**During the past two weeks, Manager** Marsh, of the Lewistown Furniture company has conclusively demonstrated that his prices on furniture are right by landing three big special orders. Several hundred dollars worth of furniture went to the Grass Range hotel which is owned and run by James H. Charters. In addition to this order, the same company also secured the contracts for fitting out the Hopkins rooming house which is to be run by Chester Mack, and the Green block which is to be under the management of Mrs. William Brownfield. The total amount of the three contracts runs into the thousands of dollars.

**As a result of the uncompleted** condition of the streets in the new court house boulevarding district, Mrs. David Hilger last Friday evening suffered an accident which will confine that good lady to her room for weeks, probably months. While crossing Seventh avenue with Mr. Hilger and their little daughter, Christine, about 10 o'clock in the evening, Mrs. Hilger slipped on a stone in the road and threw her ankle out of place. The tendons were torn loose, making an injury a most serious one. Assistance was secured and the injured lady taken to her home a short distance away and is now resting as comfortably as possible under the distressing circumstances.

**Miss Reuckert, the young lady** who came to this city from Dunkirk, New York, to take charge of the department of music in the Fergus County Free High School, only to be stricken with typhoid fever a few days after her arrival, is slowly but surely recovering, according to reports from Miles City where the young lady has been confined to a hospital for nearly two months. **Judge Max Waterman and wife** returned Sunday evening from Fort Benton, where they visited their daughter, Mrs. Minor, for almost a month. Judge Waterman informs the Democrat that the section of country adjacent to Fort Benton is settling up at a marvelous rate this fall. Every train from the east brings from twenty to fifty people who file on homesteads on the bench lands of Chouteau county. Thousands of acres of this land is going under the plow and some phenomenal crops were harvested this year. Oscar Johnson, who is well-known here, having operated the old Lewistown-Benton stage line, had in two hundred acres of flax which threshed out 25 bushels per acre. When it is considered that flax seed is selling around \$1.75 per bushel, it may be seen that Oscar made an excellent thing from his crop. As a result of the rapidly changing conditions with the influx of hundreds of new settlers, old Fort Benton is taking on new life and is destined, in the opinion of Judge Waterman, to experience a steady growth from this time onward.

Carmel and other points of interest in the land of Christ's nativity and work. The charge will be 50 cents for adults and 25 cents for children.

**T. P. Haller, who has been** engaged as director for the concert to be given at the opera house Wednesday evening, Nov. 17, has progressed so far with rehearsals that the concert could be given right now, and with more than a week left for preparation, the concert will certainly be the most finished entertainment of the sort ever given here by local talent. While the Haller orchestra will be heard in several new numbers, the vocal part of the entertainment is going to prove most pleasing. Miss Ruth Waite and Mrs. E. A. Long both have selections that will greatly please and there will be two other features. Following the concert there will be dancing, and this ought to add not a little to the popularity of the entertainment. Judging from the work done at the rehearsals, it seems quite safe to predict that music lovers will have a genuine and pleasant surprise on the evening of Nov. 17.

**Big Rush for Gold.**  
Seattle, Nov. 7.—According to S. H. Ewing, a prominent business man of Nome, who arrived on the steamer Senator today, a general exodus of miners is expected from the Seward peninsula to the new gold field on the Iditarod as soon as cold weather sets in. Navigation on the rivers has already closed, and hundreds of men who are anxious to go to the new diggings are waiting for a heavy fall of snow so that the trails may be broken and the long journey can be made overland.

The reports received at Nome and the other Seward peninsula towns concerning the Iditarod have caused much excitement among the miners, and the stampede promises to eclipse the famous rush to the Klondyke. The fever has spread to Fairbanks and the Tanana district, where many prospectors are pulling up their stakes and heading toward the Iditarod country.
