

SOUTH TOWN.

Assessor Drake Finishes His Work in Excellent Time. And Makes a Generally Satisfactory Assessment.

Comparison Between the Figures of 1878 and 1879.

Why and Where Reductions Were Made--The Heavy Taxpayers.

Assessor Drake turned over the books of the South Town yesterday afternoon to the County Clerk, having succeeded in completing the work earlier than he expected, when the Town Board of Review adjourned sine die. A noticeable improvement is to be observed in the expedition with which the books were prepared...

STRICTLY BUSINESS PRINCIPLES. and to this in great part due the excellent showing thus made in point of expedition. It is a well-known fact, too, that men work harder and better when paid for their labor as it is performed...

THE REAL-ESTATE ASSESSMENTS has been made with a good deal of care in order to place values according to income, and to set near one-third of the full value as possible.

AMONG THE NOTABLE REDUCTIONS is the assessment on the Palmer House. Last year it was \$23,000, but this year it is \$18,000. The Assessor refused to make any reduction on last year's figures, and kept on refusing until the receipt of the following communication...

THE FOLLOWING COMPARATIVE TABLE shows at a glance the difference between the assessments of 1878 and 1879 in the central portion of the city for 1878 and 1879:

Table with 3 columns: 1878, 1879, and Difference. Lists various buildings and their assessed values for both years.

REMEDY FOR STROKE. Chicago, July 12.-Dr. J. H. Foster, "heated to the brain" by a stroke of lightning, administered a medicine to quite a number of persons who have been "struck," and with so great success that I am anxious that a larger number may be benefited by its use than would naturally come under my personal observation.

LABOR.

A Discussion of the Eight-Hour Question.

The Plasterers Will Be Apt to Get Their Increase--Furniture Workers.

EIGHT HOURS. ABOUT A HUNDRED AND FIFTY PERSONS assembled in the West Twelfth Street Turner Hall last evening for the purpose, as was understood, of discussing the merits of the eight-hour system.

Mr. Dunsinger, from the Committee appointed at a previous meeting to wait upon the employers and ascertain whether they would consent to the introduction of the system, reported progress.

Mr. Morgan then took the platform, and announced that he had been to the meeting of the employers and ascertain whether they would consent to the introduction of the system, reported progress.

THE COMPENSATIVE SYSTEM was the chief stumbling-block in the way of the adoption of eight hours as a normal day's work.

Mr. Stutzke moved that telegrams be sent to the furniture-workers in other cities and to the Central Union of Furniture Workers and Labor Union in New York, notifying them of the stand taken by Chicago workmen.

MORE WAGES. The Chicago Section of the Plasterers' Union held a meeting in Maskell Hall, on Desplaines street, last evening, for the purpose of taking action upon the matter of the demand for an increase of wages, and also to listen to the proposition of the "bosses," that they would grant an increase of wages provided the men would have nothing to do with any work in the city except through them (the bosses).

Married Life of a Duke's Daughter. A suit for divorce, which will be decided, both from the nature of the details and the position of the parties, has just been filed in the County Court of Cook County.

SANITARY.

Dr. De Wolf Gets More Volunteers--Their Assignments.

Commissioner Walker Will Do What He Can About Street-Cleaning.

The call of Commissioner De Wolf for twenty-five volunteers to inspect tenement-houses and to report on the sanitary condition during the summer is being responded to by many that he expects to have fifty by Tuesday noon; and he proposes to find work for that number by reducing the size of the districts originally marked out, thus insuring more thorough work, since there will not be so much to do.

"WHAT ARE THEY TO DO?" asked a reporter of Dr. De Wolf. "They are to examine the tenement-houses," replied he, "and to report on the sanitary condition during the summer. They are to be divided into five districts, and each district will have a superintendent, who will see that their suggestions are carried out. Once a week they will report to me the condition of their charge. The tenement-houses all over the city are in good order to-day, but they have to be looked after or they will go down."

"Do you know anything about THE STREETS AND OUTRAGES?" "I have nothing to do with them, and do not hold any office in connection with their condition. They should be under the control of the Health Department. I only act in an advisory way with the Department of Public Works. I have advised them to clean the streets, and I understand more than any man here how to do it."

"Do you intend to ask the Council for more money?" "Yes, for \$12,000." "In that amount of the 25 per cent reduction?" "No, I need the money for scavenger work. The Council should be asked to reduce salaries and the item for Small-Pox Hospital."

"What was this year's appropriation for scavenger work?" "The sum of \$30,000." "Was that all you asked for?" "Yes, but I put in a lump sum for the Department, and the Finance Committee cut it down to \$12,000."

"What is the monthly allowance for scavenger work?" "One thousand six hundred and ninety-one dollars and sixty-six cents." "How much has been expended since Jan 1?" "The sum of \$1,200, which shows a saving of \$1,500 in six months."

"How much have you left of that item?" "Eleven thousand eight hundred and ninety-three dollars and eighty-six cents." "And you need \$12,000 more?" "Yes, I propose to set fifty teams to work. We now have twenty-six."

"No, I want money available in case of an emergency. They are to have yellow fever all over the South, and they will be made here, and I may want to establish a fumigating chamber to disinfect their baggage. I don't know how long it will be necessary for our people. And it is necessary to use disinfectants largely. I saved \$26,500 from the health appropriations for 1877 and 1878, and I intend to use that money placed to my credit now."

HEALTH-OFFICER MERKLEY said the distribution of scavenger teams--two and a-half in the First Ward and one in the fourteenth--is superficially unimportant, but it is a matter of considerable importance. In the First Ward there is no consumption of swill or garbage, and all of it is carried to the city dump. The hotels and restaurants furnish great quantities of the former. The people keep cows and other animals, the refuse of which goes into the streets, and the refuse of their neighbors' tables. So, although the fourteenth Ward has a population of 47,000 people, and the First Ward more than 14,180, the refuse of the First Ward must be removed than the former.

COMMISSIONER WALKER "Anything new about the streets?" said a reporter to Commissioner Walker yesterday afternoon. "Nothing, except that I have given instructions to spend a little more than was proposed to clean the streets, so as to meet the present condition of the city. The streets are in a very bad state, and the refuse is not being removed. I have given orders to the street-cleaning department to clean the streets, and to the scavenger department to remove the refuse. I have also given orders to the health department to disinfect the streets, and to the police department to keep the streets clean."

THE CHICAGO FURNITURE COMPANY desires to inform every person that intends to dispose of any furniture, carpets, or other household goods, that they will buy any lot from \$10 to \$5,000, and will pay for it in cash, or in installments, and will give a receipt for the same. The company is located at 100 West Madison street, and is open from 10 o'clock to 6 o'clock, every day.
