

FINANCE AND COMMERCE

Wall Street

New York, April 4.—Price movements were narrow on the market today except in the case of a few issues which apparently were especially selected for manipulation to lend some appearance of animation to the market.

Almost the only consistent movement of the day was the advance of railroad stocks which would be affected most directly by the conclusion of a reciprocity agreement with Canada. The Hill stocks were especially strong. Canadian Pacific gained four points more, advancing to a new high record.

The outlook for general industrial conditions was left unchanged by the day's developments. Complete figures of March bank clearings over the country revealed a decrease of 10.5 per cent from last year, due not only to slowness of trade, but to the small demand in New York for financial operations and speculative purposes.

National Biscuit was unusually active and advanced five points to another high record. Associated Oil dropped four points on authoritative denial of the report that it was to be purchased from Southern Pacific by important interests. The general list hardened somewhat in the final dealings and closed with a preponderance of small gains. Closing stocks:

Boston Wool Market.

Boston, April 4.—Holders in the local wool trade are at last disposing of their stocks through the marketing down in values and transfers are running very heavy. The activity extends throughout the list although the largest demand is for the territory stock. There have been some good transfers in fleece wools, notably in Ohio half blood and Michigan quarter blood, while fine Delaine is also in demand.

Sales have gone far in cleaning up local bids for the new clip although interest in the 1911 product is not pronounced as yet. Quotations range as follows:

Texas fine, 12 months, 48 1/2-50c; fine 6 to 8 months, 45 1/2-47c; the fall, 43c.
