Globe Mutual Life Insurance Co., of N. Y.

CASH ASSETS JANUARY 1, 1869, \$1,171,000.
INCORPORATED 1864.

Has been in operation but four years, during which time it has assured a larger amount than any Company in the United States, during a corresponding period of existence. One of the chief causes of its organization, was the forfeiture by several Northern Companies of the policies of Southerners, during the war. The leading officers of this Company protested against this injustice, and on its consummation, withdrew and organized the "GLOBE MUTUAL," on principles more liberal and just than those yet adopted by any other insurance Company. In the event of death in battle or in a duel, the equitable value of the policy will be returned to the heirs. All other Companies forfeit it. In case of suicide, the FULL Policy is paid. No restriction on travel. This Company has, in its guarantee fund of \$500,000, an element of strength possessed by no other Company. It offers the entirely new feature of Probability Endowment, which gives the largest possible sum for the premium paid. No other Company possesses this feature. Insures children of any age. In the moderation of its premium rates, in the variety of its tables, in its dividends and in the security offered insurers, it invites comparison with any other Company.

ST. CLOUD HOTEL.

THIS NEW and Commodious HOUSE, located corner of Broadway and Forty-second street, New York, possesses advantages over all other houses, for the accommodation of its guests. It was built expressly for a first-class family boarding house—the rooms being large and en suite, heated by steam—with hot and cold water, and furnished second to none; while the culinary department is in the most experienced hands, affording guests an unequalled table.

One of Atwood's Patent Elevators is also among the "modern improvements" and at the service of guests, at all hours.

The Broadway and University Place Cars pass the door every four minutes, running from the City Hall to Central Park, while the Sixth and Seventh Avenue lines are but a short block on either side, affording ample facilities for communicating with all the depots, steamboat landings, places of amusement and business of the great metropolis.
