## COUNTY SCHOOL NOTES

The second round of the basketball tournament was played in the auditorium at South High school on Tuesday evening, March 15, in the drawing for which Boardman drew Berlin Center and Austintown drew Lowellville. Berlin Center won from Boardman by a score of 31-30 and Lowellville won from Austintown by a score of 36-23. The finals of the girls' tournament was also played off, the Boardman girls winning from the Austintown girls by a score of 40-8.

Then the finals for the grammar grades and the high school boys was played Saturday evening, the 19th, in the Y. M. C. A. gymnasium. Austintown and Boardman having been eliminated, the final high school boys' game was played between Berlin and Lowellville, Berlin winning by a score of 36-31. This makes the Berlin high school team the grand champion of the county. They are to be congratulated for taking this honor for it was hotly contested. No one disputes the fact that the Berlin boys took the honors purely and simply on merit.

It was conceded from the first that the Boardman high school girls would likely be winners for they have a team that is hard to match. In fact, if a test were to be made, it would likely be found that the Boardman high girls have no superiors in any nearby high school.

Also, in the final grammar grade boys' tournament Lyon's Plat won over Boardman with a score of 24-15. This makes the Lyon's Plat boys winners in the grade tournament.

Friday brings the close of the fifth month of the county spelling contest which determines who are entitled to spell in the respective grades in the county spelling contest which has been decided will be held in Rayen school, Saturday, April 16, at 10:30 a. m.

It has been decided to set aside the weeks of March 28-April 8 for presenting the Achievement claims to the boys and girls of the county school district.

The executive committee of the county athletic association have set Friday, May 13, as the day for the County Track and Field meet. The circulars are not yet printed; they will likely be out in the course of a week and will then convey all the details. In the program of events there are no changes except that the freshmen boys' events will consist of three events—a 50 yd. dash; a 100 yd. dash and a 440 yd. relay. Contestants in these events cannot compete in any other of the boys' events.

The high school girls' freshmen events will consist of a 50 yd. dash and a 200 yd. relay. Contestants in these events cannot compete in any of the other high school girls' events. These are the only changes in events over those offered for the year of 1919-1920.

To date the only school legislation passed of significance is the McCoy County Normal School Bill known as Senate Bill No. 21. By the provisions of this bill, a much larger amount for the maintenance of the county normal school is placed upon the state. It strengthens the teaching force and makes it mandatory that the state normal schools recognize the credits awarded in the county normal schools. A little opposition is feared for the Bill in the House.

Also, the Bing bill, known as House bill No. 111, or better still, as the compulsory attendance bill, passed the house with scarcely a dissenting vote. It will be unopposed in the senate. This bill provides for the following: It raises the compulsory school age for both boys and girls to 16 instead of 15 and 16 as the law now stands. It requires part time school attendance for boys and girls from ages of 16 to 18 unless the number of students is less than 25 within a radius of three miles. This provision was inserted so that it would not work a hardship on the rural boards of education. It provides for a county attendance officer for each county school district. Our experience with local trust officers has shown that in many communities it does not secure school attendance and the loss to local boards of education through the distribution of the school revenue funds on the basis of the aggregate days of attendance has been much more than will pay the salary of a county attendance officer. What is more, he is clothed with sufficient authority to actually compel school attendance when this becomes necessary.

**LIME AND FERTILIZER**  
AN AID TO NEW LAWNS  
Do you want to grow a good grass covering on your lawn? Then some of the experiences at the Ohio experiment station may help you in treating a lawn so that it will grow a good stand of grass.

Usually lawns respond to an application of common builders' lime, at the rate of 20 pounds per square rod; and then a fertilizer of acid phosphate at the rate of 5 pounds per square rod should be added.

To grow grass on a new lawn, the ground should be in condition of a garden, the lime and phosphate being added before the grass is sown.

A mixture of 8 pounds of blue grass, 4 pounds of redtop and 2 pounds of white clover will seed one-fourth of an acre.

After the grass seed is sown it is raked in. Usually about the first of April is the best time to seed new lawns.

Old lawns frequently require reseeded, but it is not necessary to plow or spade them deeply—simply tear up the old sod with a sharp rake or harrow and later reseed for new lawn. The same amount of fertilizer and lime may be applied to the old lawn. Fertilization may be repeated yearly.

Those of any other commodity and were valued at \$1,136,406,916.

## The Guest Room

WHILE hospitality should be the keynote to your guest room yet its treatment should be as impersonal as possible in order to suit it for the frequent change of guest.

Convenience in arrangement is one of the first considerations in the bedroom, particularly in reference to light. Place the bureau in a good light for the day time and have the artificial light near. A small reading lamp near the bed gives a note of comfort.

We shall be pleased at all times to help you plan suitable decorations for your home.
