Mr. Hill—I must be allowed to say for myself that I regard the proclamation of Mr. Lincoln as a nere bratum fulmen, and so intruded by ite author. It is to serve a temporary jurpose at the North. I fear we are dignifying it beyond its importance. As the Senate has concluded to notice it, I am in faver of the simplest and most legal action. We must confine our action within the line of right, under the laws of nations. In my opinion we have the right to declare certain acts as crimes being in conflict with clilized war, and the secons as criminals, and a criminal, thrugh a soldier, is not entitled to be considered a prisoner of war. While, therefore, I approve the general idea to treat them as persons, guilty of certain sets as criminals, contained in the bill reported by the Senator from Louisiana (Mr. Senmes), and agreed to that report as being the one most severed by the unspoitty of the committee. Mr. Clark of Mo. read a presmble and resolution embracing has view of the subject under consideration. No man, no association of men, no State, or set of States has a right to withdraw itself from this Union of its own accord. The same rower which knit us together can only unknit. The some formality which forged the links of the Union is necessary to dissolve it. The najority of States which form the Union must consent to the withdrawal of any one brauch of it. Until that consent has been obtained, sny attempt to dissolve the Union, or observed the emission of its constitutional laws, is treason—treason to all intents and purposes. FRENCH CHINA, [From the Journal of Wednesday.]
Our forces under Gen. Sill took possession of Frankfort on Monday attempon, crossing the Kenneky River at the tord a short distance below the dam. The rebels exacusted Frankfort upon the approach of our troops, their rear guard taking time to exercise their propentity to steal all such articles as they propently to steal all such articles as they deemed useful. The federals planed their batteries on the south bank of the river, and shelled their retreating columns. Workmen were sent up by the train prepared to reconstruct the telegraph line, and a heavy force will be detailed at once to repair the bridge over Benson. These bridges will be in complete repair in a few days, and such other damage as the rebels have done the road will be made good, when trains will run regularly between this city and Frankfort; and it will then be but a short time until railrout communication with Lexington will be restored. At last accounts Gen. Sill's advance was in pursuit of the flying rebels, who were en route for L. xington.

We have very little additional information rom our forces which left this city in the alrection of Bardstown and Durville. Our toops, it is known, had occupied Lebanon with our even so much as a skruwith, and another body had gone rapidly ferward toward. DINNER AND TEASETS.
