

**LOCAL NEWS.**

From the Daily Herald of May 13.  
From Minnesota.

Henry Pflaume, an old time Montanian who has been spending the past winter in Minnesota, arrived home a few days ago via the Missouri river, bringing with him six gentlemen from his old home, in Sibley county. Henry also brought along 100 apple trees and 100 grape vines and as many gooseberry bushes, all of the hardy kind, which he is confident will grow and bear fruit just as well in Montana as in Minnesota. Mr. Pflaume says that St. Paul is growing rapidly and fast becoming one of the principal cities of the Northwest. The largest grain elevator in the country is now being constructed in that city.

**Enlarged and Improved.**

The Yankton Press and Dakotian comes to us enlarged and greatly improved typographically, having come out in an entire new dress. The Press and Dakotian is an excellent newspaper, and we are pleased to note such evidences of its prosperity. We wish it continued success and long life.

**Terminus Postoffice.**

Persons having correspondents at the end of the railroad must direct their letters to Terminus Postoffice, and not to Red Rock. The latter postoffice (Shineberger's) is 22 miles this side.

**Silver and Copper Ores Wanted.**

We call the attention of miners and mine owners to the advertisement of Mr. A. M. Esler, of Wickes. Silver ores, when assaying as low as fifty ounces per ton, and containing a high per cent. of lead, are desirable. Cash paid in full when the ore is assayed.

**Another Cattle Purchase.**

Messrs. R. S. Price & Co., the Iowa capitalists, referred to before in our columns, purchased on Monday last J. G. Sarter's band of cattle, numbering about 1200 head. The price paid, we learn, was \$18 per head. Messrs. Price & Co. have now about 4,000 head of cattle which they will soon drive to the Judith country, where they will select a range, locate a ranch, build houses and make all other necessary arrangements for successful stock growing.

**Fruit Culture.**

Judging by the quantity of fruit trees purchased this season by those living in and around Helena, and crediting the rest of the Territory with a similar impulse, we ought soon to be more than self-supporting upon the present basis of population. Early experiments in this vicinity generally proved failures, and those who are now repeating the attempt are not generally sanguine of success. It is generally considered that our altitude is against us; that our climate is both too dry and too cold. Colder countries than ours and of greater altitudes have made fruits grow successfully, and why may not we? The lack of moisture at certain seasons we can certainly supply by irrigation. If our fruit-loving citizens who are so ready to invest in fruit trees will follow up their investment with careful and intelligent treatment, keeping back the trees from too rapid growth, with some protection from untimely frosts in summer and equally untimely mild spells in winter, we are confident that a moderate degree of success may be attained. It is not time yet for our fruit dealers to lessen their orders. This rush into fruit culture is an indication of a craving rather than a gauge of expected success. Canned fruits are good in their way, but they do not supply the place of the natural fruit juice, which is not merely a luxury but a sanitary necessity.

**SHEEP.**

**A Montanian Purchasing Fine Merinos.**

[Otter Creek (Vermont) News.]  
At Mr. E. N. Bissell's, President of the Vermont Sheep Association, we met Mr. C. Edwards, of Montana, who was in company with V. Rich, the great breeder of Pauley sheep, then on their way to Mr. C. F. Church's, Whiting, to buy Merino bucks for Montana. Mr. Edwards was in search of good sheep and had a very intelligent idea of sheep breeding, compared with many men who come to Vermont merely for speculation. Mr. Rich showed him a number of the finest flocks in Vermont, and while he concluded that Montana farmers could not afford to buy the highest priced bucks to improve their flocks, he did conclude to buy some of the promising young bucks of the country. He purchased of C. F. Church, Whiting. Mr. Church is one of the best sheep breeders, and has sold to many leading sheep buyers, also of Allen Ketcham, Whiting whose flock is one of the best registered in the State. He will buy some 200 bucks, most of which are registered.

Mr. Edwards is the first man from Montana who has come direct to headquarters for Merino sheep, and as he is a frank, outspoken man, we expect through him to see a large trade spring up direct between Vermont and Montana. He wanted sheep to grow wool, not grease, gum and tar, and hence he purchased bucks with long, dense wool. If there is anything in favor of a man who goes to the best breeders when he strikes a country, Mr. Edwards is entitled to it, as we first heard of him at F. H. Farrington's, Brandon, the leading breeder of Rutland county, and first saw him with V. Rich, of Richville, Addison county.

Choice Onion Sets just received at H. M. PARCHEN & CO.'S.

From the Daily Herald of May 14.

**OUR BENTON LETTER.**

The Yogo Mines—Adjournment of Court—Judge Wade the Coming Man—The Steamer Far West.

FORT BENTON, May 11 1880.

To the Editor of the Herald:  
The news from the new mines are very encouraging, and parties are flocking there in large numbers. Owing to the advantageous position of Benton in regard to freight, it must continue the place of supply for Yogo and surrounding camps. Much interest is being taken in Benton by outsiders. The probable location of two banks here has increased the interest and the idea is often advanced that it is the best place in the Territory for investments. Among the different kinds of business which are said to promise good returns are a first-class hotel, lumber business, flour mill, furniture store, boot and shoe store, dry goods store and etc. A good photographer would thrive as would one or two more physicians. Carpenters, and masons are also in much demand.

The County Court adjourned to-day. The report of the Grand Jury upon County affairs was not read, but it is likely to be a white-washing on account of politics. It is reported that Dr. Turner has been indicted and also that the girl's father has been arrested for incest, and charges of blackmail are made against some parties in official station, but it is better to say little of these matters until it is brought before a jury and decided.

Judge Wade expects to leave on the next boat. His merits as a coming man for the nomination for delegate are being favorably discussed. The Far West is expected to reach here Friday, and the boating season seems fairly open.

From the Daily Herald of May 15.

**The Alta Montana Company.**

All departments are running. The smelter, under the management of Walter L. Hoyt, E. M., is turning out 8,000 lbs. bullion per day—value about \$550 per ton—no matte, chloridizing in Bruckner Cylinder 90 96 per cent. Tailings run from two to four ounces.

The entire face of the Williams tunnel at the Alta mine is in ore, and they do not yet know how much wider the vein may prove. We understand that everything is now working satisfactorily, and that the new management is competent and efficient. Mr. Wickes will shortly leave for the East, having entire confidence in the future that is in store for the company. He has now been here a little more than a year, giving all his time and attention to the Alta Montana Company. He may well be gratified at the results of his year's stay in the Territory, for upon his arrival here the old Montana Company was largely in debt, under embarrassment and in distress. It was reorganized under the name of the "Alta Montana Company," all indebtedness paid, works enlarged and improved, three additional mines purchased at a cost of \$80,000, and the whole property, which then had a nominal value of \$200,000, has now a selling value of \$1,250,000.

**Lieut. Doane's Arctic Expedition.**

The announcement in the HERALD yesterday of the detail made for two soldiers of the 2d cavalry, to report to Lieut. Doane in Washington City, who is under orders for an expedition to the Arctic seas, will please the many friends of this gallant officer in Montana that his soldierly qualities and efficient services have met with a merited recognition by the War Department. If the service is for duty on board of the U. S. revenue cutter, Thomas Corneir, now anchored in the harbor of San Francisco ready to sail in search of the Jeannette and missing whalers, no more efficient person could have been selected than this distinguished cavalry officer. If he should prove as expert in describing the top-gallant of the Arctic explorer as he is in capturing the top-knot of a hostile savage, there will be a short search and a quick voyage. It will be seen also that Lieut. Doane has selected two efficient soldiers of the 2d cavalry, Sergeant Starr and private Benson, to accompany him. One of these soldiers is personally known to us, Sergeant Starr of company F, who if it should fall to his lot to have a tussle with the polar bear or Arctic seal, we can safely say that, judging from his throw of the diamond hitch and the manner he used to sinch up a government mule with a two-story pack, he will prove quite as expert at one as the other.

**Remarkable.**

John Hunt, of Providence, R. I., found himself seized with a general dropsy. His body swelled to an enormous size; he could not lie down, and death seemed inevitable. His kidneys were also badly affected. The services of a renowned physician were secured, and a prescription was made after a thorough examination. Mr. Hunt began to improve at once, and after a time was restored to perfect health. The family used the medicine in similar doses with the same results. They named it HUNT'S REMEDY, the Great Kidney and Liver Medicine, and it is now sold by all druggists. Trial size, 75 cents.

**Decay of the Teeth**

Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth, while they corrode the enamel. The timely use of that delicate aromatic tooth-wash, Fragrant SOZODONT, will speedily arrest the progress of decay, harden the gums, and impart a delightful fragrance to the breath. It removes those ravages which people sustain in their teeth from the use of sweet and acid articles.

**Wanted.**

A young man from the East, with some capital and able to command more, desires a situation as sheep herder, or employment on a sheep ranch, where he will have an opportunity to learn the business. He would like to purchase a certain interest in the flock of sheep, or be allowed to buy a certain number of ewes and put into the flock. The best references given. Address "P." care HERALD office.

**New Superintendent of the Bonanza Chief Gold Mining Company.**

Charles E. Stevens, late Assistant Metallurgist at the Alta Montana Company, has been appointed by the Board of Directors to the position of Superintendent of the Bonanza Chief Gold Mining Company. He has already entered upon his duties and is in charge of the mine and mill. We think the company have secured in Mr. Stevens a valuable and efficient manager, who will watch closely the interests of the stockholders and secure to them the best results in their mining and operations. We understand the mine is showing large quantities of ore, and the plates in the mill, since it started after the late "clean up," are coating very nicely and evenly.

**Personal.**

—J. F. Wilson, owner of a valuable silver mine in Ten Mile District, has been stopping in the city for several days past.

—Mrs. Marshal Botkin left yesterday for Milwaukee, accompanied by her children, where she will probably remain during the summer months with her husband.

—Maurice Sands, who for some months past has been in charge of the dry goods house of Sands Bros., at Butte, has returned to Helena.

—Mr. J. C. Kennedy, of Omaha, son of S. H. Kennedy, proprietor and manufacturer of the celebrated "special dip" for sheep, arrived in Helena on the overland last evening. He will assist his father in practically introducing and testing this special dip, and will remain in the Territory during the summer.

—Commodore T. C. Power arrived from the States last night. He will remain at headquarters (Helena) during the balance of the season. It will be a pleasure as well as a surprise to his many friends in Montana to know that his health is so much improved that he is looking fresher and better than he has for some ten years or more.

—We were pleased to receive a call yesterday from Mr. G. D. Willett, recently of Chillicothe, Missouri, who arrived on the overland a few days since. Mr. Willett is special correspondent of the Toledo Blade, Fayette Record and other standard newspapers. He is a young man of pleasing address and is fortified by excellent credentials as a gentleman of integrity and capacity, and we are pleased to know that he comes to Montana with the design of making this his permanent place of residence.

**BREVETTES.**

—A band of 1200 sheep is offered for sale. See local advertisement.

—We are pleased to chronicle the marriage of Hon. Jos. P. Woolman, Territorial Auditor of Montana, to Mrs. S. E. Glendinen, which happy event took place last evening at the residence of the bride's brother-in-law, John Kinna, the well known hardware merchant. The HERALD joins with the many friends of the bride and groom in wishing them much happiness.

—Hon. T. E. Collins is the recipient of the following handsome, though deserved compliment, from the grand jury of Meager county. "It is the unanimous wish of the grand jury to publicly express our sincere regrets at the loss which our county sustains in parting with a most faithful, efficient and trusty officer, and an honest and upright citizen. Our people will greatly miss him, both as an officer and as a citizen. He has endeared himself to all by the purity of his life and by his well directed efforts in promoting the peace, good order, and general prosperity of our county, and while thus loth to part with one of our foremost citizens we can but wish every success in his new field of labor."

**A Losing Joke.**

A prominent physician of Pittsburgh said jokingly to a lady patient who was complaining of her continued ill health, and of his inability to cure her, "try Hop Bitters." The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient.

**REMOVAL.**

Miss O'Connell gives notice to the public that she has bought out Mrs. Glendinen, and removed her Millinery store to the room recently occupied by Mrs. Glendinen, one door below the HERALD office. In addition to the full line of millinery goods heretofore kept by Miss O'Connell, she has now a good assortment of fancy goods, and patterns of every description. Call at the new store.

**RALEIGH & CLARK'S**

are the sole Agents in Helena for the celebrated "Foster" Kid Gloves, unquestionably the best glove manufactured. In order to make room for large invoices of them, we are now closing out a splendid REAL Kid Glove at 75 cents, each pair fully warranted. This is fifty per cent. less than common sheepskin goods can be purchased at other establishments, and is undoubtedly the greatest bargain of the season. We also offer a large assortment of the Genuine Alexandre, each pair branded "Hoyen," which we GUARANTEE to sell 25 per cent. less, at all times, than the same glove can be obtained elsewhere. Call soon to secure sizes and desirable colors. Just received, an extensive line of seasonable Dress Goods, in cheap and medium qualities, new carpets, etc., etc.

A. T. Stewart & Co.'s ALEXANDRE KID GLOVES advertised by us at \$1 25, HAVE the well known trade-mark A. T. S. & CO., the same as those offered by other houses at \$1 75. We do NOT keep the 75 cent sheepskin imitation of that Well known glove.
