The World-renowned Wilson Shottle Sewing Machine Has Unlimited Capacity to do all kinds of Family Sowing and Manufacturing,

THE FARMERS'

Is a live Agricultural paper, in the fullest and best sense. In 1865, when it was established, it started out to be this emphatically, and from then until the present time its line of policy has not changed, though it has gradually broadened and despense until new it acknowledges no superior among publications of its class, and competent authorities pronunce it the best of its kind in all the South and West. The Hows Journal makes a specialty class, and compotent authorities pronounce it the best of its kind in all the South and West. The Hown Joranau makes a specialty of the discussion of topics connected with the breeding of fine stock as carried on in Central Kentuckys and the most approved methods of grading up and gradually improving common stock are also treated very fully. All sysmin of general importance and likely to pass into history are carefully chronicled. Market and crop reports very comprehensive, and prepared with the greatest care. The Houn Journal is the stanneh friend of every housest husbandman, and fer this and other reasons every farmer should delight in pushing its circulation. It gives a large amount of choice reading of a rofining and instructive character, prepared with strict regard to the wants of the family circle. Nothing demoralizing finds a place in its pages, and no lottery or similar advertisements will be inserted. It must be evident from all this that the Farmans' Houn Journal is a weekly pager and consists of 16 large pages neatly stitched and trimmed. Price, \$2.00 per year, invariably in advances.
