STOCK MARKET VARIES LITTLE; OUTLOOK POOR

BY MORNING JOURNAL SPECIAL LEASED WIRE

New York, May 26.—Conflicting conditions served to keep the stock market in check again today. Chief among these was the general intimation from Washington that the government contemplates further investigations in the management of certain large railway systems, as well as indications that the administration purposes carrying out its so-called anti-trust program during the present session of congress. A series of definite details regarding the Missouri Pacific situation, more gloomy as to the progress of Mexican mediation and additional gold exports to Paris were contributing factors, one of the few definite developments of the day was a decision rendered by the supreme court of the United States in the "Sap Zinc" cases, upholding the original rulings of the United States commerce court and reversing the opinion of the Interstate Commerce commission.

In a relative sense the bond market was more active than the stock list.

A more cheerful tone was reported by London, but conditions on the continent remained unsatisfactory. Bills discounted in Berlin. Decrease here for foreign account were limited.

Total sales of bonds par value aggregated $4,270,000. United States registered 4's gained ½ per cent on call.

CHICAGO BOARD OF TRADE.

Chicago, May 25.—Prospects of a record breaking yield in Oklahoma and Kansas forced down prices today in the active options of wheat. Questions of May tightened, but trading in that delivery was at a minimum. The market closed somewhat irregular, ¼@¾c net lower to ¼c advance, in corn the collapse varied from ¾ decline to ¼ gain, oats closed up ¼ to 1¼ cents and provisions strong out from a setback of 15@17½c to a rise of 5 cents.

Official estimates from Oklahoma figured the probable harvest of wheat there to be as much as 28,000,000 to 40,000,000 bushels. Moreover, southern Oklahoma was hopeful of starting to cut within a week. Observers reports continued to come from the crop experts who are watching final developments in Kansas, Illinois, Indiana, Missouri, Iowa and Nebraska. Despite the fall of substantial damage from Hessian fly and from dry weather.

Corn stocks here were reported as having been diminished to as low as 2,000,000 bushels. It was said also, that universal demand might become more urgent at some lucrative profits. The market, though, felt the effect of a more favorable outlook for shipments from Argentina and of the completion of planting over the greater part of the domestic belt.

In the sale matters, dry weather complexions formed the chief basis of strength.

Provisions averaged lower on account of a heavy break in the price of hogs. Weakness showed itself for the most part in the last hour.

Closing prices:

Wheat—May, 97¾; July, 87½c.
Corn—May, 70½; July, 67¾.
Oats—May, 42½; July, 39¾.
