THE YOUNG MEN'S CHRISTIAN ASSOCIATION. -Owing to the increase of their labors, the managers of this Association have found it necessary to secure two additional rooms in the Methodist Church Block, which, together with the reading room, are now furnished and opened to all the friends of the cause. All young men in particular are cordially invited to avail themselves of the advantages of the

reading room, free of charge. DROWNED .- The Coroner held an inquest yesterday upon the body of a little boy three and a half years of age, named Walter Hays, whose parents reside at No. 185 Market street. the rebel prisoners at Camp Douglas attempted to escape on Monday night by jumping the fence. As he went over the top, a member of the Canton Guards, from Fulton county, on duty, ordered him to halt. The prisoner disobeying, home guard went over the fence after him and ordered him to stop. Sill the prisoner refused and home guard drew bead on him, winging him in the shoulder and bringing him down. Before the guard could reach him, however, the rebel had risen and managed to escape amongst houses in the vicinity. Although he lost his man the guard did his duty. Perhaps hereafter it would be best to adopt the rebel practice, and shoot at legs instead of shoulders.

A CUILD LOST FROM THE HOME FOR THE FRIENDLESS.—A respectable looking German woman, named Hill, called upon us yesterday and made a singular statement. She avers that towards the latter part of February her husband joined Colonel Brackett's cavalry regiment, and when the regiment was ordered away she accompanied it. Previous to going she left her ompanied it. Previous to going she left her child, a boy of eight years, at the Home for the Friendless, to be boarded and cared for at a sel. certain sum per week, until she returned. Yesterday she made application for her child, and was astonished at the declaration that they knew nothing of him, and, heart-broken, that steps may be taken to restore the child pense to students and physicians, during the ner. The complaint is one that

merits and demands immediate attention. CHICAGO ON ABOLITION.-It seems as if there were no limit to the demands made upon our wholesale merchants this spring. This "Abolition hole," as our St. Lecture will be delivered, as heretofor Louis cotemporaries have dubbed us, has abolished all competition, in the West at least, and seems to bid fair to run a successful tilt with the Eastern markets for the best of the West Division, within the past few trade of the country. To secure such a combination, the Musical Union offered, if the Mendelssohn Society would do the same, to throw up its name and organization and pass over its property to a new society of which no one should become a delayed in its transit: member until first examined and approved by Mr. Balatka. REPLY. U. S. GUNBOAT MOUND CITY, FORT PILLOW, May 4, 1862. MADAM: I take great pleasure in acknowledging the receipt of a very beautiful American lag which you inform me, is presented to the gunboat Mound City by a patriotic association of Chicago. The value of the present is greatly enhanced by the flattering tenor of the letter accompanying it; and you have a special claim to the thanks, which are herewith respectfully tendered to the association. The fing is now in its appropriate place, waving over its friends, in the face of its enemies; and there, I may venture to say, it will be kept while one of the latter shall remain on the banks of the Mississippi.

I am, on behalf of the officers and crew of the Mound City, most respectfully, your humble servant, A. H. Kiltry, Commander.

MONETARY. Tuesday Evening, June 19, 1869. Monetary transactions present some novel fea-tures to day. Currency is extremely scarce, and exchange is very plenty. The result has been that exchange has been sold by bankers, in large sums, at par@#, per cest. discount. Some bankers have insisted upon 4, on small sums, and have got it; but we think the bulk of transactions have een at par. It is hard to name a buying rate, but perhaps 1/4 discount@par would be the nearest a proximation. It will be almost impossible to sell nuch to bankers until currency becomes more

We hear that the great scarcity of currency will last but a few days, as dispatches have gone East asking for large amounts. This demand will un-doubtedly be gratifying to Eastern bankers, and they will respond with alacrity. It will behoove our people to scan critically the new deluce of un certain stuff which will be sure to answer this de-mand, and thus save themselves from the various Eastern wildcats that will most certainly turn their noses in this direction. A scarcity of currency at this moment is a misfortune. We had hoped that much of the worst stuff had been driven from Chicago, never to return. We may see some of it again. There is not much demand for gold. The buying price is 3M@3M; selling, 4@4M Treasury Notes are scarcer than they ought to be and we hope to see more of them soon. Bankers who ought to know, think there is not to exceed \$500,000 of them in the city. The ruling price for them is 🔀 buying, 🧏 selling. There was more activity in the Flour market, caused mainly by the impression which gained currency that freights were likely to advance materially—the rates being 5c higher to-day—and also on account of the improvement in New York. steady and tolerably active, but business has been omewhat restricted on account of light receipts —the stocks in many of the yards being such that they are unable to fill their orders, if a backward wind should delay arrivals. wind should delay arrivals.
With regard to prices there is no material change. Common lumber sells freely at \$3.50@
9.00, according to quality. Quite a large amount is sold off the dock, mill-run, as it arrives, at \$3.50, delivered on canal boats. There is a scarcity of common Flooring, and we note an advance of about 50c per 1,000 feet. The range of prices is \$12.00@ 13 00 for common undressed—the bulk of the sales 13 W for common uncressed—the bulk of the sates being at \$12.50. In upper qualities there is but little doing, and the market is almost nominal.
THE WAST OF HOLLING STOCK ON THE RALIMOADS.
In some sections of the city, on the West Side more particularly, there is great complaint by lumber dealers on account of the difficulty of procurmer uncertainty regarding the Tax Bill in the House, and the market is again dull and dragging. To-Dax the sales were: 850 bris on p. t.; 50 bris ber dealers on account of the dimentry of procuring cars to ship their lumber in. The complaint is
principally directed against the Galena and Chicago Union Raifroad. We know of large quantities
of lumber that have been bought and paid for by
country dealers along the line of this road for two
weeks past, and the raifroads cannot or will not

tendency. Prime to choice has sold within the past few at \$1.75@1.95, and medium mixed, at \$1.50@1.95, and medium mixed, at \$1.60@1.60. EROOM CORN—The supply continues very and a decline of \$2.6050c took place, except on

send cars to take it away. This state of affairs is

choice selections, which were without material change. Owing, however, to light receipts at the ose, while there is no actual advance, there is ther a better and firmer feeling. Good cargoes of Green Bay lumber have sold generally at \$8 (0 @8.25—principally at the inside figure; but eas shore cargoes, except Muskegon, have been sol at a range of \$7.00@S.60—some coarse cargoes as

low as \$6.50. In contracts there is not much doing. From Muskegon we learn that 700,000 feet of good lum her were sold shead, to be delivered in this port. at \$8.12';—cash on delivery of cargo. At Saginaw there is some inquiry by Chicago dealers for common qualities; but little or node-mand for uppers. About 2,000,000 feet have been contracted, delivered there, part at \$3.00 and \$6.00, and part at \$3.25 and \$6.25.—with a freight of \$1.75. Upwards of \$2.00,000 feet of uppers have been sent from Saginaw to Buffalo on a ratt—an enterprise which was inaugurated last season The following are some of the leading sales of
