## CONSTIPATION

It is called the "Father of Diseases," because there is no medium through which disease so often attacks the system as by the absorption of poisonous gases in the retention of decayed and effete matter in the stomach and bowels. It is caused by a Torpid Liver, not enough bile being excreted from the blood to produce Nature's own cathartic, and is generally accompanied with such results as:

**Loss of Appetite,  
Sick Headache,  
Bad Breath, etc.**

The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater coitiveness. To secure a regular habit of body without changing the diet or disorganizing the system.

**"My attention, after suffering with Constipation for two or three years, was called to Simmons Liver Regulator, and, having tried almost everything else, concluded to try it. I first took a winged tablet and afterwards reduced the dose to a teaspoonful, as per direction, after each meal. I found that it had done me so much good that I continued it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house and would not be without it, but have no use for it, it having cured me."—Geo. W. Sims, Ass't Clerk Superior Court, Bibb Co., Ga.**

**Take Only the Genuine,  
Which has on the Wrapper the red Z Trade-mark and Signature of  
J. H. ZEELIN & CO.**

"Hunger is the Best Sauce."  
As a rule, a person who has a good appetite has good health. But how many there are who enjoy nothing they eat, and sit down to meals only as an unpleasant duty. Nature's antidotes for this condition are so happily combined in Hood's Sarsaparilla that it soon restores good digestion, creates an appetite, and renovates and vitalizes the blood so that the beneficial effect of good food is imparted to the whole body. Truly hunger is the best sauce, and Hood's Sarsaparilla induces a hunger.

Mr. P. Mulvaney (who is aroused from his first sleep in America by the clatter of an alarm clock)—"Och, sure they must have long days in Amerika, for O'ill shrike me word that clock struck a thousand.—Harper's Bazar.

**Catarrah**  
In the head is a constitutional disease, and requires A constitutional remedy Like Hood's Sarsaparilla, Which purifies the blood, Makes the weak strong, Restores health. Try it now.

**A Letter From our Former Correspondent.**

HARFORD MILLS, Cortland Co., N. Y., July 13, 1891.

**ED. ENTERPRISE:**—Farmers are quite well satisfied, as to their crops in this section. Of course such a condition is favorable to the Republican party in politics. Farmers, however, were very much discouraged during the months of May and June, as the weather was extremely dry.

Good, steady rains at times since June 25, so the ground received full benefit, haye caused grass, corn, oats and potatoes to grow with wonderful rapidity. Back-wheat is not usually sown until between June 15 and 30. Abundant harvests are now promised on every hand. The fruit crop, however, will be rather light. The hay crop will probably not be as heavy as usual, but what it lacks in quantity it will make up in quality. Farmers began haying somewhat last week. Many finished their potatoes last week and will push their haying this week for all it is worth.

This is a great potato country. Farmers plant from two to twenty acres. Not much of any wheat is raised in this section. The mill in this hamlet grinds no wheat whatever, but buys the flour shipped here by the carload. Great quantities of corn are also shipped here from the west. On the other hand potatoes and butter are shipped from this station.

Sincerely Yours,  
GEO. E. RYAN.

**Our Old Fire Company.**

"That was a gay old company that we belonged to, Joe, away back in '08, when you and I ran with the machine! Do you remember that big fire in Hotel row, one freezing night, when fifteen people were pulled out of their burning rooms and came down the ladder in their night clothes; and how Dick Greene brought down two kids at once—one in his arms, the other slung to his back? Poor Dick, he got the catarrah dreadfully from so much exposure and suffered from it five years or more. We thought once he was going in consumption sure. But finally he heard of Dr. Sage's Catarrah Remedy and tried it, and it cured him up as sound as a flint. I tell you, Joe, that catarrah remedy is a great thing. It saved as good a man and as brave a fireman as ever trod shoe leather."
