill him able to control their own business. was hanged. Mrs. Nack returns to the world to find all the world turned against her. The story of her life follows her wherever she goes. From the moment she left the Auburn prison went her past rose to confront her and maelite, a stranger in a strange world which she had darkened with her Only through charity could she find shelter and protection. She was not an old woman, but crime had made her old. She was garrulous, broken in mind and in spirit. She told the reporters that her mother was still living in Germany, whom she had deserted years ago; that mother was Abbeville, S. C., a prominent member the one person in all the world willing of the A. R. P. denomination, a bookthe one person in all the world willing to receive her and shelter her. The wages of sin is death. This woman has found the truth of this proverb.

- New York, August 19: Governor New York to consult with the attorneys in charge of the state's case in the hearing of the Southern railway's this injunction suit, talking of the situathe act of the legislature to regulate the railroads, said: "I have no patience with this cry that legislation in our that taketh a dog by the ears." these lines is going to retard the development of the southern states by and in effect, killing the goose that ness," lays the golden egg. I am an indusa point to protect capital and protect one. the railroads from anything that was unfair, but when the railroads try to run us, then it is time to call a halt. There was only once that this matter became serious. Had Judge Pritchard 1824 in which he referred to South tried to get our prisoners away from Carolina as his native state. He did us and adjudged Judge Long in contempt, I certainly would have backed up Judge Long with every soldier and at the moment to enquire where we every deputy sheriff in North Carolina, are at-in what state or county and Of course, if President Roosevelt had sent troops into our state the state would have had to throw up our hands, ago, with the power of speech at the as one state could not fight the Union, but we should have appealed to the voters of the country and I think they would have been with us. There is puted and the deeds to that house and only one way of dealing with these railroads. The point should be, is the railroad making money? If it is making money over reasonable profits, then it should submit to a reasonable reduction in rates. The North Carolina law permits the roads to make 10 per cent. I think that is a pretty good profit."

- New York August 18: Leslie M Shaw, formerly secretary of the treasury, now president of the Carnegie Trust company, authorized the following interview on the present financial and industrial condition today: "Our farms produce more than \$6,500,000 .-000 per annum, and the prospect is good for an average crop. Our mines produce more than \$1,500,000,000, and our forests more than \$1,000,000,000. And neither of these sources of wealth has been exhausted. The output of our factories, in other than food products, is approximately \$12,000,000,000 and no fires have been extinguished. The railways earn more than \$2,000,-000,000 and they are all in successful operation. The payrolls of our factories and railways aggregate approximately \$3,500,000,000 and the scale of wages has not been reduced. In other words, the real sources of the peoples' wealth have not yet been affected, and the ability of industrial concerns to pay dividends is not measured by the market price of their stocks. Logical therefore, wanting. Psychological reasons are never wanting. If I judge correctly, the people will have exactly it up: if the banks refuse to grant ac-

lar intervals bear in mind that this her story would only get him into secountry has never yet experienced a rious trouble without doing herself any period of severe depression that was good, she would deny it all? If South not traceable to financial or economic agitation, usually to both. In 1893 the law requiring a certificate as a pre-reqredemption of green backs in silver instead of gold was openly advocated; the party in power was under promise to remove the protective tariff from our industries, the free coinage of silver at the rate of 16 to 1 was championed by prominent members of both any kind of a marriage ceremony in parties. The country might have sur- Charleston. vived any one of these sources of Mrs. Nichols is used by Jeffs to make alarm, but it could not survive all tariff will not be touched for at least of his public utterances, and who try speed at which we are going is most machine. It is natural that there age to prevent undue retardment in ident, and because it is so well undertacked on to the original complaint and our industries. Capital cannot be stood how soon most prolific talkers forced into activity, but it can be forced out of activity. I have never seen the time when universal sanity was more essential to our well-being."

The Morkville Enquirer.

YORKVILLE, S. C.:

FRIDAY, AUGUST 23, 1907.

THERE is evidence in the president's revolver, when one of the thieves address that he has been studying the book of Revelations.

A FIGHT between the president and will be corrected as soon as possible. volver. The shooting attracted a the powerful financial barons who decrowd and hands from several mills sire to be a law unto themselves, may but what else is to be done? The

The Task of a Giant.

There are those who love to fling at questions our financial system and the President Roosevelt for the frequency eighteen months. Some check in the to ridicule him as a regular talking desirable and the checking process has should be such. The public utterances probably begun. It will now require of Mr. Roosevelt have been more nua fair measure of confidence and cour- merous than those of any other presand writers exhaust themselves and begin to make themselves ridiculous with repetitions, it is not surprising that many should be tempted to fling at him for his presumed failing.

But as frequent as have been the public utterances of Mr. Roosevelt since he has been occupying the office of president, it would be difficult to pick out a single one of his messages or addresses and show wherein it falls to measure up to any deliverance of any other president as to timeliness breadth, loftiness, patriotism, courage or any other high quality.

The president has said and done things which have failed to merit the approval of men who are probably just as honest and just as patriotic as he. He has done things which appear to have been altogether wrong, and which probably were wrong; but taking all his public acts together, it is difficult to arrive at any other conclusion than that if he has made any serious mistakes at all, they have been made with the best of intentions, and that if they have not already been corrected, they It is not necessary to tell the people

of this country the difference between the question of a public cotton weigher demoralize things somewhat before the right and wrong. They know. He seemed, After the Gray Fox. however, to take the joke in good part, and after a while the incident was apparently forgotten. As the train slowed up for the stop at St. been operating the squawker comes up to Dr. Hanahan, with his hands behind his back, and asked: "Aren't you the man that busted my balloon?" "Yes, I did it for a joke," Dr. Hanahan replied, whereupon without warning, the other man threw up his arm and brought down a beer bottle upon Dr. Hanahan's head with sufficient force to render him unconscious. About this time the train stopped at St. George's station, and the man, who had evidently timed his assault well, sprang from the train and made his escape into well as ever, but the story would have been very different had his unknown assailant used a very little

Death of a Worthy Negro.

J. E. Alexander, a well known negro of Filbert No. 1, died at his home on one of Mr. J. M. Stroup's plantations last Tuesday afternoon after an illness covering most of the summer. Alexander was a hard working, self-rereporter has been advised on authority that he considers good, that Alexander leaves his family along with some valuable personal property, an Equitable life insurance policy for \$1,000. He leaves a widow and a large family. A Good Time Coming.

Fort Mill Times: Sheriff Brown has according to a report from Yorkville, put the people of this county on notice that it is his purpose to put all moonshiners in his territory out of business make good. The sentiment in favor of enforcing laws of all kinds, especially those against murder, stealing, etc., is more healthy than ever before and the outlook now is that the time is not far off when the murderer will go to the gallows and the thief to the penitentiary in this county, regardless of color of skin or social or financial standing. Not Good for Calves.

Mr. John L. Stacy of Clover, has ago," said Mr. Stacy. "The animal took sick suddenly, swelled up to conthe yard by accident."

Road Duty In Cherokee.

Cherokee News: There were many board of county commissioners met to point an agent, whose duty it shall be plicants were turned down. lison, Esq., editor of The Herald, with person was able to do road duty, there continually grown in numbers and in the employ of the Lancaster cotville, S. C., left last Thursday for a but one dollar. To be exempt from it if something is not soon done to stop ville, S. C., left last Thursday for a but one dollar. To be exempt from it if something is not soon done to stop to leave was a serious grievance to week's visit among friends and relafore the board. If people would try as of the state.
