It was then ascertained that several in the cars had seen the talkative gentlemen, about a mile back on the road, reach forward and place his hand on the lady's dress, but they had supposed him to be her husband. The third ercaped.

" DRESS REFORM CONVENTION.—The ladies of DRESS REFORM CONVENTION.—The ladies of Chicago interested in the dress reform movement will hold a grand Mass Couvention at Bryan Hall, on Friday night, at which it is expected that T. B. Bryan, Hon. E. C. Larnec, Rev. R. L. Coller, Rev. R. H. Clarkson, D. D., Rev. Cinton Locke, John V. Lemoyne, Hon. George C. Bates, Rev. W. Eyerts, D. D., Rev. O. H. Tifany, D. D., and other prominent speakers will be present and as dress the andlence upon the necessity of diminishing the use of imported luxuries. We trust that this investing will be largely attended by both ladies and gentlemen, whether they belong to the Covennat Association or not. Evil cannot possibly grow out of the discussion, and it will probably be productive of vast good. We look to see Bryan Hallerowded.

Hall crowded.

Rehief for Soldiers' Families.—The efforts of the patriotic ladies of Chicago to bold a Strawberry Festival in aid of the fund for the relief of soldiers' similies, were last night crowned with abundant success. The larrest and the most profitable festival of the season was held at Bryan Hall, and the results were in every sense satisfactory. Fully \$2,000 must have been realized. Included in this amount are several handsome donations, in sums ranging from five to one hundred dollars. The work these ladies have undertaken is an exceedincy important one, and we look to have the fund for its prosecution irrely increase. The ladies need \$25,000. Who will take the matter of raising that amount in hand? It can easily be done in Chicago, if the undertaking be vigorously proceduled.

Sparking Apprix.—On Monday night a dance.

STARRING AFFRAT.—OB Monday nights dance was held at a saloon on Twolith street, near Third avenue, called the "Green Tree House," and frequently occupied as a sert of Democratic Headquarters, which fact will probably account for the low social status of its general visitants, during the course of which enjayment a desporate fight occurred between some of the male participants. Chairs, sticks, and other imprompts weapons were receip used, and several broken hesds and brained Dodies bear witness to be the word of it, for one man named John Smitz, received a fightful from a large clasp fairie, in the abdom, and fell to the ground in a sense-less and ancet dying condition. Mersengers were dispatched for the Police, who immediately arrived on the spot, but the assassin had flown, and no one of the combatants remained but the wounded man, who still less in a critical condition. Yesterds's atternoon a warrant was issued by Justice Moore for the apprehension of a man namen Webber, who is believed to be the one who used the knite, but at latest accounts he had not been captured.

A quorum of the gentlemen holding over was found to be present, consisting of Inspectors Carpenter, Orahan, Mosely, Prindiville, Ryder, Nowberry, Taft, Wahl, Wentworth and Wicker.

Some little difference of opinion seemed to exist as to the proper method of procedure in the casa. On motion of Mr. Wentworth. Inspector Prindiville took the Chair; the Secretary then handed to him the following, which was read by him:

T. H. W. Zinmerman, Clerk of the city of Chicago, do hereby certify that John Foreythe, Joseph Waldhauser, David Walsh, Henry Wallar, and J. W. Sheshan, who were dechared to be elected School Inspectors by the Common Council, on the 14th day of March, A. To the Patrons of the Mechanical
Bakery and the Public.

The journeymen Bakers have issued a card in
attempted justication of the course they are pursuing, in which they refer to myself among others,
and call upon me for refutation if I deem thele
statements erroneous.

I find upon review of their allegations that the suling, in which they refer to myself among others, and call upon me for reduction if I deem their statements erroneous.

I find upon review of their allegations that their statement relative to hours required food day's work is not correct.

In the cracker department an excess of ten hours has never been required for a day's pay, and frequently eight and nine hours has sufficed for the day's work.

In the manufacture of loaf Bread it is utterly impersible for man to so control the state of the atmosphere as to limit a day's bread to hours har quired to actually labor with me exemple the monary minutes, but the number of hours the mon are required to actually labor with me exemple to perform their and the bours of neural labor will not provide the men are reduced to the monary and the hours of neural labor will not be day in eight and nine could have not han one day in a week.

The time basis of a day's work on loaf bread is the quantility of flour manufactured per man, and the convenience of the place where it is required to be done, rather than the hours in which it is done, which depends entirely upon the condition of the atmosphere and skill of the men.

It has been the custom to advance the waces of lourneymen in the Spring, since I have been connected with the baking basiness in Chicago. The price for the season was made some weeks ago, and was then accepted as entirely satisfactory, and would have remained so, until some radical change in the cost of living had occurred, but for the interference of a few restless spirits, who were reversatified either with waces or labor. It was for the accomplishment of such purposes that the Baker' Union was organized, as they themselves arow.

The present wages paid journeymen in this city is rully equal to the amount paid in other depart.

From The present wages paid journeymen in this city is mily equal to the amount paid in other departments of labor where yearly employment is farmalabled, viz: \$1.75 for day work, and \$2.00 for night nished, via: \$1.75 for day work, and \$2.00 for night work.

It is not wores, simply, about which the present difference has occurred. The Union demand the right to say who shall be employed and who discharged, and whether any more me or boys shall every the permitted to learn the baking business. And they require all men connected with their organization to cosse work until all are set to work. They thus leave no room for that dustrimination that ought always to be made between skilled and unckilled workmen.

I dain that it is wholly arbitrary and inconsistent with the spirit of democratic institutions to require me to satisfy the whims of two hundred men before I am permitted to engage the services of one man.

men before I may primite to recommend the property of one man.

If, to protect honest industry, such organizations are required in this country, as labor combinations, then the laws under which we live and by which we are supposed to be coverned are atfault, and as by far the largest chare of citizens are laboring men, why not seek redress at the fundamental source, by changing the organic and special lever.? bornin men, where the resist pust ground and special laws? I do not believe there is just ground for establishing the pust combinations, not that the laws are in the just combinations, not that the laws are in the just compressive to laboring men and menhanics. Nearly all who are employers now, were come among the employed, and every man who will use his skill with industry and prudence may be able to employ other's labor if he wills, or bocome lord of the soil on which he lives.

I stand ready to employ sny well disposed man in the Baker's Union or out of it, who asserts that right all men ought to possees, to fix a price upon tier own labor without regard to what others may do or say, and all such shall have all the protection the law affords while in my employ.

NOTICE.

It will be seen that the combination above given results from an entirely RKW CLAIS OF AMUSE-MENTS, such as he never before been attempted by private saterprise, and entails such an enormous expenditure of money, that only the most liberal particusses on render it remuerative. The management will therefore be pardoned for directing the attention to the fact that this MAGNIFICENT FHALANX OF KXHIBITION not only combines an innitely greater degree of novely, variety and cingate within itself than can be found in any other place? of amusement in the world, but also a nearer approach to PERFECTION IN EVENTY DETAIL.
