WEDNESDAY, DECEMBER 9, 1908.

The whole state is thoroughly alarmed at the possibility of a shut-down of the Butte mines in case the federal government should enjoin the Washoe smelter at Anaconda to prevent the destruction of timber in the government reserve by smelter fumes. There is irony in the fact that the Amalgamated company sought to have the reserve extended to embrace the timber which it is now charged with destroying. No haste has been shown by President Roosevelt thus far in dealing with the situation. His action in ordering an investigation was fair and conservative, and as the case is in process of adjudication in the United States court, it is entirely improbable that the government will take the summary action that is feared by the people of Butte. The continued operation of the mines, upon which thousands of toilers are dependent, is much more essential to Montana than the preservation of a few trees that may be endangered by the smelter smoke. The Bitter Root is industrially independent of Butte and Anaconda. All the towns of the state, however, are interdependent in a way, and we desire to see all sections as prosperous and contented as this.

BITTER ROOT VALLEY
AMPLIFIED REPRESENTED

The Bitter Root valley is represented by an excellent fruit exhibit and a number of enthusiastic fruit growers, at the National Apple show, which opened in Spokane Monday. Among those in attendance from Hamilton are J. O. Read, Sid Ward, Miles Romney, Geo. F. Brooks and M. C. Reed, who left for the falls city the first of the week. Residents of other sections of the county are also in attendance. The big show will be a great source of instruction to the fruitgrowers from western Montana. This valley's proudest product is the famous McIntosh Red, but in Spokane it will be subjected to a comparison with the specialties from the fruit valleys of Washington, Idaho and Oregon, which is a severe test of superiority. In the distribution of the prizes, which aggregate \$35,000, Bitter Root apples will probably receive recognition, but the instruction gained by those from this section who are attending the fair will be worth more than the trophies that may be captured.

It Quiets
the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, heals. Ask your doctor about this.

THE SUTTON COMPANY.

The largest house in the history of the Grand greeted the Sutton company at the rise of the curtain on the farce comedy "Just Struck Town." The piece was a laugh from start to finish and kept the audience in an uproar. The different members of the company did excellent work. The specialties were all good. The violin solo by Miss Claire O'Donnell took five encores.—Great Falls Tribune, Monday, Sept. 21.
