### MORO A DANGEROUS FANATIC

Believes Eternal Bliss to Be His if He Meets Death While Killing Christians.

The psychology of Mohammedanism is incomprehensible to persons reared in the atmosphere and teachings of American Christianity. With us the separation of church and state is as much a matter of course as the air we breathe. With us suicide is immoral and the killing of an unbeliever is a crime punishable with death. The Mohammedan has no conception of ecclesiastical and state law. There is only one law, the Koran; and while in fact the priest and the ruler may be different persons, they are different only in a functional way, like a judge and an executive in our government. The spiritual ruler is also temporal ruler, as was Mohammed in his day. The killing of Christians is a virtue that merits everlasting bliss in paradise. The martyrs of the early Christian church burned with no more consuming ardor than the humble, ignorant Mohammedan peasants who swear before the priest that they will go forth and devote their lives to killing Christians. Mohammedans who have sworn to kill Christians are called in the Philippines juramentados, from the Spanish, meaning one who has sworn or taken an oath. Up to a decade ago it was no uncommon occurrence in Jolo for a Moro fanatic to conceal his bolo knife, or kris, in a basket of fruit until he had passed the guard at the gate of the walled town, then draw his blade and cut right and left, killing man, woman or child, with perfect impartiality, until a bullet from the guard stopped his advance. It was this indomitable will to kill that gave the Christian Filipino his mortal fear of the Moro in times past.—O. Garfield Jones, in Asia.

Can you recall those hard times when beef got so high the poor had to fall back on pork chops?

Money also is the root of much happiness.

### A Good Memory.

"How does Scribner get the atmosphere for his stories of rural life?" "He goes up to an office he uses on the twentieth floor of a skyscraper and thinks about the time when he was a boy on the farm."

### Bitter.

"You are acquainted with the plaintiff?" asked the lawyer as a mere matter of form. "No, sir," replied the unhappy defendant. "I merely lived with that woman seven years as her husband."

### Strategy.

"Have you given the new household any instructions?" "No; and why should I?" "Huh?" "If I tell her nothing she's bound to do something I want."

### Sentence Passed.

"What's the matter, old man? You look as if you'd been sentenced to hard labor for life." "I'm afraid I have been. Miss de Millyuns has just refused me."

### A Business View.

She—So papa said yes. Does he favor a long or a short engagement? Jack Poore—That depends, he says, if he has to support me, the longer the engagement the better.

### Not Interested.

"The golfer must keep the eye strictly on the ball." "That must be why pretty girls don't go in much for golf."

### His Attitude.

"You wouldn't sell your vote to both sides, would you?" "No, but I don't mind letting both candidates promise me a job."

### Quite True.

"Pa, what is a peacemaker?" "He is a man, my child, whose chief success is in precipitating a fight."

A man's getting old when it hurts him to tie his shoe laces.

Look at the roads for twenty miles around on a Sunday

THERE isn't any "country" any more. The automobile has brought the most remote settlement almost as close to the center of things as the next county was in the old days.

To hear some tire dealers talk you might think that nobody knew anything about tires except the fellow from Broadway.

That's not the basis we go on.

We give every man credit for knowing what he is spending his money on, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

That's one thing we like about U. S. Tires.

They make no distinction between the small car owner and the owner of the biggest car in the country.

It's all the same to them. So long as a man owns an automobile—large or small—he's entitled to the very best tire they can give him.

Quality has always been the outstanding feature of U. S. Tires. There's no limit on the U. S. guarantee. All U. S. Tires are guaranteed for the life of the tire.

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

Drop in the next time you're down this way and let us tell you some interesting facts about tires.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Uaco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

### BIG ESSENTIALS IN POULTRY

Breeder Should Aim for Early Maturity and High Egg Production for Best Results.

Early maturity and high egg production are the two essentials in profitable poultry keeping. If the standard of the fancier does not make for utility or is a hindrance to constructive utility breeding, then the standard is in need of revision. Whether it be in cattle, horses, sheep, swine or poultry, the score card that discriminates in the least against utility value is a hindrance to the best development of that breed. Of course there are certain distinguished breed characteristics that must be maintained, but these, as a rule, are not the fine points which are a continual hindrance to the good breeder. Fortunately, public opinion is on the side of the constructive breeder.

### ALFALFA DIFFICULT TO CURE

Where Two Cuttings Are Made Grass Is Green at Each Time on Account of Moisture.

When two cuttings of alfalfa are made, the grass is very green at the time of each cutting. It is therefore difficult to cure, not only because of the large amount of water the leaves contain, but also on account of the large and succulent stems. With very good hay weather the first crop may be put in the mow in about five days after it is cut, by allowing it to lie in the swath and with the use of a hay tedder. On the other hand, rainy weather will result in a poor quality of hay.

### POULTRY CONFINED TO YARDS

Fowls Should Always Be Supplied With Green Feed—Good Range Is Best for Chickens.

Chickens confined to small yards should always be supplied with green feed, such as lettuce, sprouted oats, alfalfa or clover, but the best place to raise chickens successfully is on a good range where no extra green feed is required.

We just received a 10x20 Lasco Vitri-fied Tile Silo. If you need one now is the time—no waiting for freight—immediate delivery. The Manchester Co., Canfield, Ohio.
