Presented to the Bar. The Napoleon bar is reveling in the first present it has yet received. Last November the Volgate Shooting Club went on its regular annual hunt in Wisconsin, and while near Embury Lake, that state, Fred Beverson killed a magnificent deer. The head and antlers were mounted and presented to the Napoleon bar. The members of the bar are more than proud of the souvenir as it is the first thing ever presented them.

Postponed. A letter to Manager Halter from Edwin Ferry carries with it the disappointing news that that famous actor will be unable to visit Napoleon before the last week in February. The bad weather caused his dates to get mixed, Napoleon with Bryan and other towns of this section being selected as sacrifice. Monday night was to have been his date and the people had sharpened their theatrical appetite to a razor finish, hence the disappointment is no small one. The Opera House will remain dark for some time.

The report of a case of leprosy in Napoleon brought an associated press man on the ground. He went away disgusted, of course, but if we can stand it, he ought to. We forgot to announce that it was about time for that departed one, with a voice on him like a Dakota druggist, to blow forth the query, "Is it cold enough for you?"

Prices reasonable as consistent for reliable operations. No extra charge for repairs. W. J. PIERREPONT, Dentist. 21

More than any other time, this is the season when the printer subsists on icebergs and promises to pay. The latter in many cases are much colder and less satisfactory than ice. A detective from Toledo was up to Napoleon Monday on the trail of one of our wayward youths who became enamored with a Toledo damsel and loved, not wisely but too well. A compromise was effected.

Geo. H. Rohrs & Bro's, January inventory sale of dry goods, cloaks, carpets, boots and shoes is a big success. There has never been a sale in Napoleon that prices were cut so low as they are selling goods at this month. Everything in the store is marked way down during this month. 21

While we do not wish to speak in disparaging terms of the telephone, electric light, steam engine, sewing machine and other great inventions we must forget about them in long enough to say that the fellow who invented the so-called "felt boot" has a claim on a vast people for everlasting thanks.

George Brubaker of West Napoleon township was in the city Monday. He will have a public sale at his place next Thursday, notice of which appears in this impression. With a brother, Wesley, he has purchased the grocery and meat market of M. V. Brubaker in Florida, who will retire from business for the present. We wish the new firm abundant success.

There certainly need be no bar to Napoleon's future prosperity when it is considered that after a truce of nearly half an hour it was demonstrated at the Opera House Saturday eve that Gen. Printz was captured at Shiloh. Several other points of equal moment were made that will help us out "considerable like" but fact of it is we haven't time nor space to review them.

"It has been excellent hauling, but we have nothing to haul," is the general complaint issuing from farmers, and which testifies to the large amount of timber that has been taken from Henry county forests during the last decade. Slave companies have been doing an excellent business at all the small towns along the Cloverleaf railroad which runs through the heart of the timber country. A few more years and all kinds of timber in this county will bring a fabulous price.

If merchants will rub down the inside of their windows with a sponge saturated with alcohol it will not be annoyed by the artistic work of Jack Frost hindering their displays. Monday morning's Commercial contained an account of a case of leprosy in Napoleon which has proven a fake pure and simple. Lee Lung is an oriental who has been a knight of the suns in this city for about two years and besides having the appearance of a cadaver a week inhaled, he has proven a good citizen, paying his way, and giving value received as a laundry man.

For some time he has been doctoring for a sore eye which the doctors pronounced erysipelas and which was an aggravated case, the optic being distended and having a horrible appearance. Add to this his general demoralized condition and we have a make-up which with a morbid imagination on the part of the Commercial correspondent, produced the report of leprosy.

No little excitement and indignation was manifested on our streets, which was greatly increased by receipt of telegrams from leading city papers for particulars, and also from the state board of health to our local board. By order of the mayor who is chairman of the Health Board, Dr. Harrison made a thorough examination of Lee and reported that beyond erysipelas there was nothing but a make-up which with a morbid imagination on the part of the Commercial correspondent, produced the report of leprosy.

Up to date he almost eye—the cause of so much trouble—is greatly improved and will be in shape for the Chinaman to travel, when he will leave for New York. He has the misanthropic tendencies of the Chinaman and can remain in one place for a short time only. Of course we will not be without a representative of the race as he has already through the mantle and "good will" of his wash shop over his successor.

Notoriety is the best advertiser. It is for this reason that many publicators desire to figure in sensational suits, escapades, etc., in every case containing nothing but news. A case of similar advertising has been noted in Napoleon during the past week and suckers have not been wanting.

Our mills have been greatly troubled during the cold spell on account of a lack of water power. The race that operates Kollers mill and the electric-light plant proved entirely inadequate, the former running but little while the latter was compelled to shut down altogether, thus greatly inconveniencing merchants and making travel after dark difficult. Several attempts were made to cut the great collection of ice from the entrance of the race in question, and in so doing a magnificent specimen of dog was found deeply imbedded and in a good state of preservation.

Miss Jessie Riddle, for several years cashier in George H. Rohrs & Bro's dry goods store has resigned to accept a cashiership in Eaton's store at Toledo. Miss Riddle is one of our most exemplary and good looking young ladies, being a prominent member in the Christian Endeavor and a general favorite. Messrs. Eaton & Co. may well congratulate themselves in securing her services. While we regret her removal from Napoleon we at the same time extend heartiest wishes for her continuance in success.

Andrew Johnson, proprietor of the McClure House, was in the city this week. Mr. Johnson is one of those individuals who prove exceptions rather than rules in our human existence, in that, he is perfectly honest under whatever circumstances he may be placed. He is one of the first set here at McClure, a Swede by birth and has done as much if not more than any other man in bringing that town to the front. Although he has no opposition he is at all times most obliging and accommodating, giving the people value received. He is indeed a landlord of rarity.

AT A PREMIUM. Beaver Creek Bonds Do Not Go Begging for Buyers.

Friday at 2 o'clock p. m., \$22,000 in Beaver Creek 6 per cent bonds were sold at the commissioners office to Spitzer & Co., of Toledo, at a premium of \$988.75. Bidders were required to state the gross amount they will pay for said bonds, and each bid was accompanied by a draft in the sum of \$1,000 on a New York bank. The bids were sealed and the following is their contents:

Spitzer, Trast & Co., N. Y. & Boston..... \$22,831.60 W. J. Hayes & Son, Cleveland..... 22,917.00 John Rogers, Cleveland..... 22,920.00 Spitzer & Co., Toledo..... 22,988.75 White & Co., N. Rollins..... 22,855.40 Landrecht Bros & Co., Cleveland..... 22,882.00 Spitzer & Co., bankers of Toledo were the highest bidders and the deal was at once closed with them. The lowest bid was that of White & Co., N. Y. and even it was \$300 premium.

From this sale it would signify that Henry county bonds are not such a drag on the market as some people would make believe.

GOOD SHOWING. Company F and the 16th Reg't Band Attend Hayes' Funeral.

Thursday evening Capt. Reynolds received a telegram from Col. Bunker ordering to report in Toledo Friday morning with Company F and the 16th Regimental Band. It took considerable hustling to serve notice to the members, but the work was done and the morning train bore a good showing in both band and company.

Arriving in Toledo, the Bryan and Toledo companies were joined and the regiment took the Wheeling train for Fremont. The regiment arrived in time to join the funeral cortege, occupying a prominent place and making a very creditable showing.

OBITUARY.

CLAY.—Conrad Clay, son of John and Julia Clay, of Pennsylvania, was born in Stark Co., Ohio, February 20, 1827, settled in Henry county, Ohio, in 1850, on the farm on which he died, January 16, 1893. He was united in marriage at Defiance, Ohio, Oct. 9, 1851, to Julia A., daughter of Wm. H. and Abigail Stoddard who removed from Connecticut to Henry county in 1850. To this union were born six sons and three daughters, with exception of one son, deceased, survive him.

Coming to Henry county in 1850—settled in the woods and endured, with other early settlers, all the hardships incident to those days. He united with the U. B. Church shortly after coming to this county, since which his whole aim seemed to have been to do good to others even to his own sacrifice. He never had an unkind word for anyone and was continually casting his bread upon the waters without ever expecting a fulfillment of the proverb, in that, said bread would return after many days.

As a citizen and large circle of friends, he was highly regarded by farmer Mr. Clay was a man of great energy and industry, and it is indeed with a feeling of the greatest grief that the truth forces itself upon us with the knowledge that he is forever removed from their midst.

His death was sudden and unexpected. At 4 p. m. of the day of his death he was on the street apparently in his usual good health, at 5 p. m. he was dead. The cause of his death was heart failure, but the death was peculiarly distressing, not only because of his suddenness but because of his wife's dangerous illness at the time. She was in a state of unconsciousness, and he died, and up to the time of the removal of the remains of her husband from her home, she was not aware of her great loss. Her peculiarly and bereavement appeal to our sympathy and prayers. Even if she recovers, life will never be the same again in that home.

Dr. Stall was converted to God in his sixteenth year and joined the Wesleyan formal association. In the spring of 1876 he was licensed to preach and received an appointment.

He served the following fields of labor in the Ohio Conference: Flat Rock, 1876-'77; West Salem, '77-'78; Wilmet, '78-'79; Ashland, '79-'80; Wayne, '80-'81; Pleasant Ridge, '81-'82; Greenburg, '82-'83; (last year of his ministry) Richland, '88-'91, and Napoleon '91-'92 up to the time of his death.

He thus rendered nearly seventeen years of continued service in the ministry. He was not only a diligent and cheerful worker, but he was also a man of great energy and industry, and it is indeed with a feeling of the greatest grief that the truth forces itself upon us with the knowledge that he is forever removed from their midst.
