## JOSEPH PHILLIPS, HERO OF CIVIL WAR, DEAD

Past Commander of G. K. Warren Post Called to Final Reward at Age of 68 Years After Lingered Illness.

After a lingering illness which he bore up with all the bravery that characterized his service for his country during the Civil war, Past Commander Joseph Phillips of the G. K. Warren Post of the Grand Army of the Republic, died early yesterday morning at his residence, 1099 North Eighth street, in this city.

During his last illness he has been under the constant care of his two daughters, Misses Maude and Lillian Phillips, who made their home with him, and his contractor of the G. A. R., with whom he had been associated for some years, and who held their past commander in the greatest esteem and respect.

The dead veteran leaves a family of four daughters, two of whom made their home with him, another Mrs. C. A. Mosley, a physician, lives at Lower Penasco, Eddy county, and Mrs. C. A. Marshall, who resides at Fowler, Kas. Dr. Mosley is hurrying to Albuquerque and the funeral arrangements will not be announced pending his arrival.

Joseph Phillips was born in Benton, Ill., 68 years ago, and during his early youth learned the carpenter's trade at which he worked continuously up to a few months ago, with the exception of his service in the Civil war.

In July, 1862, he enlisted in Company K, Seventy-first Illinois Volunteer Infantry, serving until discharged the following October. He immediately afterwards enlisted in Company F, Fifteenth Illinois. He was transferred to Company L, Tenth Cavalry, with which regiment he was serving as a sergeant when he was discharged in October, 1865. During his service he was often called upon to perform hazardous service, such as a dispatch carrier, which he did with great credit to himself and to his command. During a part of his service he was in the same company with his father.

After the war he married Miss Perina Tyler of Benton, Ill., who was his faithful helpmeet for nearly twenty years. She died in 1895.

Six years ago he came to Albuquerque and has since made his residence here. He immediately transferred his membership in the local Grand Army post, and was twice elected to the position of commander of the G. K. Warren Post. In the early part of this year he showed his generosity towards his comrades by resigning his membership in the local Grand Army post, and was twice elected to the position of commander, and thus became a member of the department of New Mexico. Mr. Phillips had himself been thus honored and he wished his comrades to also have the privilege that had been accorded him.

## ANOTHER STRIKE IS MADE IN SEVEN LAKESFIELD

Oil and Gas Found at 400-Foot Level On Wilson Property; Many Outfits Engaged in Drilling.

The smokefest to be given this evening by Albuquerque lodge No. 461, B. P. O. E., promises to be one of the classiest little shows ever put on by the local herd. Imported cigars have been provided to give class, and it is reported that a fast smoke will do some tricks with gloves that will possibly cause some of the members to sit up and take notice. Tea and cake will be served during the evening and some athletic practice will be indulged in. A feature of the evening will be a Santa Claus rehearsal in preparation for the Christmas tree festival which the lodge is arranging for the boys and girls of Albuquerque. Songs and recitations will add to the gaiety of the affair tonight and altogether the occasion promises to be positively delightful, not to say astonishing. No one should miss the glove tricks.

Another strike of oil and gas was made at Seven Lakes yesterday. At the four hundred foot level Lee Lamb conducting the drilling on the Wilson property, struck a good flow of oil and as great a flow of gas as was

found at the original Tally well. The Wilson place is about six and a half miles distant from the scene of the first operations and near the large holding of many Albuquerqueans.  
A telegram was received yesterday afternoon by George F. Leonard of this city from Lamb which read: "Got gas and oil in the Wilson well at four hundred feet."  
Mr. Leonard immediately left for the front to look after the interests of the Albuquerque people.  
The fact that the new strike is six and a half miles from the first discovery seems to indicate that the field is as large as has been heretofore indicated. Many outfits are going in to the new field every day and there are now four drills working in widely removed parts of the field. Further strikes are expected in the course of a few days.
