Gold has advanced in New York to 74 per cent. premium.

The Ohio House of Representatives, has finally passed a bill allowing soldiers to vote.

Hos. R. H. Nogen, C. A. White, J. E. Kerrigan, A. T. Ready and A. Bates, will accept our thanks for interesting public documents.

Major Hayden of the 51st Ohio is at home on furlough, and reports the boys all spoiling for another fight, but thinks it will take 500,000 more men to put down the rebellion.

The New York Tribune says it is true that some of the regiments from that State now in Virginia, are paying themselves by catching runaway negroes and selling them to rebels. Such is the effect of bad example, for if such men as Chase, Wade and Greeley had never advised the stealing of slaves, the soldiers never would have thought of doing so.

Last week a State convention of forty counties met in Frankfort, Ky., but were dispersed by Col. Gilbert and his regiment on the ground that there were some rebels among them. An official investigation is asked for by the Kentucky Congressmen. It is by such acts that Kentucky will be driven out of the Union, and the war transferred to Ohio.

The office holders and contractors called and held a war meeting at Cincinnati the other day, at which Gov. Tod made a speech praising the old Democracy. Finding himself in bad company, the Governor took that way of telling them that he came from a good family, but it was in bad taste for this wayward son to be introducing his good old father among a set of rascally contractors who are daily robbing the soldiers and stealing the government money.

## General Butler.

We publish in another column the speech of Gen. Butler at Baltimore. Less than three years ago this same General Butler, in the same city of Baltimore, took up his hat, and with the delegates from the South broke up the Democratic National Convention, adjourned to another house and nominated John C. Breckinridge for President. Had he and they remained at the Baltimore convention, the rebellion would have been different, and war breaking out would have been different. These parties wrote for information as to the truth of these charges against the Legislature.

We have a key to the manner in which the infamous Hunter resolutions were "juggled" through, and the explanation shows the tricksters who pulled the wires in a most unenviable light, particularly when the fundamental idea with the army officers is said to be honor.

For future reference, we give the following table of distances from important points on the Mississippi River:

New Orleans to St. Louis.....	1,240
New Orleans to Baton Rouge.....	125
Baton Rouge to Port Hudson.....	25
Port Hudson to Grand Gulf.....	185
Grand Gulf to Vicksburg.....	40
New Orleans to Vicksburg.....	409
Vicksburg to Helena.....	825
Helena to Memphis.....	99
Memphis to Port Pillow.....	70
Port Pillow to Island No. 10.....	110
Island No. 10 to Columbus.....	40
Columbus to Cairo.....	29
Cairo to St. Louis.....	185

President of a Horse to Mr. LINCOLN.—The stallion "Prince Lionel," formerly owned by John McCarter, Jr., of Newton, N. J., has been presented to President Lincoln by "Pot Halsted," of the Kearney letter notoriety. The "Prince" is a thoroughbred, is very fast, and although very small in size, is a very handsome animal.

## A Word to Democrats.

A Democrat in this town was recently censuring the Administration for its imbecility in prosecuting the war, when an irrepressible spoke up and said that any man who refused to stand by the Administration was a traitor. The Democrat thereupon told him to take that back, or he would right then and there whip him out of his boots. The irrepressible fazed. We mention this as one of the daily instances of insults to Democrats occurring in our country. The epithets traitor, copperhead, butternut, etc., are used only by men lacking sense to answer argument by reason, but it is time an example or two should be made of them, and there is no way of punishing the slanderers but by the knock-down law.

The Democrats of Tuscarawas have manfully and patriotically borne their share of the evils of this war, in furnishing men and money, and when they see their sons and relatives stricken down by the enemy and by disease, and their money wasted fruitlessly by reason of the imbecility and cupidity of high officers, they have a constitutional and an inherent right to censure and hold up to public indignation the men who are thus covering the land with sorrow and misery, and procrastinating the war solely to make money out of it and free the negro.

The State Journal announces the discovery in New York of the fact that the government has been robbed of twenty-five millions of dollars by a few quartermasters there. Only think of it, a robbery that exceeds in amount all the landed and personal property of Tuscarawas and Stark counties.

## The Great Union Meeting at Cincinnati.

CINCINNATI, Feb. 23.  
An immense Union meeting was held here last night at the Opera House and Melodion Hall. Both places were filled to overflowing. Resolutions were adopted declaring that we give new pledges to perpetuate the Union, that we send greetings to the administration of the Ohio soldiers, that we support a vigorous prosecution of the war; that the Mississippi must roll unbroken to the Gulf, that submission to the constituted law and authorities is the only basis of free government; that we will sustain those in power whether they please us or not, until others are put in their places.

## Genealogy of a Republican Lawyer.

A happy retort occurred in a Chicago Court lately. A rabid Republican lawyer was examining a witness, whom he wished to prove non compos, so as to exclude his testimony. After asking him a variety of rude questions, he propounded to him this inquiry: Whom do you think made you? The witness drew out, "Old Moses, I reckon." The wooly worshipping lawyer turned to the Court and declared the witness clearly incompetent.

At this point the said witness asked permission of the court to put the attorney to a catechism. "You are a Republican?" "I am," said the man of law. "You believe old Abe's Proclamation frees the negroes?" "I do," replied QUINN, Esq. "You are in favor of black regiments?" "Certainly," said QUINN. "Now, old goose quill, who made you?" The lawyer, imitating his drawl, replied: "Why, A-A-B-O-R-Y ticket dealer trans-I reckon." "Well," said the incoherent pay \$1,000. "ected to tent witness, brightening up, and assurance agents shy battle. ing a withering glance upon the en the receipts are, screeching attorney, "We do reaguin."

## Amendment of this act.

A joint resolution. The in the Ohio leg use in the obtaining to Clyde and the next day the Confederates, in favor of China" has no objection in this connection than the recently Jefferson Davis.

The Messrs. Scott, of Greenock, are completing a very fine iron steam engine, which is alleged to be intended for the trade between Charleston and Savannah.

Two weeks ago a fine vessel, of the same class as the Virginia, was launched from Messrs. Blackwood's yard, at Port Glasgow, and common report says she is intended for "the Chinese."

Upward of fifty steam vessels, of various descriptions, in different stages of completeness, might be enumerated in this "Chinese" category. The Seventh section of the 59th Geo. III., cap. 69, prohibits, under a penalty of fine and imprisonment, for forfeiture of the property, the equipment furnishing, fitting out or arming of any vessel, to be employed in the service of any foreign prince, state or potentate, with intent to commit hostilities against the subjects or citizens of any prince or state with whom his Majesty shall not then be at war." Do not the facts herein submitted by word, warrant an immediate and a searching investigation into the nature of these transactions for the "Chinese?"

### A Report of the Superintendent of the Unionville Union School.

To the Board of Education: I have the honor to submit the following report of your school, under my superintendence, for the term ending February 23, 1863.

There have been enrolled during the sessions, just closed, 250 pupils. The average daily attendance in the different departments has been as follows: In the High School, 1st month, 33, 2d month, 44 1-5, 3d month, 41 1-9, 4th month, 43, 5th month, 40.

In the Secondary Department, the average has varied but a fraction from 42. In the Primary, (1st and 2d) 1st month, 83 4-5, 2d month, 86 3-4, 3d month, 90 5-6, 4th month, 76 1-2, 5th month, 74.

The subjoined is the "Honor Roll" in attendance.

The following have not missed an entire day during the session: LIZZIE LEWIS, Alma Dawson, Samuel Giles, Scott Bukey, Roth Bukey, Wm. Bukey, Oliver Malone, Emma Flickinger, O'Donnell and Isaac Flickinger. Those who have been absent on account of illness, only, are as follows: Ida Rea States, Mattie White, Mary O'Donnell, Lolla Keepers, Lottie O'Donnell, Lolla Keepers, Mary Gorley, Josie Maxwell, Mary Richison, Lawson Smith, Lewis and Maurice Moody.

## REMARKS.

It is a time-established fact, that a resolute will, regular attendance at school is the secret of success. Let the parents then strive to their children in placing their in the "Honor Roll," in attendance.

Our next term of school commences March, 30th, and will continue months. Let there be a full and lar attendance.

ARCH. J. SAMPSON, Superintendent.

## Death of a Brave Soldier.

JOSIAH STEPHENS, of Fairfield township, Tuscarawas county, entered the ranks of our volunteers and served with fidelity in the 126 Regiment O. V., much esteemed by his comrades in arms for his readiness in the discharge of his military duties in every emergency, and his death, of typhoid fever, which took place on the 16th of February last in the Hospital at Martinsburg, Va., is much lamented and regretted by all who knew him, and is especially testified by his superiors in command. His remains were brought home to his mother's residence in Fairfield township and taken to their last resting place in the churchyard of the Lutheran persuasion on the New Cumberland ridge road on Sunday the 23d inst., followed by a numerous circle of friends who, with his widow, deeply feel his untimely loss.

## FUEL CONSUMED BY THE ARMY.

In order to convey some idea of the amount of fuel consumed by the Army of the Potomac since it has been located opposite Fredericksburg, it is stated that the command has, at intervals, occupied something like thirty-two square miles, at least twenty-four of which was, when it came there, covered with dense woods, mostly oak and cedar. Where this vast forest is now sought for fuel, the soldiers have cut down a large number of trees, and the ground is now covered with stumps, and the fuel is now being cut and stacked.
