LOCALNEWS

Mines Near Helena.

Mr. R. B. Wallace returned to Butte last evening after a week's trip to Helena, Marysville and Bald Butte, says the Inter Mountain. The object of his visit was to make a mill test of the Sterling mine at Columbia, together with leading christian Bald Butte. Some English capitalists had secured a bond on the mine and the sale would have been made undoubtedly if it attending the Twenty-seventh International had not been for the passage of the alien | Convention of the Y. M. C. A., will stop in law. Since that it has not been known exactly what would become of the deal, but the English parties desired Mr. Wallace to go over and make a mill test, which he has just done. Mr. Wallace took a look at the Drum Lummon, where 120 stamps are continually dropping. He says the mill comes the nearest to perfection of anything he has ever seen. The Gloster and Empire are running full, and the whole country over there is prosperous. Mr. Wallace thinks the alien law will prove somewhat of a drawback to mining operations this year and is of the opinion that a number of sales have been hindered by it. He considers the mining reputation Montana too firmly established, however, to be long retarded by any measure of this

Improvements on South Rodney.

John Steinmetz has purchased of Herman Richter one-half of his valuable block on South Rodney, opposite the residence of Ignace Miller, and for many years owned by John T. Murphy. Consideration \$2,500. The unsightly old log corrals and stables will be removed and upon this beautiful site will be erected immediately an elegant brick house. Mr. Richter, who reserves one-half of the block, will also build this spring a handsome and stylish brick residence. Both houses will be two stories. with all the modern improvements, and of

the best style of architecture.

A little further up on South Rodney the fine houses of James M. Ryan, L. F. La Croix and Joseph Cox are rapidly approaching completion and will be ready for occupancy within thirty days.

A contract has been let for grading a portion of the street and during the summer the city will probably finish up a job that has been so long neglected. Rodney is the longest street in the city and when graded in accordance with the survey will make one of the best and most attractive drives

An Editor in Trouble. Bozeman Chronicle.

Edward L. Hallenbeck, who since May 9th has been engaged on the Livingston Enterprise as editorial writer, on Saturday White for \$60. Hallenbeck then proceeded to "blow in" the money, and had made preparations to leave town, when he was arrested by Sheriff Templeton. The prisoner waived examination before Wm. H. Redfield, justice of the peace, and was committed to await the action of the Park county grand jury. Hallenbeck is about 30 years of age, and is said to be very highly connected in the East. Since coming to Montana his career has been a checkered one, and not altogether exem-He is a skilled penman, highly educated and a rapid stenographer. The only strange thing about his latest adventure is the fact that he managed the matter in such a bungling way and ran directly into the arms of the law. The sheriff keeping until the grand jury meets.

Bridge the Cuts.

To the Editor of the HERALD: I notice in the morning Independent ar article in regard to the different railroads making deep cuts across one of our principal county roads to the valley in the vicinity of the gas works, and making said roads perfectly impassable. Mr. "Tax Payer" is right. The County Commissioners should take the matter in hand imme diately. If they have not the power, let Capt. Smith, our Street Commissioner, attend to it. I understand Col. Broadwater has returned, who represents the Montana Central. I think if he were called upon by the proper city officials he would willingly bridge their portion, as I understand Mr. Hill prefers bridging roads where it is possible, and I have no doubt but the Northern Pacific would do the same. Each of the three cuts will be about seventeen CITIZEN.

When the blood is loaded with impurities, the whole system becomes disordered. This condition of things cannot last long without serious results. In such cases a Ayer's Sarsaparilla. It never fails, and has

Zimmerman's Body Found.

Says the Sun River Sun: "Tuesday evening Tommy Lee found the body of Zimmerman floating in the Missouri river, hear the first cabin below Dave Wilson's ranch. A courier was sent to Gorham for the drowned man's brother to come and identify the body. He started immediately, accompanied by Jacob Sieben. The remains were taken to Gorham yesterday.

A Short Spur.

The HERALD learns that the Helena & Red Mountain branch of the Northern Pacific will next month be extended from Rimini southwest about one and one-half miles. The extension will be in the nature of a spur line, the intention being to make close connection with the wagon hauls from several of the principal ore producing mines.

Contract Let.

The contract for the construction of the new St. Peter's Hospital has been let to J. J. Palmer, the builder of our handsome court house. The foundations for the new building are already laid and work will be commenced at once on the superstructure. The cost of the building, with furniture, will be in the neighborhood of \$20,000.

Clear the Way

Without the loss of time, when the intestinal canal is blocked up by reason of constipation chronic or temporary. It should be borne in mind that this ailment is prone to become lasting and obstinate, and breed other and worse complaints. Hostetter's Stomach Bitters is the precise remedy to remove the obstruction effectually, but without drenching or weakening the blockaded bowels, a consequence always to be blockaded bowels, a consequence always to be apprehended from the use of violent laxatives, which are among the most pernicious of the cheap nostrums swallowed by the credulous and misinformed. The fast of experience, and of the medical fraternity, sanctions the claims of this standard aperient. Not only as a source of relief and permanent regularity to the bowels, liver and stomach, but as a means of remedying and preventing kidney and bladder troubles, and fever and ague, it is without a peer.

DISTINGUISHED GUESTS. A Delegation of Prominent Business Men and Prominent Christian Workers to Visit Helena

On Wednesday

Next. Prominent business men from different parts of the United States and British workers who have, during the past two weeks, been in San Francisco and vicinity Helena on their return trip. The names of all have not yet been learned. The fol-

lowing are some of those who are expected: Lucius C. Warner, New York; Gilbert Colgate, Orange, N. J.; S. E. Adams, Buffalo, N. Y.; Geo. A. Hall, Brooklyn, N. Y.; R. C. Morse, New York; H. F. Williams, St. Paul; David McConaughy, Philadelphia. Those who have attended the convention

have one and all pronounced themselves more than pleased with the treatment and welcome received from the business men and christian workers everywhere they have stopped west of the Rockies. The San Francisco papers tell of elaborate entertainment extended those in attendance at proached, expressed themselves as being desirous of showing those who stop off here that Helena, with its many attractions and advantages for business, has also a welcome

Swapping Editors.

Butte Mining Journal.

It is announced that J. S. Dickerson, at present editor of the Helena Independent, will sever his connection with that journal and assume a like position on the Butte Miner, beginning Sunday next.

[Helena Independent.] In another column we report for what it appears to be worth, an extract from a Butte paper regarding an editorial change in the Butte Miner. As it remains uncon-tradicted in a subsequent issue of the Miner, it is probably correct.

The change above announced was re ferred to in these columns some weeks ago as probable to happen. There are those who see in the change simply the outbidding of one newspaper owner by another. The Miner management, as we un-derstand, agrees to pay for services that which the *Independent* will not. Mr. Clark, we are told, allowed the Zeigenfuss control a latitude of expenditure which left the proprietor many thousands out. But the Miner millionaire has since had a rest, and ambitious in the political world, he cares little for the disbursement of many thousands more. Mr. Hauser has indulged in a season of newspaper luxury, and though a millionaire also, he is mortal last presented a check to Frank White, of and for a time wants a rest. Another last presented a check to Frank White, of Livingston, for \$78, signed by Geo. Wright, editor of the Enterprise, No attempt was Butte and the local organ, and it happens made apparently to imitate Mr. Wright's as naturally now as before. Mr. Dickerson is as high up in Democracy as is Mr. White for \$60. Hallenbeck then proceeded. Searles. Both are experienced in the newspaper harness. If Mr. Clark can coax Dickerson from Helena, we hope Mr. Hauser can coax Searles from Butte.

Matrimonial.

Last evening Judge English performed the marriage ceremony for a happy young couple, who have for some time been a devoted pair. We refer to Mr. Lambert Moli-Warren street, and was witnessed by a few intimate friends of the contracting parties. The principals to the happy event are well known. Mr. Molinelli is the talented city editor of our esteemed cotemporary, the has made numerous friends since his arrival in our city. The bride is a charming young lady, highly esteemed for many good qualities by a large circle of friends. Many presents from friends of the bride and groom attested the esteem in which they are held, and to-day each is receiving hearty congratulations from those not present at the wedding. The HERALD expresses its best wishes to the new couple

for a long and happy life. The Dewar Estate.

The Public Aministrator, Henry C. Yaeger, has applied to the Probate Judge for letters of administration on the estate of Wm. Dewar, the partner of Joseph Davis in landed possessions in Helena. The story of Dewar's sudden disappearance has been too often told in print to need repetition. Suffice it to say that he left here in 1883 and was last heard of at New York in January, 1884. Since that time no tidings have been received of him and he is long supposed to have been dead. His relations in Canada have taken steps to suc ceed to the estate and their attorney, W B. Dickson, of Goderich, Ontario, is now in Helena looking after their interests.

Judge Clements will probably grant the application and issue letters of administration, as he thinks there is good grounds for

\$500 Worth of Squirrel Skins.

The Bozeman Courier says that Judge Carson received on Sunday, from the Territorial Auditor, warrants to the amount of \$568.95 in payment of claims of parties who have furnished the Territory satisfactory evidence that they have been waging a retentless warfare upon these pests of

the farming community. The amount is in payment for 11,089 squirrel pelts, 115 prairie dogs and 1 mountain lion. The cash thus paid out of the Territorial treasuary may seem quite large, but it is a small pittance compared to the vast sums of money which are yearly saved to the people at large by the destruc-tion of the "pesky critters."

James W. Brown, a young man 23 years of age, died at his mother's ranch, on the Dearborn, on the 4th inst., his disease being pneumonia. His remains were interred at the Dearborn cemetery. The deceased was a brother-in-law of Chas. V. Walker, of the Dearborn, and was the only stay and support of his widowed mother:

-Miner: On Friday, July 1st, the members of the American Institute of Mining Engineers will start from Chicago on a trip West, which will, after delays at Denver and Salt Lake, reach Butte on the 12th of July, where the distinguished company contemplate spending four days in investigating the extraordinary mineral resources of this wealthy region. From here they proceed to Helena for one day and thence to the National Park, etc. Mr. C. W. Goodale was notified of this intended visit by a telegram from R. W. Raymond, secretary of the society.

-Billings Gazette: One car load of building stone was shipped last evening, and another will be sent to-day to Helena. This is becoming somewhat of an industry already, and as soon as the stone-sawing machinery is in place it will become a leading enterprise.

a club member, the Bryan medal, worn for the past week by Mr. Barbour, was again awarded him for the best score. leading enterprise.

From the Daily Herald of May 28.

CAVE IN MULLAN TUNNEL. The Timbers Give Way at the West End and the Roof Falls In.

ELLISTON, May 28 .- [Special to the HERALD: Yesterday afternoon between three and four o'clock a large cave occurred in the Mullan tunnel near the west portal. account of the soft and caving character of lenge the Territory. the rock. The strain of the roof upon the wooden supports finally become too great for their strength and yesterday the timbers gave way, letting an enormous mass of rock and earth fall through, covering the track and completely blockading the tunnel. No trains can pass. No. 2 is held at Garrison and others at convenient points awaiting the removal of the obstruction Gangs of men are hard at work this morning on the spot, attacking the blockade and hauling out the earth and rocks in cars. As fast as they get one part removed another cave occurs, adding to the damage and making more work for the excavators. It is thought the convention. The business men of the blockake will be so far removed as to Helena have, as far as they have been ap- allow the passage of trains this afternoon. THE TRAIN STATUS

> is learned at Helena as follows: No. 2, east bound, is held at Garrison awaiting the removal of the obstruction. No. 1, west bound, was detained at Helena last night and still rests at the depot. The Butte train, that left here yesterday afternoon, went as far as Butler, there learning

> The west bound train that arrived last night was turned about and started east this afternoon, taking out mails, express, and passengers. The west bound passengers will lay over here until communica-

tion is again resumed with the west.

LATER FROM ELLISTON. ELLISTON, 2 p. m .- [Special to the HER-ALD.]-Men are still at work endeavoring to clear the track in Mullan tunnel. Where the cave occurred there is a spring in the mountain, and the water from it is the cause of much additional trouble. It is said to be the same place that caved in when the tunnel was building. The magnitude of the work is such that it is out of the question to get through to-day. It is understood the railroad company will make arrangements to-morrow to transfer passengers, mails and express across the range by wagon, and this mode of communication will be kept up daily until the tunnel is

So far there are no fatalities connected with the accident.

The Word Mansion.

WE had the pleasure yesterday of looking through the apartments of Hon. Sam Word's new house, which is fast approaching completion within and without. The grand halls, stair cases and spacious rooms are complete in arrangement and finish. Everything is light and airy, with cheerful and pleasant blending of colors. Cherry, oak, maple, ash, walnut and other varieties nelli and Miss Maggie DeVee. The wedding occurred at the home of the bride, on rangements are apparently perfection. To attempt any detailed description is beyond our purpose, but it is impossible to pass without a brief mention of the pleasure we enjoyed and that awaits every one who say the least, and say it mildly, it presents a pretty strong contrast to the best aboriginal residence in Last Chance gulch twenty five years ago.

The Water Works.

Mr. Woolston having settled the most important of the water works preliminaries, responded to a telegram from his Boston principals and left for Chicago this morning to conclude the purchase and shipment of machinery and material for the Helena plant. The gentleman called at the HERALD office last evening and desired us to say that his work, once commenced, would proceed with the utmost energy, on pumping plant, mains and resercuted with all expedition to completion. Mr. Woolston expects to be absent ten days, and possibly a week more than that. In the mean time certain work has been marked out to be carried forward while he is away, and his superintendent, in advance of his (Woolston's) return, will arrive from New Mexico and take formal charge of operations

One Case of Good Confederate Money Deputy Sheriff Walker yesterday went out to Jefferson and arrested one George Polliet, a painter and former soldier, who has a hearing this afternoon in the Probate Court on the charge of obtaining money under false pretenses. The offense alleged was committed last fall at the Bird Tail house on the Benton road. This house was kept by Jim Lee. One day Polliet was at the har of the establisment, drinking with some other men. As he says, one of them asked him to go to the Mission with him, and Polliet turned to the woman in charge of the house, Lee's wife or mother, and said he would go if he could get a note changed, presenting a \$20 Confederate bill. The woman took the note, gave him some whisky and \$13 in change. When Lee came home he noticed the worthless bill and swore out a warrant for Polliet's arrest. Though the sheriff sent after him then he was not found until a few day ago, when Lee renewed his request to have him arrested.

The Gun Club Shoot.

The Rod & Gun Club held their weekly practice yesterday afternoon. The fine weather brought out a large attendance and contributed to good shooting. Following is the score:

Pleasants10010101111111111111111-16

NORMAN HORSES FOR SALE.

Wishing to change location, we offer our entire band of horses at extremely low prices. The stock can be seen at **Townsend**, **Montana**, and consists of two Percheron-Norman Imported French Draft Stallions: Sherri, 5 years old, dark dapple gray imported in 1883, weighs 1600 pounds; Gene, 4 years old, dark bay, imported in 1883, weighs 1500 pounds. These are first-class horses, sound and without fault or blemish. Pedigree and Consul's certificate furnished. Twenty high grade States' mares, weighing from 12.0 to 1600 pounds, with colt or in foal by above stallions. These were selected for breeding purposes, and are the pick of the best stock farms of Illinois. These mares are all broken, and a few are not in foal and would make first-class draught teams. Fifteen Oregon mares, in foal by "Gene" and "Sherri." Twenty Montana mares, in foal by the Imported Norman Stallions. Thirty head of high grade yearling colts, ranging from one-half to fifteen-sixteenths Norman. Eight four-year-old geldings, one-half and three-quarters Norman, heavy bone, very gentle, but unbroken.

Will also sell two thoroughbred Jersey cows, three wagons, harness, seeder, mower, and ranch privileges, including cabin and corrals, water rights, etc., etc.; 2,000 acres under fence. Will sell any of above stock in lots to suit purchaser. Inspection invited and correspondence solicited. Above stock must be closed out in THIRTY DAYS.
