### Property of People's Hard Rubber Co.

#### Official Admits That There's To Be a Change of Management.

It is said that the People's Hard Rubber Co., of this city, has sold out to the American Hard Rubber Co., the hard rubber trust, and that a change in the management will be made soon.

An official of the People's Hard Rubber Co., when asked for confirmation of the story Tuesday, admitted that a change in management was about to take place, and that official announcements relative to the deal will be made soon.

The plant of the People's Hard Rubber Co. is located on Ira ave., and has been in operation for about a year. It seems to have done a thriving business from the start.

The American Hard Rubber Co., it will be recalled, purchased the hard rubber industry of the B. F. Goodrich Co., about four years ago. Officers of the People's Hard Rubber Co. are I. C. Alden, president; A. B. Rinehart, vice president; W. H. Wright, secretary; J. R. Nutt, treasurer; Geo. C. Kohler, general counsel. Headquarters of the American Hard Rubber Co. are located in New York, and it has factories in Butler, N. J.; College Point, N. Y., and Akron. If above mentioned deal has been consummated—and the talk that it has been general—the trust will have two plants in Akron. Its present plant is located in the Goodrich group. Mr. Chas. B. Raymond is manager.

## BEAUTY MEDICINE.

### Use of It Thought to Have Caused Death of Mrs. Hart.

Peoria, Ill., Nov. 18.—Dr. Rosetta Etzler, of this city, magnetist and beauty specialist, is awaiting arrest as a result of the death of Mrs. Hattie Hart, of Peoria, who expired after taking a quantity of a beauty preparation compounded by Mrs. Etzler.

The funeral was stopped by the coroner and the case, which had been supposed a suicide, was investigated. Af-

ter a coroner's jury at Peoria decided that the medicine was responsible for the death, orders were issued to hold Dr. Etzler. The beauty medicine is composed largely of arsenic and unless taken precisely as prescribed it is deadly poison. It is thought that Mrs. Hart, instead of following the orders, drank a larger quantity of the beauty cure, the effects of which killed her.

## IN CHICAGO, TOO,

### Freight Congestion Is Spreading Rapidly.

Never in the history of Chicago, except during a big strike, has there been such a congestion of freight in the railroad yards of that city as there is at the present time. The shortage of cars and motive power, of which the roads and shippers have been complaining for months, has become more pronounced. In view of the vast increase in traffic, due to the moving of the crops, until now an unprecedented condition exists.

Shipments of all kinds are days behind and the freight officials are fairly deluged with urgent requests from shippers that their goods be traced. So numerous have these demands become that the local freight agents' association is urging shippers to forbear from making inquiries unless goods are perishable or have been delayed more than a week.

## CASE

### Of the Non-Union Miners

#### Taken Up by Strike Commission Today.

#### MacVeigh Again Goes After Mitchell.

Scranton, Pa., Nov. 18.—The Strike Commission will now take up the case of non-union miners, who one represented by Attorney Linahan.

It was agreed that the names of these non-union clients should not be made public until later in the investigation.

Wayne MacVeigh set out to grill Mitchell again today. He said Mitchell was morally responsible for disorders during the strike, because he failed to check it. Mitchell said in answer that he was always on the side of law and order and that he knew that acts of violence hurt his cause.

"I call your attention to this statement," said MacVeigh. "While the right to enter upon a strike is and must be conceded as a right belonging to the personal freedom of workmen, this must ever be demanded, that they who do not want to work must in no way interfere with the liberties of others who wish to work. Personal freedom of an individual citizen is the most sacred and precious inheritance."

"Do you assent to that proposition?" Mitchell: "No, sir; it is a contradiction of every principle of American government, the right of man to do whatever he chooses. We do not want anarchy and that is anarchy pure and simple, for man to do whatever he pleases regardless of effect on society."

MacVeigh: "This is the language of a very carefully disguised anarchist, for it is the language of Archbishop Ireland."

"It might be interesting to know that Archbishop Ireland is a member of a committee of which I was a member which has declared for trade agreement," said Mr. Mitchell, somewhat confused.

## OPPOSED

### To Order Issued by Board.

#### Council Not Disposed to Change

#### A, B. & C. Schedule on North Hill.

#### Wilhelm Fired a Hot Shot at the Solicitor.

The order issued by the City Commissioners to the N. O. T. Co., to the effect that north-bound A, B. & C. cars must not be stopped on North Howard st., between Cuyahoga st., and the top of the hill, met with so much opposition at Council meeting Monday evening that the Railroad and Bridge committee will investigate.

Council Sawyer drew a word picture of taxpayers and their wives trudging wearily up North Hill, while public conveyances whizzed by on a right of way obtained free, and in this position he was ably supported by Mr. Wilhelm.

"After this company was given a franchise to occupy the street, upon its agreeing to serve the public well and stop at every principal crossing, it seems wrong for the Board at the request of the street car company, to issue an order that cars shall not be stopped at every crossing," said Mr. Sawyer.

Solicitor Esgate said that the A, B. & C. cars came into Akron, not so much under a franchise as they did under a contract, and that the Board had a right to issue such orders, as a matter of police regulation. "This is a case of the greatest good to the greatest number," he said. "No one will dispute the statement that the North Hill line is a dangerous proposition, and the act of the Board is a precautionary measure."

Mr. Wilhelm said: "I am not disposed to attach much weight to the advice of our Solicitor in this matter. He seems to be acting in this matter more in the interests of the street car company than in the interests of the city."

"That's not so," replied Solicitor Esgate. "I have done my best to explain the situation, and I have referred to the legal points just as they exist."

Mr. Sam J. Hibbs, of Dean st., also protested against the order.

The N. O. T. Co. claims that it is dangerous to stop the cars while going up the hill, because it is hard to start them again, and there is also danger of breaking the machinery of the car, in which case the car would run back down the hill.

But the Councilmen seem to be of the opinion that the N. O. T. Co. should provide all the necessary safety appliances for cars, so that such accidents could not occur. They insist that it would be wrong to deny the citizens of North Hill the privilege of riding to their homes, and that the company should live up to the terms of its franchise.

## WIFE

### Of Adams Says Her Husband Is Persecuted.

The wife of Adams, the man arrested here on a telegraphic order from the police of Logan, O., where he is wanted for alleged fraud, called at Police headquarters, Tuesday morning, and complained bitterly that she and her husband were being treated unfairly. The charge is that Adams left Logan and a board bill contracted with Mrs. Mattie Horn, unpaid. The amount claimed to be due is \$55.

"We didn't try to cheat the woman at all," said Mrs. Adams, who is very quiet and respectable in appearance. "We told her that we would pay her as soon as we got the money. Her action in this case is very unreasonable."

Mrs. Adams will remain here and will not accompany her husband to Logan, where he will be tried.

## A MARTYR.

### Mrs. Molineux Tells of Her Troubles.

#### Has Started Out In Earnest to Obtain a Divorce.

New York, Nov. 18.—The news that Mrs. Roland B. Molineux had joined the South Dakota divorce colony, while a surprise to the public, was not unexpected in certain circles. There have been rumors of an estrangement for months and the fact that Mrs. Molineux lived at the Murray Hill hotel, away from the Molineuxs and did not visit her husband in the Tombs, was a well guarded secret. Hints of the trouble were given in the press but were not generally believed.

"Oh, I've been a martyr, that's all. For four years I have been waiting to see what they would do with that man. Now it's all over and I will rest."

It was suggested that she showed a deal of interest in her husband during his trouble.

"All for appearance's sake," she replied vehemently. "I simply lived while the world thought I was loving him."

"It was all for General Molineux. I like the general and promised him I would wait till he had done all possible to save that man. I respect him and his struggle to save his son. But now I am free."

Mrs. Molineux has engaged the legal firm headed by former Senator Kittredge to look after her interests.

### Woman's Rights Leader Willed Her Brain to Cornell

Ithaca, N. Y., Nov. 18.—Despite the assertions of the relatives of Mrs. Elizabeth Cady Stanton to the contrary, Prof. Wilder says the woman's rights leader did bequeath her brain to Cornell. She signed a slip which had been prepared for this purpose on Feb. 2, 1902, and Prof. Wilder now has that form in his possession. How-

ever, if relatives of Mrs. Stanton object, Cornell will make no effort to get hold of the brain, although Dr. Wilder asserted that much would be lost to science in such a case. The form which Mrs. Stanton filled out contained a stipulation that objections by near relatives would invalidate the bequest.

### Forced to Eat a Part Of His Own Flesh

Washington, Nov. 18.—The Supreme court of the Philippines has liberated Jose and Isadore DeGuzman, of the Province of Isabela, under the amnesty act.

The men were sentenced to imprisonment for life for forcing a Spaniard, Lieutenant Piers, of Guardia Civil to eat a part of his own flesh. They were also ordered to pay to the family

of the victim \$1,000. It appears that the lieutenant had incurred the displeasure of the two men. His hands were tied behind his back and he was fastened to a stake for three days. At the end of that time, having been without food, part of the flesh was cut from his leg, cooked before the victim's eyes and he was then forced to eat it. Finally he was killed.

An exciting and disastrous runaway occurred on South Main st., shortly after noon today.

Mr. L. V. Hummel and young son, of Halo, were driving on South Main st., and when they reached Rubber st., the bolt holding up one of the shafts broke, causing the shafts to drop down and strike the horse's heels; the horse started to run and finally got beyond the control of the driver, and the carriage struck the street car track, throwing Mr. Hummel and his son out upon the pavement.

The horse with the carriage partly attached to it, ran down Main st., and turned down on to Howard st., at Main and Howard and on down to Market where it turned to pass by a lady who was standing on the corner, but the runaway horse was going at such a rate of speed that it could not stop and it slid ten feet into the large plate glass window of the cigar store, owned by Wm. Mr. Hummel was badly hurt, being cut several places on the head and when thrown from the carriage struck on his side and was unable to walk. Parks' ambulance was called and conveyed him to the hospital. His son who was with him, escaped injury. After having his injuries dressed, Mr. Hummel returned to Halo.

### The Reasons Why Mrs. C. E. Lawton Asks a Divorce.

In a petition for divorce, filed Monday, Mary C. Lawton accuses C. E. Lawton of extreme cruelty, gross neglect of duty and habitual drunkenness. Mrs. Lawton asks the custody of her two minor children, and temporary alimony during the pendency of the action. Mr. and Mrs. Lawton were married in this city, Nov. 4, 1897.
