Movement." The Washington correspondent of the Boston Post thus refers to the revolution

ary designs of the Radical party : "The Radical leaders now here are boast ing confidentially among their friends of the completeness of their plans for the fu-ture. They say Gen. Butler has already prepared a joint resolution declaring that any officer against whom articles of impeachment shall be preferred, shall be sus-pended from office during trial upon the charges preferred. Immediately following the passing of this resolution, articles of the passing of this resolution, articles of impeachment will be rushed through the House under a call for the previous question, and Mr. Wade will be sworn into office as Acting President of the United States. Your correspondent inquired of one of these gentlemen how they proposed securing to Mr. Wade the Presidential chair after he had been sworn in at the Capital. On that point he said there was some doubt. on that point he said there was some doubt.

as General Grant had given them no assurances as to which of the two Presidents he would recognize; but in the event of a refusal on his part to espouse their cause, they had the militia of the Northern States to fall back upon, as well as their own powerful organization, the Grand Army of the Republic, a large portion of which will found in Washington. I suggested that the success of the Conservatives in the fall elections would probably cause a change in their programme. He replied, 'No, it will only necessitate the greater firmness and the quicker action.' He also remarked that it was believed Mr Johnson would resist, but that the little power of resistance which had been left him by Congress would not be difficult to overcome. Such is the desperate programme of the revolutionists, and I have a positive assurance from those who know, that i will be strictly carried out."

The National Intelligencer commenting on these significant indications, remarks : The artful and incessant effort of the Washington Chronicle to write up a panic on the subject of the Maryland militia, has naturally provoked the derision of such papers as the New York Herald and New York Times-the latter a Radical sheet, but not insensible in this instance to the comic aspects of this bugaboo story. But as we construe these articles, there is something more in them than the evidence of a dearth of topics or the partisan unscrupulousness which is ever ready to distort facts or fabricate a purpose. It resembles too much the practices of the European despotisms, who, when about to wage war, begin by imputing to their neighbors military preparation and demanding instant explanations. One of these termed the "Grand Army of the Republic," is a secret and oath-bound military organization, and numbers, as we hear, some two hundred thousand members. We should be glad to have some account of this force; how many are its actual numbers, what are its designs, and why, if its purpose be not revolutionary and unlawful, it is deemel essential to preserve secrecy. The friends of a new and somewhat novel railroad enterprise held a meeting lately at the Cooper Institute, New York. The object was to further a project for increased railroad accommodation between the seaboard and the West, and the means for accomplishing this end is to be a double track for freight trains, on which any person may have the right to run trains. It would seem, at first thought, says the Sun, that such an arrangement would be more productive of railroad smash-ups than anything else, but the plan is said to have the indorsement of leading railroad men and shippers in all parts of the country. We only hope that it is feasible, and that it may be practically applied. If feasible, it would have a tendency to enlarge the accommodation of freights, reduce charges,

Bragging What They Will Do The following letters from SHERMAN and WADE were read at the Republican mass ratification meeting in New York city on

Wednesday evening last: MANSFIELD, O., Oct. 14.

MY DEAR SIR: I regret that I am not able to attend your meeting at the Cooper Institute on the 16th inst. I would like in person to assure you that the Republicans of Ohio are not in the least discouraged by the elections on last Tuesday. Gen. Hayes and the whole State ticket are elected by 3 000 majority, which we will make 50,000 mext fall with ease. We lost the State in 1862 by 6,000 majority, on the Emancipation Proclamation of Abraham Lincoln. The next year we best Vallandigham by 101,000 on the same issues. Impartial suf-trage and implicit observance of the public faith will next year, as this year, be en-graved on our banners, and will as surely triumph as that God rules. Independence would have been defeated in 1775. It was proclaimed throughout the land in 1776. Our soldiers were not disheartened with partial defeats, but the Copperheads were. They raised the white flag in 1864. In 1865 the national banner floated in triumph over every part of our country. So will it be next year. In the meantime we will learn wisdom from our defeats. We must insist upon greater economy in public expenditures. We must cease to quarrel among ourselves. Our adversaries may be made useful in closing our ranks. I trust that New York, as the Empire State, may take the lead in this movement, and by maintaining Republican ascendancy, convince Democrats and reb-els that the party and the principles that prevailed during the war will govern the country, new that Peace and Union have been won. With the best wishes for your success, I am truly yours,

John Sherman.

JEFFERSON, Oct. 12, 1857. A. B. Sage. Esq. Secretary Union Republican Committee of the City of New York: SIR: Your circular of the 8th lust., is received. I regret my inability to be with you on the 16th inst., as you request. But I hope and trust that the Republicans of the great Empire State will not abate one jot of courage or hope in consequence of the temporary check their brethren have had in Ohio. For more than fourteen years Ohio has bad a succession of Republican Covernors, and she never will have any other. Her recent parent water a will have any other. Her recent narrow escape will only have the effect to secure her against future sccidents. The Republicans of Ohio were never more radical, more confident of their strength, nor more resolutely determined to carry out their principles to a final tri-umph than now, and, if our election could be held over again to-morrow, warned of our danger, we should carry the State by more than 50,000. We certainly shall do this next Fail, if we stand firmly by the on such a principle is better than victory on any other, and final defeat on this principle is as impossible as that a God of jus-tice shall cease to rule the world.

Yours, with respect, B. F. Wade. Fifty thousand was the majority the Republican party claimed in Ohlo this fall. They now, with equal truth, claim the same majority at the next election. They are now whistling to keep the courage of their party up to the sticking place, fearing that it will disband before the next fall election, and leave them out in the cold.

The New Dispensation. Copperhead gentlemen, since the great political "reaction" proclaimed itself through the election returns, have assured us most impres ively that the talk about "traitors," is "played ont." We are to hear no more, say they, about "enemies of the who owns a Government bond, or has a dollar to lose by the hazards of revolution.

> THE action of the Secretary of War in ordering a large number of retired officers to Richmond, was done, says the Intelligencer, at the instance and suggestion of high military officers of this Department, and with a view to the establishment of a military court at Richmond, with jurisdiction over all cases of violations of military law or discipline committed within this district. The reason assigned for the change is, that by the new arrangement a uniformity of decisions growing out of a uniformity of construction of military law will be attained. And this, it will be readily seen, will not only the better accomplish the ends of justice, but save the commanding officer of the department, and those immediately under him, a great amount of trouble. The reason for placing retired officers upon the court is to prevent officers on regular duty from being taken from their posts for court martial purposes.

THE negroes in Buffalo resolved, on the opening of the fall term of the public schools, to abandon their own free schools and put their children in with the whites. The teachers told them they were not allowed to accept them, but it was of no avail. The Superintendent did the same thing, but still they persisted in sending their children to the white schools. The Superintendent was finally compelled to eject the colored children from the schools. At this the parents and a number of seedy Radicals became exceeding wroth, and they now threaten to prosecute that functionary under the Civil Rights law.

These large receipts are exclusive of the sums the owner has realized from his mare by betting.

Outh-Bound Associations. The New York World calls attention to the fact that the Radical party as it is now organized seems to be run by secret oathbound associations. First, there is the Loval League, which meets in secret and swears its members with all the solemnity of the old Know-Nothings. This is made up of Government contractors, Radical cal candidates owe their success to the spies and office holders, and forms the right wing of their party. Then there is the Grand Army of the Republic, made of the hangers-on to the late Union army and the Negro soldiers. They are bound together by oaths, and form the left wing of the Radical party. Both wings will be routed by the great army of Union men rallying for a government of the people, under the Constitution.

A SOOTHING EXPECTORANT.

In prepared to meet the urgent need of a safe and reliable cure for diseases of the throat and lungs. A trial of many years has established the fact that it is more efficacious in pulmonsry affections than any other remedy. Its efficacy has now become so generally known that it is justly regarded in many countries as a medicine of indiscensable necessity. In Great Britain, Frince and termany, where medical science has reached its highest perfection, it is prescribed in domestic practice, and constantly used in the armies, in heepitals and other public institutions, where it is regarded by the attending physicians as the most speedy and agreeable remedy that can be employed. Screely any neighborhood can be found where well known cases of diseased lungs, which had baffled the efforts of the most skillful and experienced doctors, have been permanently cured by it. These results are the most convincing proofs of the superior curative proporties of this preparation; and to them the authors point with peculiar satisfaction. While it is mist prowerful again teonifirmed diseases, it is extremely confless a medicine in in anoy and youth being quite harmless to even the youngest, when administered judiciously.
