From the Cleveland Herald of March 28.

The orthography of the Worcester Dictionary is that used by most, if not all, authors of distinction in this country and England, and conforms to the general usage of ordinary writers and speakers.

Whatever prejudices may have existed previously, a careful study of this volume will invariably be followed by a warm appreciation of its great merits, and a desire to add it to the well selected library, be it large or small. It is a library in itself, and will remain an imperishable record of the learning of its compiler.

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarssparilla, so combined with other substances of still greater alterative power as to afford an effec-tive antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from ous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellowcitizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints: -

SCROFULA AND SCROFULOUS COMPLAINTS ERUPTIONS AND ERUPTIVE DISEASES, ULCERS PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AF-FECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDICESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from Inputery or

THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruntions if not assisted to do. THE BLOOD. rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of

life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla.

or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointmen has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY DR. LOWELL, MASS.
Price, \$1 per Bottle; Six Bottles for \$5.

Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been em-ployed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

prevails in the Federal metropolis. ARMY ON THE POTOMAC.

Manastas Correspondence of the Savannah Republican, August 28. 1 August 28.]

I regret to say there is a great deal of sickness in the army. This is not a healthy country at this season of the year. The remark applies to all the counties bordering on the Potomac from the Great Falls down. The Presidents of the United States have found it necessary for several years past to retire from Washington during the months of August and September, on account of the insalubrity of the climate.

There are other reasons, however, for the unhealthiness of the army, and chief among them.

Weight each, which were in the engine room, rolling about with every oscillation of the vessel with fearful force. These having been se cured, another start was made, when a tree mendous grinding was heard under the paddle boxes. The shatt had become twisted, and the same grinding against the side of the ship. The paddles were stopped, and henceforward the scene is described as fearful in the extreme. The ship rolled so violently that the boats were washed away. The cabin, beside boxes were washed away. Eight thousand overcoats have already been supplied to a single division of the army in Western Virginia. The severities of the weather in the monotonia are recent ties of the weather in the mountains are reported to be ex raordinary, there having been several short spells of freezing weather, with appearance of ice, in the vicinity of General Lee's encampment. The competition of unscrupulous traders still exists, and is likely to be made the embject of stringent measures on the part of the War Department. The policy of impressing the cotton mills and woolen manufacturers into the public service, it says, is not a remote one, and may become a speedy necessity should the speculations of traders in soldiers' clothing be car-ried to further extremities. The War Department has already detailed from the army oper-atives to be employed in a number of the cloth

We have no disposition to detract from the merits of the late Secretary of War, Mr. Walk. er. While we believe he was not the right man in the right place, for the two sufficient reasons that he was not prompt and decisive enough, delaying from day to day what should be done at once, and devoting too much of his time to netty matters to the neglect of great ones; we petty matters to the neglect of great ones; we are glad to state that no taint of suspicion rests on his integrity, and that he was filled with a noble zeal for the Southern cause. But, when his friends claim for him all the honor of organizing the armies of the Confederate States. ganizing the armies of the Confederate States, injustice is done not only to individuals, but to our Confederate system. It now became known that the rud-terrible ravages by disease in the reset der was unmanageable. About six o'cicck the vessel had to be stopped again, owing to two rolls of sheet lead, weighing several hundred weight each, which were in the engine room, There are other reasons, however, for the unhealthiness of the army, and chief among them is the want of proper police regulations in the camps. In plain English, the camps are not kept clean. This I know from personal observation. In many of the regimental camps the masses are in the habit of throwing refuse bread, scraps and parings of meat and pieces of bones, watermelon rinds, green corn cobs, and all the greasy remains of the cooking department incomposition.

[From the Charleston Mercury, August 22.]

The terrible sanitary condition of our army upon the Potomac is a matter of painful interest to the whole people of the Confederate States who have not near relatives at Manassas or on the Mississippi. And those who have not near relatives at Manassas or on the Mississippi. And those who have not near relatives at Manassas or on the bits of the camp is a subject of universal interest and alarm. In the spirit of Spartan fortitude we are willing that our troops should be sacrified, if need be, in the cause of the country. But that they should fall victims to the mismanagement of an inefficient department is utterly unendorable. It is not our business to depose and reform. But it is our duty to expose that inefficiency which is disastrous to the public welfare. The uthousand lives are now in jeopardy through this folly. The fruits of the great battle of Manassas have been sacrificed to this almost it entered the stern of the ship. It was wrought

the Great Eastern's engines could not be slack-ened, and the Persia made off, probably under the impression that foul play was intended by the Great Eastern. An attempt was made at an explanation, but the Persia was too far off. The Great Esstern continued her course ou Tuesday morning, and reached the Head of Kin-eale, where she stopped four hours to arrange her tackle. She signalled the shore, but no notice was taken of her. At four o'clock, she arrived off Cork, and a small steamer came off to assist her, and the harbor was soon reached As the rudder was sufficiently repaired, the ship would proceed to Liverpool soon.
