Crockery Saver.

Danger of breakage is eliminated in a new motor-driven dish washer in which the dishes are held stationary in wire baskets and water is forced around them.

"I believe we have a bargain," she whispered to her husband, as the physician wrapped it up and handed it to her.—Indianapolis News.

E. E. Dudding of New York wants 100,000 American convicts put to work in munition plants.

Youth thinks it knows; age wishes it knew.

What Amused Him.

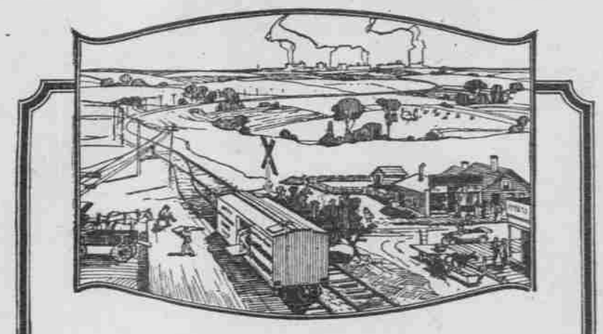
Roy K. Moulton at the Press club the other evening told of a young American soldier who stood knee deep in the mud in a front trench. Shrapnel was screaming all about him and the big shells were bursting over his head. Suddenly the soldier burst into a wild fit of laughing.

"What's the matter with you?" said a trench mate sarcastically.

"I was just thinkin', Bill," was the response, "about the guy who held me up one night in Memphis with a .22-caliber revolver."—New York Times.

Eats 'Em Alive.

Vacuum cleaners, an Ohio farmer has discovered, make excellent potato bug exterminators. Noticing that his potato vines were thick with the pest, he attached a long extension feed wire to an electric lamp socket in the cellar of his home and carried the cleaner out into his backyard potato patch. The current was turned on, and in a few minutes every bug was drawn into the bag.—People's Home Journal.



You Can't Eat Meat 100 Miles Away

Preparing meat is only a part of Swift & Company's usefulness.

The finest meat in the world wouldn't do *you* any good one hundred miles away from your table.

Swift & Company efficiency has made it possible to place complete lines of products in the smallest and most remote communities.

To be sure the work is done well Swift & Company, through its branch houses and car routes, brings the meat to the retail dealer for you.

Swift & Company lays out car routes covering towns—big, little, medium size—which are not served by a Swift branch house.

Salesmen find out in advance what is wanted by the dealers in every town.

They are followed by refrigerator cars loaded with retailers' orders, which are delivered at each town—fresh, clean, and sweet—once or twice each week.

Swift & Company operates a large number of car routes like this, from fourteen distributing plants.

This is a necessary and natural part of the packers' usefulness. It fits into the industry in an orderly, effective way. It makes *better* meat *cheaper* from one end of the land to the other.

Swift & Company, U. S. A.

Theorist.

"I always believe in saving something for a rainy day."

"How much have you saved?"

"Oh, I haven't saved anything, but I believe in it."

Wilmer Krusen is preparing Pennsylvania industries for employment of veteran American soldiers.

Woodbury, N. J., has opened a community vegetable market.

Philadelphia Aero club reports 80 per cent of members in the war.

We Getcha, Boy.

"Can you swim, Sammie?" asked the visiting uncle, as the two were out for a little walk together.

"Well, I'll tell you, uncle," said the boy, with a knowing look. "It all depends on whether I'm around ma or the fellers."

The manufacture of paper from wood pulp involves 28 separate operations.

T. J. Sands, Philadelphia, retiring after 50 years of railway service, refuses pension.

Scenes of Prosperity
Are Common in Western Canada

The thousands of U. S. farmers who have accepted Canada's generous offer to settle on homesteads or buy farm land in her provinces have been well repaid by bountiful crops of wheat and other grains.

Where you can buy **good farm land at $15 to $30 per acre—get $2 a bushel for wheat and raise 20 to 45 bushels to the acre** you are bound to make money—that's what you can do in Western Canada.

In the provinces of Manitoba, Saskatchewan or Alberta you can get a

HOMESTEAD OF 160 ACRES FREE

and other land at very low prices.

During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley, and Flax. Mixed Farming is as profitable an industry as grain raising. Good schools, churches; markets convenient, climate excellent. Write for literature and particulars as to reduced railway rates to Supt. of Immigration, Ottawa, Can., or to

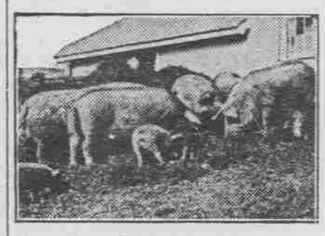
FARM STOCK

SANITARY HOUSES FOR HOGS

Quarters and Immediate Premises Should Be Thoroughly Disinfected Every Month.

(Prepared by the United States Department of Agriculture.)

Hogs should be provided with clean, dry, well-ventilated quarters. Feeding places should be kept clean and the water supply pure. Hogs should be allowed access only to streams the sources and courses of which are known to be uncontaminated. Wallows should be kept clean and supplied constantly with clean water. The houses and immediate premises should be thoroughly disinfected once a month with air-slaked lime or a 5 per cent solution of crude carbolic acid.



Hogs Kept Under Conditions Here Shown Are More Susceptible to Disease Than Those Kept Under Sanitary Conditions.

Animals that show indications of sickness should be immediately isolated and the premises thoroughly disinfected. New hogs brought to the farm should be isolated or quarantined for several days before they are permitted to run with the herd.

Hogs, and especially young pigs, often suffer much from lice. When numerous, lice are a serious drain on vitality, fattening is prevented by them, and hogs so affected are very much more subject to disease. To eradicate lice, dip, spray, or rub hogs with crude oil, crude-oil emulsion, or kerosene-oil emulsion every ten days for three or four applications.

A very troublesome affection with hogs, is caused by a mite or parasite that pricks the skin of the hog to get tissue fluid. This injury produces a red spot which finally results in a scale under which mites may be found. The symptoms are itching followed by a loss of hair and thickening and cracking of the skin. Treat mange by applying lime sulphur or nicotine dip once every ten days for three dippings. Hogs should be washed thoroughly with soap, water, and brush before dipping, to remove the scales.

SWINE USE WASTE PRODUCTS

It Is Necessary to Have Number of Pigs on Hand to Consume All of Perishable Feeds.

(Prepared by the United States Department of Agriculture.)

Under ordinary conditions hogs return the largest profit when raised to utilize waste products, and when kept for this purpose alone the number will depend upon the quantity of waste products to be consumed. Skim milk from dairy herds; shattered grain from grain fields; unmarketable products from the truck farm; undigested grain in the droppings of fattening steers, and many other minor wastes on the average farm are examples of foodstuffs which would be wasted were it not for their utilization by the thrifty farmer for the production of pork. In order to utilize some of these products, it is necessary to have a number of pigs on hand for a relatively short time, on account of the perishable nature of these feeds. The rest of the year the fattening pigs and the breeding stock must be maintained upon feed raised expressly for their consumption, and while they are not kept at a loss during this time, still the greatest profit is derived when they are eating their cheap feed in the form of waste products, and the number of hogs which can utilize the waste to the best advantage should be the limiting factor in determining the number of hogs to the farm. On farms in the corn belt where hogs are raised simply to market the corn crop on the hoof, the number is controlled by the amount of corn which can profitably be raised to fatten them.

TO ERADICATE HOG CHOLERA

Present Object of Government and State Authorities Is to Gain Control of Disease.

(Prepared by the United States Department of Agriculture.)

The federal government and the state authorities aim at the ultimate eradication of hog cholera. At present the object is to bring it under strict control so as to reduce losses to the minimum. Prevention, however, is better than cure. Methods for prevention as well as cure may be found in "Hog Cholera: Prevention and Treatment" (Farmers' Bulletin 834).

Losses from tuberculosis may be serious also, and in order to be forewarned and forearmed, "Tuberculosis of Hogs" (Farmers' Bulletin 781) should be studied.

There are two distinct types of swine, the lard and the bacon types.

Care and Development of Calf.

The care and development of the calf are more important than a knowledge of pedigree in blending the blood lines.

Save Roughage for Stock.

Save the corn fodder and the grain straw. This roughage is the hope of the future for meat-making stock.

Young Animals for Breeding.

Young animals that are being developed for breeding purposes should not be closely housed and pampered.

Dark Gowns Embroidered in Gray

Black frocks embroidered in gray yarns and black embroidered in silver are among the foremost successes in the season's showings of new ideas. It is a sedate combination even when the embroidery is elaborate and in a bold pattern, and it proves to be as effective when very dark blue—called night blue—is used instead of black. The lovely gown shown in the picture above employs this deep blue in a dress that is rich enough for the opera and quiet enough for anything else. Costumers are giving much attention to gowns of this type, for their task is to achieve designs that couple distinction with quiet colors.

In the gown pictured there is an underbodice and a skirt of night blue satin with a bodice of georgette draped to simulate a belted coat and waistcoat, over it. There is a soft girdle of the georgette and, at the left side, an unexpected and pretty touch in two long ends each of narrow moire ribbon.

Much of the embroidery, which is an important feature on this season's dresses, is done in long stitches and easily worked. The effect is good and the work goes quickly, but the wide bands on the handsome gown pictured are not embroidered in this way. Many of the stitches are short and set close together. This pattern is striking and exactly suited to the yarn used for working it out. The dress is simple in design, and needs to be, since the things to be emphasized in it are the lovely color combination and the bold and rich embroidery.

A dress of this kind calls for a hat that will play up to it, and a broad-brimmed model, in velvet, or velvet and georgette, of the same dark blue, can hardly be too simply trimmed. Such a hat is shown in the picture and might be in black with as good results. The pumps are of black patent leather.

Satins Will Be Favored.

Satins promise to be the greatest favorites among silks for fall.

Separate Skirts.

Separate skirts have hems of contracting material and color.

Novel Wraps and Coats

Only a few of the coats and wraps for fall and winter lay claim to novel designing. For one thing, designers restrict the amount of materials to be used to definite lengths that do not allow anything for merely decorative additions to these wraps, and for another—simplicity is the fashion; the public generally likes it.

One exception to the rule that allows a scant measure of goods for a coat appears in the handsome model shown at the right in the illustration above. This is a heavy, castor-colored garment, of pom pom cloth, with a shawl collar and deep cuffs of otter. It is made with the approved double-breast, fastening to the left, near the waistline, with handsome buttons. These are square and match the coat in color, with rims in the dark shade of the fur. Four of them are set on each sleeve and one on each pocket. The coat is straight, but is drawn to the figure at the waistline by a soft girdle of the cloth. The designer might have considered the coat complete if nothing more had been added to it; but there was the temptation to add the charm of the straight panel and the smart suggestion of a military cape all at one and the same time—and it was done. Therefore there is a long, narrow cape, banded with fur and finished with buttons, which puts this extravagant and beautiful coat in a class where it has few rivals.

For mild climates, or fall wear, there are some scarfs and capes suited to between-seasons that are often clever combinations of two accessories in one garment. The cape shown in the figure at the left of the picture contrives to extend itself into a broad girdle with sash ends that are finished with a handsome yarn fringe. Fringe is a much coveted decoration these days and these sash ends are further enriched by embroidered dragons that match it.

Julia Bottomley

Capes Are Stylish.

Capes are very desirable and very stylish. But if a girl can have but one wrap outside of the regular raincoat, a warm wool coat is the best choice. Those for this season are, for the most part, belted, double breasted, having patch pockets, collars which can be rolled high and the coat reaches the edge of the dress at the bottom. Materials are much the same as they have been in the last two seasons; wool velours, duvetyn or other woolly surfaces. Bolivia is a beautiful material, but its wearing qualities are somewhat doubtful.

Advanced Russian Women.

The master ideal of the women of the Russian intelligentzia has been freedom and independence, and Americans of both sexes long resident in Petrograd believe they have realized it more fully than any woman in the world. Their leaders admit they have now no unjust discrimination to complain of in either law or social custom. Conventions press but lightly upon them. In these days of dear matches a young lady may stop you in the street and ask for the loan of your cigarette in order to light her own. The one foolish convention I noticed is that a woman must never be seen outside the house with the head uncovered. In one form or another the kerchief rules all classes, the result being that Russian women do not rejoice in very luxuriant hair, nor do their tresses show the glint and sheen that comes from going about bareheaded."—Century.

As skirts grow more narrow they naturally grow longer.

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle contining three ounces of orchard white, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how freckles, sunburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

Nobody Gets By.

My friend, who is an officer, told me this one: "There was a new and young lad on sentry duty, so I thought I would play a trick on him. It was dark when I approached the camp, and the sentry asked, 'Who goes there?' I answered, 'Nobody.' He, becoming excited at this answer, replied, 'Pass on.'"

Measure of Esteem.

"Then she cares nothing for him?"

"Not even enough to inquire about his income."

Her Destiny.

"A waitress ought to be born one."

"Why so?"

"Isn't she one maid to order?"

Catarrhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.

ONE HUNDRED DOLLARS for any case of Catarrhal Deafness that cannot be cured by HALL'S CATARRH MEDICINE.

Catching the Spirit.

A certain man, a part and parcel of this fair young city, has a habit of joking with his children. One of the favorite questions propounded at frequent intervals is, "Dad, where yuh going?" To which dad usually replies, facetiously, "Oh, down in the cellar, to jump off the roof."

One day dad had occasion to go on the roof to make some minor repairs, such as getting the neighbor boy's ball out of the eaves. Mother missed dad and inquired as to his whereabouts. Robert, aged six, observed with great solemnity, "Dad's on the roof; I s'pose he's gone up there to fix the furnace."

Up to Aunt to Be Good.

My nephew, Bobby, was celebrating his fourth birthday and one of his aunts was telling him how good everybody was to him because he got so many things. Bobby answered: "You hasn't been so good, 'cause you hasn't give me nuthing yet."—Chicago Tribune.

What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhœa; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-Good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Genuine Castoria always bears the signature of Chas. H. Fletcher

To Become Toy Makers.

Toy making is one of the vocations encouraged in the re-education for war cripples in France. The Ecole Joffre is situated in the city of Lyons and now specializes in commercial training for the one-armed and in the manufacture of toys, according to a writer. Toy making is being studied with serious purpose. A beginning has been made in the wholesale manufacture of toys on the factory system, by which the making of separate parts is assigned to the mutiles, whose physical handicaps allow for easy operation of single process only.

Necessarily.

"That oculist is a man of very high-brow theories."

"Naturally, an oculist must live on eye-deals."

Russia leads the world in the production of flax fiber and Argentina of its seed.

The man who has made the most of his youth usually makes the most of his old age.

Grandmother in Eighteen Days.

A lady green bug becomes a grandmother in 18 days. One can imagine, then, notes a naturalist, the multitudinous armies of these insects that may develop in the course of a season. Their worst foe is a tiny black four-winged fly that deposits an egg in each bug it comes across, its larva consuming the bug's inside works and using its shell for a house.

Milwaukee will eliminate foreign language studies from grade schools in June, 1919.

Chester, Pa., is to have 2,000 new dwellings for war workers.

WEAK KIDNEYS MEAN A WEAK BODY

When you're fifty, your body begins to creak a little at the hinges. Motion is more slow and deliberate. "Not so young as I used to be" is a frequent and unwelcome thought. Certain bodily functions upon which good health and good spirits so much depend, are impaired. The weak spot is generally the bladder. Unpleasant symptoms show themselves. Painful and annoying complications in other organs arise. This is particularly true with elderly people. If you only know how, this trouble can be obviated.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the inconvenience and pain due to advancing years. It is a standard, old-time home remedy, and needs no introduction. It is now put up in odorless, tasteless capsules. These are easier and more pleasant to take than the oil in bottles.

Each capsule contains about one dose of five drops. Take them just like you would any pill, with a small swallow of water. They soak into the system and throw off the poisons which are making you old before your time. They will quickly relieve those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brick dust," etc. They are an effective remedy for all diseases of the bladder, kidney, liver, stomach and allied organs.

GOLD MEDAL Haarlem Oil Capsules cleanse the kidneys and purify the blood. They frequently ward off attacks of the dangerous and fatal diseases of the kidneys. They have a beneficial effect, and often completely cure the diseases of the bodily organs, allied with the bladder and kidneys.

If you are troubled with soreness across the loinsor with "simple" aches and pains in the back take warning, it may be the preliminary indications of some dreadful malady which can be warded off or cured if taken in time.

Go to your druggist today and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. GOLD MEDAL are the pure, original imported Haarlem Oil Capsules. Accept No Substitutes.—Adv.

Don't Get Hung Up With an Acid Stomach

125,000 People Commit Suicide Every Year
A great food scientist says: "The cause of the most of them started in a bad stomach"

It's Just Acidity That Makes Millions Sick and Suffer

It's true. There are millions of people all over the land who are weak, nervous, all tired and dragged out, who are trying to build up their jaded nerves and weakened bodies with drugs and stimulants; and many of them also EAT and EAT—but fail to get anywhere near the full amount of strength and nourishment out of their food. Why? Simply because of too much acid in the stomach—superacidity.

Get rid of the excess acid. Your stomach is all right—just give it a chance to work easily and naturally. Then see how good you will feel—your pep comes back, and your blood warms up!

A new method—truly a wonderful discovery called

EATONIC
FOR YOUR STOMACH'S SAKE

is positively guaranteed to clear the excess acid out of your stomach and bowels.

It is made in the form of pleasant-tasting tablets—handy to carry around with you.

Get a big box of EATONIC at any drug store and see how quickly it banishes the immediate effects of acid-stomach. Away with heartburn, belching, food repeating, indigestion, etc.—and then see how your general health improves.

So again we tell you—insist upon it—If you are ailing get a big box EATONIC from your druggist today. The cost is a trifle—only 50c. You have faith in your druggist. We authorize him to absolutely guarantee EATONIC to you and you can hand your own druggist to make this guarantee good. If EATONIC fails in any way, take it back—he will refund your money. If your druggist does not keep EATONIC, drop us a postal card and we will send it to you at once; you can send us the 50c after you get it. Address: H. L. Kramer, Pres., Eatonic Remedy Company, 915 So. Wabash Ave., Chicago, Ill.
