CRUSADE OF DOCTORS

Regular Physicians are After the "Eminent Specialists."

A SWEDISH WHO IS A SUCKER

The Specialist Pulled His Leg for \$25—Then He Saw Through the Scheme—Dr. Todd Will Appeal.

BUTTE, May 5.—The action of the state board of medical examiners at Helena, yesterday, in revoking the license of Dr. William Todd of this city to practice medicine and surgery in the state, is the first victory for the "regulars" in another threatened crusade against the unprofessional doctors and quacks of Butte. The charge against Dr. Todd was "unprofessional and dishonorable conduct," and that he advertised in a manner calculated to deceive. The objectionable advertisement appeared for some time, and until a few days ago, in a Butte morning paper. After relating his qualifications to be a "specialist from Guy's hospital, London, the German universities of Freiburg and Heidelberg, the Hotel Dieu, hospital du Midi, hospital des Veneriens and école des Médecins, Paris, and the cities of Vienna and Berlin," he enumerated a list of "private and special diseases," including nearly all the complaints of mankind. The particular objection to the advertisement, however, was to the closing sentence that a "positive cure in every case is guaranteed." While the regular physicians consider all manner of advertising unprofessional and dishonorable, they declare that a guaranteed cure is not only dishonorable, but that it is a deception and an intentional fraud. They maintain that no doctor can give a positive assurance of a cure as to any disease.

Until Dr. Todd was ordered to appear before the medical board, half a dozen other Butte doctors advertised extensively and guaranteed cures, but within the last few days, their advertisements have been changed to conform with professional ethics. Some new "guaranteed cures," because we take no incurables," some "have better success than other specialists," and others have been "particularly successful" in the treatment of a score of enumerated diseases and invite an inspection of testimonials on file in their offices.

One of the physicians who has been active in the past in the prosecution of unprofessional doctors, said, to-day, that the case of Dr. Todd was a test and that a vigorous war would now be fought against the others and that their change of advertisements would not save them. Dr. Todd's attorney says that an appeal will be taken to the district court, where, he says, the action of the medical board would be reversed. Dr. Todd is one of the oldest physicians in Butte, having practiced here for many years. He discontinued his advertisement about a week ago.

In connection with the movement against the unprofessional doctors, the experience of Asaria Taivola, the well-known Swede, as related by him to a reporter of the STANDARD, is somewhat interesting.

"I was a sucker," said he in choice Ole Olson dialect, and then proceeded with a long tale about having been taken in by one of the specialists. According to his story, Taivola had been slightly under the weather, but was far from being sick. However, he saw the specialist's advertisement and visited him and, without making any examination, the doctor told him he was a very sick man, but could be cured for \$25. Taivola was scared but he had only \$25 with him and wanted to know if the cure couldn't be started on a \$5 deposit. The doctor said it could and the \$5 changed ownership. Taivola was then informed that the \$5 would go for the consultation and that he would have to put up \$20 before any medicine would be given. He left the doctor's office to think it over and was followed by a young man who entered into conversation with him telling him that he, too, was under the specialist's treatment and was being cured at a marvellous rate. The man praised the skill of the doctor and succeeded in convincing Taivola that he had better continue the cure, so he soon returned with the \$20 for which he got a bottle of medicine. He took the stuff according to directions and when it was all used up, "he felt pretty good, but not all well," so he went back to the doctor for more medicine.

"He then told me he costs me hundred dollars more for cure, then any know any was a sucker," continued Taivola, in relating his experience and then advised patient came in and praised the doctor's great ability and told Taivola how much he had been benefited by the treatment.

"A pretty heavy sucker, but not so boggy, as I am now," and he got by to leave, whereupon the doctor suggested the money be paid on the monthly installment plan, but Taivola could not see it and made his way to the newspaper office to "get a paper for paper." He is employed as a tailor in Connell's.

BUT FEW REGISTERED.

Chinese in Butte Have Not Complied With the Law.

BUTTE, May 5.—The Chinese of this city are doing a little boycotting on their own hook. They are boycotting the Geary registry law. At least, that is what the Six Companies are doing. Louie, their representative in this city, is using his influence against registration, and most of the 300 Chinamen in this city are following his advice. In fact, most of the Chinamen are apparently under the influence of this company.

This was the last day for registration under the Geary law. The number registered has not nearly reached 100. Those who have registered are mainly those who did not reach this country through the Six Companies. Still there are some who have risked incurring the displeasure of the great Chinese monopoly by stealing in on Major Almon in the evening and registering, while imposing on the major the necessity for secrecy.

It is thought the time allotted for registering may be extended. So far as Butte is concerned, however, there has been ample time for all the Chinamen to register who are disposed to do so. The situation at the time of closing the books at the registry office to-night is that, if the Geary law is put into effect, the Chinese question in Butte is practically solved. The time for arrests has been extended to May 10, and the registry officer expects that a further notification will be received, either extending the time for registration or delaying further the time when arrests under the law can be made.

The process of registration as carried on in the office this afternoon was necessarily slow. Full answers are required to a great many questions, and it is a difficult and slow matter to get satisfactory answers from Chinamen. Full descriptions must be given, with height, weight, occupation, length of time in the country, point of entry, etc. Most of the Chinamen registered have been in the country 11 years or more. There are also written down distinguishing marks, such as scars, so that the Chinamen registering can be identified readily, and no one else can be substituted under the same name.

MINSTRELSY REDEEMED.

The Georgia People Are the Real Staff—A Good Show.

BUTTE, May 5.—The Georgia minstrelsy to-night redeemed the reputation of minstrelsy in Butte, and gave one of the best and most varied performances of its kind seen at Maguire's this season. Since its last appearance here, the company has been greatly improved, and nearly every man on the stage was a good performer. The audience was well entertained, and several jokes cracked at the expense of the late and lamented Elks minstrelsy were received with uproarious applause and laughter. For instance, Mr. Crosby, one of the end men, thought the *Inter Mountain* editor was fond of game because he has had roast Elk for two days, and concluded that it was a "Dwyer" necessity. Billy Kersands also touched a responsive chord when he appeared in female attire and told the audience that he had made a mash on big Charley Lane, and that the latter had promised to manage another Elk minstrelsy company. The performance was good throughout, without waits or drags, and the house was crowded. A matinee will be given tomorrow and the last performance in the evening.

MARCHING ORDERS.

Local Officers of the Salvation Army.

Transferred to Another Field.

BUTTE, May 5.—This evening Captain Ramsdell and Lieutenant Unger bade goodbye to their comrades in the Salvation Army of this city. They have been in charge of the local army for seven months and have done most efficient work, the army being in better condition at the present time than ever before. The officers expressed deep regret at leaving Butte. They hoped that some persons had been benefited by their mission. A farewell coffee supper was given at the barracks this evening. On next Sunday evening the officers will hold their last meeting at the barracks No. 22 East Park street. A collection will be taken at the door to be used as car fare in taking Captain Ramsdell and Lieutenant Unger away from Butte.

It is an Ill Wind That Blows No One Some Good.

Firms of our city that buy close give their orders direct to the manufacturers six to eight months in advance. While this is a great advantage in way of prices, (no middlemen's profits) it also has the disadvantages of one's liability to buy too largely. Such is the case with the well-known hat and furnishings house of Wisnom's, 41 East Park. They are stocked to overflowing and will offer it this entire month at actual manufacturer's prices. This is possibly the lowest prices ever quoted in Butte even at auction sale. Everything in hats, underwear, hosiery, neckwear, gloves, etc., worn by men is in their stock of best spring novelties, and the price a profitless one to them on each article for the entire month. Give them a call.

Is it silver?

Do you wish to procure some silverware? And do you want it cheap? We have a way by which you can get it for nothing. For the next month we will discount all your purchases in our store 10 per cent, and give you coupon tickets to represent this discount. When you shall have enough tickets you may exchange them with us for silverware, taking knives, forks, spoons, sugar bowls, butter dishes and knives, etc., etc. All you will have to do is to purchase your dry goods of Courtenay, Case & Gravelle Co. Your silverware will cost you nothing. The goods are on exhibit in our store, the prices are marked on each piece so that you will know how many goods you will have to purchase to secure discount enough to procure any of them. THEY WILL NOT RESIGN

The Republican Aldermen Have Declined to Stay.

SOME POINTS AT ISSUE

Mayor Dugan Acted Under the Rules and Was Sustained—How the Committee Stand—Republicans Fared Well.

BUTTE, May 5.—Mayor Dugan's office hours are from 10 to 12 in the morning and from 2 to 5 in the afternoon. This is under the ordinance requiring five hours attention to municipal affairs daily. The mayor was in his office as usual to-day, and he received a good many visitors and communications of one kind and another, but he didn't receive any more resignations. The other republicans are expressing themselves as going to stay in the council, and they hope that there will be no further trouble. One of the republican aldermen said to a STANDARD reporter to-day:

"I think we were certainly in the right in this matter. But we were knocked out and it was our own fault. Had our own forces stuck together, we could have dictated a compromise to suit ourselves. But there was division in our own ranks; we were beaten, and that ends it."

One of the other republican aldermen said that they would still be able to get the letter of Mayor Dugan if Alderman Pascoe would only withdraw his resignation. He said, too, that all bonds that might be sold under the circumstances would be illegal. It cannot be seen how this makes any difference. The officers appointed Wednesday night have taken their seats without opposition or protest on the part of the old officers. There is no contest thus far and no indications that there will be any.

Another republican alderman admitted that Dugan might be right or might be wrong in voting to confirm his own appointments. But he insisted that he was surely wrong in ruling his decision sustained when the vote on the appeal was a tie. It is easily shown that the alderman is wrong in this point. Section 32 of the rules and order of business of the council of Butte, Mont., prepared and adopted a year ago at the suggestion of ex-Mayor Martin, says:

"These rules may be amended or repealed by a majority of all the members of the council, or they may be suspended by a two-thirds vote, and Board's Rules of Order shall govern in all cases not herein provided for."

This leaves the matter to Robert's Rules of Order, section 14 of which says:

"If there is a tie vote, the decision of the chair is sustained."

Mayor Dugan has instructed Health Officer Gunn to proceed with his office as though reappointed. Inasmuch as the council has twice refused to confirm the appointment of Dr. Haviland, it may be that Dr. Gunn will be permitted to retain the office.

It is likely that a poundmaster will be appointed at the next council meeting. A poundmaster has long been needed in Butte, but apparently the office has never been very successfully conducted. A pull is being made in behalf of Roland Creech for this position. Mr. Creech being an old cowboy and an expert in the art of roping refractory cattle.

A peculiar mistake has arisen in the appointment of one of the police officers. Both John Nichol and John Nichols were applicants for a position on the force. One of them was appointed, just which one does not seem clear. The next day both went down and qualified. One of them was put to work, but the other one claims he was legally appointed.

An examination of the list of committees shows that the republicans certainly have the best of it. They have the chairmanship of the ways and means committee, the street and alley committee, the public building committee, the fire committee, and the printing committee, all important committees. They also have the judiciary committee. City Attorney Cotter being chairman, and they have a majority of the committee without Cotter.

Wet Weather Goods at Special Prices. Some Styles Closing at Half Price.

Trunks and Valises.

Will Cape price wonders never cease? For weeks past we've been doing by far the largest women's cape business of this city. Even some of the larger manufacturers realize this. A little more than a week ago we received from one large dealer a sample line of Capes, wishing us to wire at what price we could use the entire lot. We telegraphed that we could use the lot at a very low price and if satisfactory to express them. Contrary to expectations one-half came yesterday. We place them on sale

Friday and Saturday Only, and at a price

Several Dollars Less than we could have purchased them Thirty days ago, namely,

\$6.90.

They are made of Broadcloth, trimmed with braid and ribbon. Cut very full, with cape on yoke, pinked both edges. On sale Friday and Saturday at the above price only.

Wet Weather Goods.

We have been selling a large lot of those silk Macintoshes that we advertised a few days ago. The price was \$20, to close only \$10 each. A few more only remain. Gossamers from \$1.50 and upwards. Umbrellas from 75c and upwards.
