GUANO.

Price, 445 Cash will. Usual Advance for Time.

EXPERIENCE is the use of this GUANO

If or the past six years in this State, for Cotton and Corn, has so far established its character for excellence as to render comment unnecessary.

In accordance with the established policy of the Company, to furnish the best Concentrated Fertilizer at the lowest cost to consumers, this Guano is put into market this season at the above reduced price, which the Company is enabled to do by reason of its large facilities and the reduced cost of manufacture.

The supplies put into market this season are, as heretofore, prepared under the personal superintendence of Dr. St. Julien Ravenel, Chemiet of the Company, at Charleston, S. C.; hence planters may rest assured that its quality and composition is precisely the same as that her: tofore sold.

At the present low price, every acre planted can be fertilized with 200 pounds of Guano, at a cost not exceeding the present value of 30 pounds of cotton, while experience has shown that under favorable condition of season and cultivation, the crop is increased by the application from two to three-fold the natural capacity of the soil; hence under no condition could its application fail to compensate for the outlay.
