MANY WHOSE DECLINING HEALTH, WHICH do now with grateful emanations to the All-Wise Disposer, offer heartfelt thanks for this timely remedy. Juring the short time since its public introduction into use, the Originator has most happily realized her most sanguine expectations in manifestations issuing from all quarters of its unparalelled curative properties, for in no case where it has been administered with regard to directions, and persevered in, has it failed in its beneficial results.

results.

In resorting to this remedy, the invalid can depend upon the safety of every article in its preparation, and while it accelerates the healthful ractions of each organ and vessel, the mind can be perfectly free from apprehension of any subtle ingredient being insinuated into its corrections.

hension of any subtle ingredient being insinuated into its composition.

The appetite, which improves under its administration, is at liberty to indulge prudently in whatever nutriment is palatable, digestive and wholesome, and while it is no more than proper to avoid exposure to fresh cold, no lear need be entertained of any liability under this course of treatment to induce it. It is a pleasant AROMATIC CORDIAL, quite agreeable to the taste, and as a hung revivityer and balsam of health, it is distinguishing itself as without precedent, and we trust will, ere long, claim for itself general acclamation for its unrivalled efficacy.

'EXCELSIOR" SPRING WATER.

SARATOGA

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any other in the far-famed valley of Saratoga. Its virtues are such as have secured it the high encomiums of all who have used it, possessing, as it does, in an eminent degree, cathartic, diuretic, alterative and tonic qualities.

From SAMUEL HENRY DICKSON, M. D., Professor Practice of Physic, Jefferson Medical College, Philadelphia, formerly of Charleston, S. C.

PHILADELPHIA, November 15, 1865.

I have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid life to use the different waters of the several fountains which boil up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly imprepanted with the carbonic acid, lively and sparkling. * * I can heartily and conscientionsly recommend it to all who need a gentle cathartic and diuretic.

MESSIG. CHICKERING & SONS—Gents: I have much pleasure in enclosing a document signed by the first composers, musicians and professors in Europe. I held your Pianes in such high estimation (wide my certificate) that I felt it my duty to take one of them with me to Europe, to ascertain the opinion of my professional brethren. The enclosed certificate will prove how unanimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Mr. Collard, which I am sure must be gratifying to you. I have the honor to be, gentlemen, yours very truly,

James M. Wehli, Esq.:

My Dran Sm: I have great pleasure in asking youte convey to Messrs. Chickering the expression of my highest approval of their instrument. It is, I consider, not merely the best instrument of American manifacture that I have tried, but one of the figest Grand Planofortes that has ever come under my observation; and the Messrs. Chickering may well be proud of having turned out from their manifactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world. rid.

Dear sir, very sincerely yours,

MY DEAR SIR: As you are going back to the United states, I must beg you to remember me kindly to the Messure. Ohickoring. Tell them I was delighted with their Grand Pisno-forte—as good an instrument, I think as was ever turned out, both in touch andler:

GENTS: I have just been invited by Messra. Collard to
try a Grand Piano-forte manufactured by you, and I
have no hesitation in endorsing the opinion of my old

Among the chief points of excellence of the Chickering Pianos, of which speak the ronowned artists in their congratulatory testimonials to the Mesers. I consider Chickering & Sons' Pianos, beyond com arison, the best I have ever seen in America.

GOTTSCHALIE. I consider Chickering & Sens' Planes superior to any

in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

WEHLI.

Your Pianos are superior to any I have ever seen in It is country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.

POZNANSKI.

During the past eight years I have constantly played upon the justiy celebrated Erard Planos; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.
