

FINANCE AND COMMERCE

Wall Street.
New York, May 12.—The lethargic condition into which the speculation in stocks fell today was difficult to account for from many incidents in the news. The apparent completion of selling from quarters that were regarded as important gave some relief to an apprehension that informed investors controlling the great corporations of stocks. Orders from London were also on the buying side in excess of selling orders. Foreigners are often well informed on the views of investors controlling the great corporations here and the persistent selling of late was considered rather ominous. The result of that condition today with the closing up of accounts in connection with the stock market movement in London was accepted as cause for encouragement.

The market was freed from the selling pressure in evidence yesterday but prices moved decidedly upward only in the final half hour. Effective support was afforded by the general decline in the strength in a few stocks, notably Reading. That stock met some very heavy selling orders in the course of the advance but offered good resistance. Erie was strong and estimates in that road's earnings power were put in circulation. Part of the effect of the depression on activity was due to the renewed rise in prices of wheat and in some of the reports of unfavorable weather conditions in parts of the wheat belt. The turn to the buying side of the stock market on the part of London increased the supply of foreign exchange today and took away from yesterday's show of firmness in that market. The stock sentiment is not disposed to ignore the significance of the hardening of the money market in view of the free use which has been made of banking credits in carrying prices of securities up to the present price level.

Chicago Board of Trade.
Chicago, May 11.—Barring reports from Kansas were partly responsible for an advance of 10 in the price of wheat here today. The market closed at almost the top with net gains of 1 1/2 to 1 3/4 compared with yesterday's final quotations. Corn, oats and provisions also closed strong. The wheat market closed with July at 1.14 1/2.

The corn market closed with July at 84 1/2 c.

The oil market closed with July at 51 1/2 c.

Boston Wool Market.
Boston, May 11.—The upward tendency of values continues to be the chief feature of the local wool market and manufacturers are realising that high prices are likely in reaching for some time.
