an State Convention

sease Convention or the Republified Programme of the Public Instruction. The rational sease of the Republified Programme of The Repu

THE LIEUTENANT GOVERN-

We have been pleased to notice in everal of our State exchanges favorable notice of Mr. Dudley W. Adams, of Allamakee county, in connection with the Republican nomination for utenant Governor of Iowa. The eman referred to enjoys to as great an extent as any man in the State the confidence of that leading class of our citizens, the farmers, to which he he himself belongs. He has the certain reputation of intelligence and ability; and his recent action in regard to the Waterloo flasco shows m to be devoid of undue personal mbition, and a wise and discreet It was therefore with ure that we saw the suggestion m influential sources that the nomnation alluded to above be tendered to Mr. A., and that we now see in his own county paper an indersement of the project which will naturally be en as an indication that the comliment if proffered will be accepted in the same spirit in which it will be given. The Allamakee paper, after oting the fact that a change in the Lientenant Governorship is a foregone conclusion, formally announces Mr. Adams as a candidate for the nomination. It refers to him as "a man of excellent sense, of cool judgment, a fine conversationalist, a good writer and a fair orator. He is active, energetic, positive and eminently execu-Savs, "his success in presiding over so unwieldly a body as the State Grange, which held a convention of ome 800 or 1,00 delegates at Des Moines last winter, shows that he has just the ability needed for presiding fficer of the Senate; while stances cause the duties of Chief Executive to devolve upon him he has the requisite ability, and the familiarity with public affairs, to perform m with credit to himself and service to the State." And concludes with the following earnest and well onsidered language :

Mr. Adams is one of the most intel ligent representatives of the agricul-tural classes in this State, and one of the best known and best appreciated. It is due to this class that so competent and worthy a representative should be selected as one of the standard bearers of the Republican party of this great agricultural State, particularly now when the farmers are arous-date on expect struggle against the ed to an earnest struggle against the monopolists. While we urge the nomination of Mr. Adams because he nomination of Mr. Adams because he is a Republican, and because he is in every way worthy and competent, we certainly think it should be no disparagement to him that the farmers of the United States have sufficient respect for his ability and sufficient confidence in him as a representative of their interests, to make him Grand Master of their National Grange. With Carpenter and Adams to hend the Republican ticket every man who is laboring for the correction of the With Carpenter and Adams to head the Republican ticket every man who is laboring for the correction of the evils of our present transportation system, will recognize the fact that the Republican party in Iowa had placed itself in positive, practical, hearty second with him, and that whatever is to be done through legislation and Executive control can be achieved, in the support of that party and its ticket.

and its ticket.

We believe no stronger ticket could be made, or a more worthy one in any sense than this we have indicated. sense than this we have indicated. For these reasons, enforced by the fact that Allamakee county has never been honored in the selection of nominees for a State position, we urge the nomination of Dudley W. Adams for Lieu-

The Davenport Gazette shows its rection and intent of the Cedar Post's vaporings about purity, honesty, economy &c., by the following pertinent answer to a question which formed the only tangible point in a half-column's fanfaronade, last week :

On the 26th ult., another battle was fought with the Modocs. The casualties are 19 of our soldiers killed. Including a Captian and two Lieutenanta; 23 wounded, including one Lieutenant, and others missing, including one Lieutenant. The losses of the Modoes are not stated. Our troops were surprised and completely repulsed, with terrible loss, considering the smallness of their numbers.

A cable dispatch says there are now seven thousand dray-loads of goods for exhibition between the frontier and Vienna, for the great Exposition, and that, inasmuch as only about twenty drays can be unloaded in a day, it is probable that the exhibition halls will not be fully arranged before the end of

The great World's Exposition for 1873 was formally opened at Vienna last Thusrday afternoon. It was worports were groundless.

The Modoc war still disappoints all who expected its speedy termination. Six years ago a very trifling circumstance brought a war with the Cheyenne Indians, which cost the government thirty millions of dollars, and did no good that was ever pointed out.

The Illinois Legislature, during its recent long-drawn-out session of sixteen weeks, passed 119 bills, and appropriated out of the treasury to State intitutions and other purposes an aggrerate of \$5,851,465,

The Secretary of the Treasury has rdered the sale of \$5,000,000 of gold during the month of May, and the purchase of \$1,000,000 of bonds. This the to lower the premium on gold.

The bridge-tender cautioned the people, and others did Giving one bushel of corn for trans-wheat and corn is considerably greater than it was during the period to which these statistics refer, and it is probable that the present summer will show a still larger increase in the foreign consumption of the latter important breadstuff staple.

The fence law of Texas has hitherto been a very curious one. Every man was required to fence against his neighbor's stock. In other words, he was required to fence out stock instead of fencing them in. A bill introduced into the Texas Legislature proposes to change this, and make a farmer fence in his cattle instead of fencing out those of his neighbor. Georgia, also, has just passed a law on this subject, one very important to an agricultural community. Under the statute, the excitement. The victims, about can't stop to distinguish sex, and if eighty in number, were mostly women are killed it is an example needed on account of the needed on account of the pitters and Klamaths.

Postponement of the Public Libra ry Gift Concert.

It will be seen by the announcement in our advertising columns that the third gift concert of the Public Library of Kentucky, which was to take place to day, has been postponed until July 8. This postponement has not been occasioned, as we are advised by Gov. Bramlette, by the small rales of tickets; on the contrary, the sales have been unusually large—much larger than at either of the preceding concerts—so large, indeed, that the time given by this ninety-day postponement will enable Gov. Bramlette to dispose of every ticket and insure a full drawing without any reduction or scaling of the gifts, as has heretofore been the case. Gov. B. sees his way so clearly that he announces in the most positive and unequivocal language that the drawing will take place July 8, and that it will be a full one. The owner of the ticket drawing the capital gift will get \$100,000 in greenbacks without any discount and of all the s, and that it will be a full one. The owner of the ticket drawing the capital gift will get \$100,000 in greenbacks without any discount, and so of all the other gifts. The money sufficient to pay all the gifts—\$500,000 in greenbacks—is already on deposit in the Farmers' and Drovers' Bank, set apart for the payment of the gifts and can be used for no other purpose, as will be seen by the cashier's certificate. With a knowledge of these facts—and we do not hesitate to guarantee their scrupulous fulfillment—there will be such a demand for the tickets now on hand that in all probability not a single one will be left for sale weeks before the time of drawing. There never was a fairer or more honorably-conducted enterprise before the public, and it has as it deserves, the entire confidence of our people. It is one of those schemes in which the purchasers of tickets feel the most positive assurance that the drawing will be fair, for it will be controlled by the most prominent and distinguished citizens of the city and State, and those who draw gifts will be certain to get the money the moment their tickets are presented.—Louisville Courier-Journal.
