**IGNORANT VOTE**

Would Be Reduced If Women Voted, 'Tis Claimed.

To the Editor of the Democrat:

It is objected by many that woman suffrage would only double the ignorant vote without in the least raising the standard of the voting constituency. Statistics published by the National Bureau of Education show that the public high schools of every state in the Union are graduating more girls than boys—some of them twice or three times as many.

In the whole United States the public high schools in 1899 graduated 20,344 boys, and 39,124 girls. In 1900 the whole number of boys in attendance at public high schools was 189,187; of girls, 200,413.

Instead of adding to the power of the ignorant vote, it is clear that equal suffrage would increase the proportion of intelligent voters.

When we take into consideration that 95 per cent of the criminals confined in our jails and penitentiaries are men, it is difficult to understand by what method of reasoning the opponents base their claim that equal suffrage would only double the bad and ignorant vote.

It is generally conceded that legislation is looked after along the lines in which the constituents of the lawmakers are interested. If women are more interested along educational and moral lines than men it is reasonable to suppose that their influence would be felt along those lines in governmental affairs. Is there any one who would claim that these two elements are not needed in the voting constituency of this country?

which I send to you. If he reads it perhaps he will come home or write. Please help me:

I'll be faithful; I'll be true,  
For my heart belongs to you;  
You may cause my heart to break,  
But it never will forsake;  
Love now locked within its doors,  
There for lifetime, it is yours.  
Crush it, break it, if you will;  
Love will linger with it still;  
Tell me, have I not been true  
In my promises to you,  
Have I broken any vow?

If your love has turned to hate,  
And to love you is my fate,  
You take back the heart you gave;  
I'll take mine down to the grave,  
When at last I fall asleep  
Bow your head o'er me and weep  
Tears of anguish, grief and pain  
O'er the life and love you've slain;  
Then, while kneeling on the sod,  
Ask forgiveness of your God.

I. M. N.  
Gallon, O., Oct. 25.

Constantinople, Oct. 28.—There is extraordinary activity in the ranks of the Turkish military authorities. A commission of officers has been appointed to inspect the cavalry equipment and a second commission to inspect the ammunition depots.

In consequence of this action and the declaration by the porte of its intention to devote the greater part of the product of its customs loan to the purchase of war material, the Russian ambassador here has become apprehensive regarding the obtaining of moneys due his country. He has accordingly demanded the payment of the arrears of the war indemnity due Russia, which amounts to some 350,000 Turkish pounds. It is also confirmed that he has demanded the consent of the porte for the establishment of two Russian naval stations in Turkish territory.

The human system in old age must have a sufficient store of nervous energy, and rich, nourishing blood, so that the liver and kidneys may be kept in perfect action, and the body free from pain. Paine's Celery Compound is the true invigorator when old age creeps on and the vital powers commence to fail. Paine's Celery Compound gives the needed stimulus to digestion and assimilation that the system requires; it maintains a regular supply of pure blood, and removes such troubles as rheumatism, neuralgia, nervous weakness, heart palpitation, liver complaint and digestive disturbances, that make the lives of old people miserable. Rev. John Rice, Scotch Grove, Iowa, says—

"My wife and I have used two bottles of Paine's Celery Compound with great advantage to our general health. It cured her rheumatism and proved a good regulator of the system in general and a tonic for the nerves. In my own case I have found it a cure for kidney trouble arising from old age, as I am now in my 75th year. In this trouble it has given me almost instant relief."

**A UNION OF EMBALMERS**

Chicago Men Have Completed Its Organization.

Chicago, Oct. 28.—Sixty embalmers and funeral directors have formed a union here, the first of its kind organized in the country. Dressed in black, many of them wearing high hats, they came singly to Kooch's hall and heard Organizer Fitzpatrick of the Chicago Federation of Labor tell of the advantages of a union. Before the meeting was closed, all had signed the charter roll, but they refused to call their organization a union and took the name of association.

The new Embalmers and Funeral Directors' association has several grievances it wants to rectify. They are not content with the present scale of wages which varies from \$50 to \$100 a month. They object to having the embalming room their chief abode, and they want their employers to pay for their silk hats and black suits.

The members of the association are licensed by the state, and most of them are expert chemists.

**"HUSH" MONEY.**

Dowie Refuses to Pay It and Tells Why.

Chicago, Oct. 28.—John Alexander Dowie will bear humiliation to himself and his family, he says, rather than give money to suppress disclosures that would tend to injure him. He declared Sunday in his speech at the Auditorium that an alleged attempt at blackmail by a Boston man would fail, and, if trouble came, he would bear it meekly. The healer declared that the Easterner had demanded \$1,000 to hush up a statement by Dowie injurious to himself and his family.

"There is but one such letter in existence," said Dowie. "That is known to but one person. If the letter is published it will reflect on one who is living and one who is dead. Both are very dear to me.

"What I wrote in the letter was true at the time. But if the villain carries out his purpose to have it published, I cannot help it."

**COFFEE FLYERS.**

Can Be One If You Stick to It.

The coffee habit is as injurious as other drug habits of the same nature. Don't think so? Well, dig in and see. The system craves a stimulant more and more until finally the victim wakes up.

When we are as fortunate as Mr. James D. Kimble, of Northampton, Mass., to realize that we have got to stop or the penalty will be severe, it is a little startling at first to consider. He says: "I was an inveterate coffee drinker during twenty years of my life.

The first ten years I experienced no ill effects from the coffee but its insidious working brought forth a train of evils later on. I became very nervous and irritable, in fact felt all the time as if I should 'fly to pieces.' My nerves were all unstrung and I craved coffee as a toper does liquor, in truth I was a 'coffee toper.'

My appetite became very poor and solid food repugnant to the sight; dyspepsia and indigestion were my inseparable companions and food did me but little good. About four years ago a friend advised me to try Postum Cereal Food Coffee. I was loath to believe that coffee was the cause of my trouble therefore I did not have much faith in Postum, nevertheless I commenced its use and from the very first I experienced a decided benefit. My appetite returned, food began to taste natural and did me good. My nervousness gradually disappeared; the brain became clear, the loss of strength and flesh arrested and the stomach gradually strengthened. Life seemed once more worth living and the continued use of Postum was not disappointed me. To me coffee proved slow poison. I have found Postum to be a builder and sustainer of the system and I heartily recommend it to the slaves of coffee, without a single reservation."

Mr. Kimble mentions in his letter many of his friends in Northampton who have recovered health and strength from using Postum on his recommendation.

**SAY SENATORS ATE DOG MEAT**

Hawaiians Are Laughing at Their Recent Visitors.

Honolulu, Hawaii, Oct. 15, via San Francisco, Oct. 28.—Hawaiians are laughing heartily over a joke they say was played on members of the senatorial commission last month. U. S. Senators Mitchell of Oregon, Foster of Washington, and Burton of Kansas, were made to eat dog meat.

Those who are authority for the story declare that the Senators ate the fare with relish and called for more. This dish was served the party at one of the native feasts, during their recent visit in Honolulu. The Senators thought they were eating roast pig.

**ABSORBING PROBLEM**

Of the Present Day.

The absorbing problem of today is, how to expend one's income so as to attain the best results; that is, get full value for one's money.

It may truthfully be said that this has been, and always will be an absorbing problem to those with limited means; but the fact remains that, with the price of living necessities constantly rising one must husband one's resources more carefully than ever before if he would live within his income. In saying that prices are rising, we except one article which has come to occupy a prominent place in the family medicine chest, and that is the specific for piles or hemorrhoids known as Pyramid Pile Cure; this remedy is still sold by druggists at the old prices of 50 cents, and one dollar, and these prices will remain unchanged. Those to whom this preparation has brought relief and a cure after years of suffering do not need to be told of its merits; others are advised that it is the greatest boon ever discovered, to all those afflicted with any form of piles; it is in suppository form, is easily applied, reaches the seat of the complaint, and gives immediate relief and a lasting cure.

The reader may have tried salves, ointments and lotions without benefit, and feeling that his money has been wasted, resolves to suffer on rather than experiment farther. The reason for the failure of these treatments is, that they do not reach the seat of trouble, and hence do not remove the cause, as does Pyramid Pile Cure. A little book describing piles, their cause and cure, is published by the Pyramid Drug Co., Marshall, Mich., and anyone may procure a copy by sending name and address to above firm. As showing the estimation in which this remedy is held by the public it may interest the reader to know that its sales now exceed those of all other pile remedies combined.

Who has for the past two years been studying in Europe in the interest of Bust Development has returned, and is now touring the country.

The madame, who is a native born French woman, has spent the major portion of her life in studying the art of perfect form for woman and while bust development is her main object, it is by no means the largest part of her business. Rounding the curves at the neck, the shaping of the arm, and a general trimming up of the entire figure all come under her treatment, and unlike most of the developers advertised, the madame guarantees results. She develops the bust from four to six inches in 30 days, and can change an entire figure in that time.

The madame's charges are within the reach of all and consultation with her is entirely free.

She can be consulted in her parlors, 235 and 236 Buchtel Hotel, for one week only, beginning Monday, Oct. 27, 9 a. m. to 8 p. m.

Mme. D'Arville's permanent home address is 523 Superior St., Cleveland, where she can be reached at any time by mail.
