

CONSTRUCTION OF FEDERAL ROADS IS PROGRESSING

Road Between Bernalillo and Domingo Being Re-located on Railroad Level; Cuts Out Grades.

Many miles of road are either under construction or to be constructed between Albuquerque and Santa Fe at the expense of the federal government. There are all three of these roads at present, all passing over Indian reservations and pueblos.

H. P. Martin, engineer of the bureau of public roads, is spending several days in the Albuquerque office of the superintendent of Indian irrigation, enacting over the maps. The purpose of this investigation is to check over the roads which will be constructed under federal direction. Under a recent ruling the federal government will construct all roads through Indian reservations and pueblos.

There are three of these roads between Albuquerque and Santa Fe passing over public grants. One of these is between Bernalillo and Domingo. This road will be re-located. Herebefore it has passed over rough, hilly ground. It will be re-located to run close to the railroad and on the same level, thus cutting out all grades. This road will extend between 29 and 35 miles.

Another road will run between Albuquerque and Gallup. This road will pass over three different pueblo grants. The third road will be constructed between Santa Fe and Taos. This road will extend between 15 and 18 miles.

Work on these roads has been going on for some time past in various sections. As soon as the Martin has completed his present investigations and determined upon the entire territory which comes within federal scope, further construction will be instituted in those sections not yet covered.

BERNALILLO COUNTY ROLLED UP MAJORITY FOR DEMOCRATS

Continued from Page One.

Molson, 20; Corbin, 42. For attorney general: Sedillo, 90; Helmick, 42. For school superintendent: Blaney, 80; Eckles, 42. For land commissioner: Muller, 91; Baca, 42. For supreme court: Barnes, 39; Bratton, 44. For corporation commissioner: Hill, 90; Montoya, 42. For representative: Well, 32; Griego, 40. For representative: Mohr, 92; Jord, 41. For representative: Candelario, 90; Chavez, 42. For county commissioner: First district, Herrera, 88; Armijo, 46. Second district, Rankin, 84; Hunt, 46. Third district, Romero, 90; Bezemek, 44. For probate judge: Sanchez, 90; McClellan, 42. For county clerk: Werner, 91; Harris, 41. For sheriff: Lewis, 92; Jord, 41. For assessor: Hubbell, 94. For treasurer: Sanchez, 91; Swope, 42. For school superintendent: Burke, 81; Montoya, 42. For surveyor: Rosa, 45.

Precinct 13.

For senator: Davis, 147; Jones, 156. For congress: Warren, 158; Morrow, 143. For governor: Hill, 152; Hinkle, 150. For lieutenant governor: Gallegos, 152; Baca, 149.

N. Y. ELECTS SMITH GOVERNOR; COPELAND WINS IN SENATE RACE

Continued from Page One.

gubernatorial contest gave, unofficially: Sweet, 122; Griffith, 89. These figures were from precincts H-2, a downtown precinct.

New York, Nov. 7.—Mock-cried republican Monroe county, which gave Governor Miller, republican, a plurality of more than 26,000 in 1920, was won by former Governor Smith, democrat, by 60,000. Senator Caiden, republican, carried the county by over 5,000.

Oklahoma City, Okla., Nov. 7. (By the Associated Press).—Mayor J. C. Walton of Oklahoma City, democrat, running on a farmer-labor platform, took the lead in the race for governor on early reports. Returns from 33 precincts out of 2,247 in the state gave Walton 5,536 and John Field, republican and conservative, 2,472.

Columbus, Ohio, Nov. 7.—Carmel A. Thompson republican candidate for governor, was leading A. V. Donahay, democrat, by nearly 3,000 votes on returns from 135 of the state's 8,167 precincts early tonight including 120 precincts from Cleveland, Thompson's home. Senator Atlas Tompkins, democrat, led Congressman Simon J. Pegg, republican, in the senatorial race by approximately 500 votes on returns from 58 precincts. Early returns gave a majority of approximately 400 against ratification of the vote: 195 precincts for governor; Thompson, republican, 15,173; Donahay, democrat, 12,451.

Fifty-eight precincts for senator: Pegg, republican, 15,173; Tompkins, democrat, 12,451. Virginia D. Greene, independent, 149. One hundred and thirty-nine precincts on wine and beer amendment, for, 8,831; against, 8,256.

Boston, Nov. 7.—Returns from one-fifth of the state, outside of Boston, show Cox, republican, for governor, running considerably ahead of Lodge, republican, for senator, and Fitzgerald, democrat, for governor, running slightly behind Gaston, democrat, for senator. The vote of 239 election precincts outside of Boston gave for governor: Cox, republican, 58,852; Fitzgerald, democrat, 26,257; for senator: Gaston, democrat, 26,331; Lodge, republican, 43,228.

St. Louis, Mo., Nov. 7. (By the Associated Press).—James A. Reed was leading his republican opponent, R. B. Brewster, a more than 4,000 ballots on early returns from 217 scattering precincts in Missouri at an early hour tonight.

Detroit, Mich., Nov. 7.—Returns from sixty-two precincts gave for senator: Townsend, republican, 3,951; Ferris, democrat, 2,515. For governor: Groesbeck, republican, 4,305; Cummins, democrat, 1,592.

Nebraska City, Neb., Nov. 7.—This city furnished the first returns on the Nebraska elections, the first precinct reporting showing for senator: Howell, republican, 70; Hitchcock, democrat, 55.

For congress, fifth district: Andrews, republican, 76; Shallenberger, democrat, 81.

San Antonio, Tex., Nov. 7.—Re-election of Congressman Henry M. Wurzbach of the fourteenth Texas district is indicated by early returns which show a substantial lead over State Senator Harry Hartman, his democratic opponent. Returns from thirty-one boxes in this (Bexar) county gave Wurzbach 2,338, Hartman 1,725.

Denver, Nov. 7.—Four Denver precincts, reporting unofficially on the gubernatorial race, gave Griffith, republican, 598; Sweet, democrat, 394.

Manchester, N. H., Nov. 7.—Returns from 29 election precincts out of 294 in New Hampshire gave: For governor, W. H. Goodrow, republican, 2,822; F. H. Brown, democrat, 2,021.

The same precincts in 1920 gave: A. O. Brown, republican, 4,030; C. E. Tilton, democrat, 2,021.

Des Moines, Iowa, Nov. 7.—Smith W. Brookhart, republican candidate for United States senator from Iowa, led Clyde L. Her-ring, democrat nominee, nearly 4 to 1 in the first precinct report out of 2,348 in the state. The vote: Brookhart, 11,415; Her-ring, 6,291.

Governor Kendall in 58 precincts received 10,560 votes and J. E. Filer, democratic candidate, 7,296.

The proposal to issue \$22,000,000 state bonds to finance a state soldier bonus received 3,482 votes, 7,191; Civil, democrat, 4,527; Daily, non-partisan league, 2,778.

Kansas City, Nov. 7.—Unofficial returns early tonight from 79 precincts out of 2,536 in Kansas for governor gave: Morgan, republican, 9,901; Davis, democrat, 7,935; Phillips, socialist, 179.

Little Rock, Ark., Nov. 7.—Scattered returns early tonight indicated possibly one of the lightest votes in the history of the state. Ideal weather conditions throughout the state caused many to believe that the vote in three districts in which there were contests would be in excess of previous expectations on this account.

In the third district, where no candidates were certified to oppose John N. Tillman, democratic nominee, the voters apparently were writing in the names of J. Frank Carleton, republican, and M. A. Rude, independent, on the ticket, this according to advice here is legal in Arkansas.

Sioux Falls, S. D., Nov. 7.—Scattered returns from 97 precincts over South Dakota show for governor: McMaster, republican, 7,191; Crill, democrat, 4,527; Daily, non-partisan league, 2,778.

For Colds, Grip or Influenza and as a preventive, take Laxative BROMO GUININE. The box bears the signature of E. W. Grove. (Be sure you get BROMO.) 29c.

ENTIRE FAMILY HAD "FLU" "Keep right on using Foley's Honey and Tar. It will give quick relief," said the doctor, when the entire family had the "flu." Never saw anything so "good," writes Mrs. A. B. Griffith, Andrews, Ind. Neglected coughs and colds often lead to serious complications. Foley's Honey and Tar gives quick relief. Free from opiates (ingredients printed on the wrapper). Largest selling cough medicine in the world. Sold everywhere.—Adv.

ALBUQUERQUE IS HIGHLY PRAISED BY NEW ARRIVAL

Aaron Brown, 710 East Santa Fe Avenue. Tells the Folks in His Old Home Town About Duke City.

Aaron Brown, 710 East Santa Fe avenue, arrived in Albuquerque last November, so weak he could hardly get into the hotel and could scarcely talk above a whisper. The other day he visited the Morning Journal office and claimed he was feeling fit as a fiddle, and he certainly looked like he was in perfect health. Mr. Brown wanted to tell his old friends in Maricopa, Ohio, how he had improved since coming here, so he wrote a letter to the Maricopa Times. The letter, which was printed in the Times October 31.

Editor of The Times:—For years I was in a general contracting business in Maricopa, where I have a wide acquaintance and love the city and its splendid people. Because I had contracted tuberculosis, I was forced to move from there to Albuquerque, New Mexico, in November of 1921. I am asking you to publish this letter in your week day edition so that I may answer through The Times a great number of inquiries that come from old acquaintances, not a few of whom have tuberculosis themselves or in their families. I cannot answer personally all the letters that come to me.

When I came here on November 4, 1921, I was so weak that I could hardly get into the hotel and I could scarcely talk above a whisper. When I ordered the few things I needed, the waiters were likely to bring me other food, unless I wrote the order. I was so weak that I could not speak so as to make myself understood. I was about all in, and the doctors back home had passed sentence of early death upon me.

In Albuquerque two conditions fight the white plague. One is the altitude of 5000 feet. The other is the dryness of the atmosphere. While there is an abundant supply of good water here, it comes from the snows of the Rocky Mountains and is carried through sand and underground and is brought into the city reservoir by means of wells. The water is always perfectly pure.

The annual rainfall is only about seven inches. Sometimes we get nearly that much in one rain back at home in Ohio. Nearly every day is bright sunshine.

The summers here are never sultry. One sleeps under a blanket every night, as from the hottest part of the day the thermometer drops about 45 degrees each night. The coldest nights never cause one's teeth to chatter, and from the lowest temperature of winter nights the thermometer registers a rise of about 45 degrees in the day-time.

Albuquerque has dry heat and dry cold. It is as dry as the desert yet the city itself is in a forest of fine big trees.

When I had been here a week I was able to walk a mile easier than I could walk a block when I left Maricopa. At the end of seven weeks stay here I was able to shovel a ton of coal that had to be moved from one place to another.

Because I knew I would have to live in this climate, even after I am well and tuberculosis, I have built six houses here. I live in one of them and have five of them rented. I shall build more houses, because there is a great demand for them at paying rentals.

This city has about 25,000 people, including suburbs. The suburban population is more than half as many as live within the corporation limits.

The State University is located here, and is a well sustained and high class school. You know the federal government made large grants of land for the endowment of the University, and the State government appropriates about \$100,000 a year for maintenance, in addition to what may be appropriated for new buildings and repairs.

Professors are brought here from eastern universities, and they have to be high class to secure employment.

The great majority of the population are here on account of climate, and the people come from every state in the whole nation. Many now are coming here from Europe.

New Mexico is not cold like Colorado in the winter, nor hot like Arizona in the summer. The climate is a sure cure for tuberculosis if the sufferer comes here in time. Too often they stay back where they contracted it until it is too late. While they stay at home hoping to get well, they are a constant danger to men, women and children who come in contact with them.

This is a good town, and it is building fast. People are coming here faster than houses can be built for them. About \$4,000,000 worth of buildings have gone up this year or are going up.

Although there is a lot of Indians near here, they are good Indians. Also there are a lot of Spanish people in and about this city, but they are good citizens. Please print this for the information of my friends, and if there is any charge send me the bill and I will remit.

Yours truly, Aaron Brown.

It's right because we make it right.

It's right because we make it right.

It's right because we make it right.

HIGH RECORD MADE BY FOUND STERLING ON THE PARIS BOURSE

Continued from Page One.

Paris, Nov. 7. (By the Associated Press).—The pound sterling made a new high record on the Paris bourse today. The average quotation was 99-1/2 francs, 23 centimes, or 2 francs 5 centimes above the previous top mark of 97 francs 45 centimes, reached in April, 1920.

Today's flurry was attributed partly to continuation of French payments abroad in the regular autumn settlement for purchases made during the year, partly to speculation, and partly to the moral influence exerted by the continued fall of the German mark and decreasing confidence in foreign markets that Germany will never pay France's reparations.

STRIKE IS AVERTED. Paris, Nov. 7. (By the Associated Press).—The threatened strike of gas workers in Paris has apparently been averted. All the employees of the four affected plants reported for work today.
