We hope our neighbor will apply the proper estoratives and recover from his dangerous condition. In a few weeks the people, who by majority of more than 18,000, voted in favor of a new constitution, will ratify the doings of their delegates by a like, or larger majority .-Old things are passing away—the new, if only B. If we understand the meaning of an adverisement in another column-which the readers of the Gazette are also to be permitted to peruse, the acceptances of the Merchants' Insurance Company are not issued by the Company at all, it only pays them when presented at their office. The responsibility of these acceptances is also backed by men here at home, citiz-ns of at least equal respectability and solvency with the Democratic Bankers we have named above, who we have had for currency tinkers the past two years. The public will doubtless think so when they have read over the names appended

Canadian Reciprocity.

In the Canadian House of Assembly on the 8th, a resolution for the extension of the priniples of Reciprocity between the Province and the United States to all articles the produce or nanufacture of either country, was considered in Committee of the Whole. The resolution was advocated by Mr. Conger, who stated the object to be to provide that the same duty should e levied on articles of American manufacture that was levied on articles of American manufacture in the United States. The Hon. Hamilton Merritt asserted that under the present tariff the United States have many advantages, and that the only way in which Canada could have nanufactures would be by at once adopting the American tariff. The resolution was debated by several members, the general feeling being in favor of adopting the U. S. tariff. During the ebate, Attorney General Cavley stated that within a few weeks a change had taken place in the aspect of things at Washington touching the difficulties in the way of friendly intercourse between the two countries, and steps had been taken to bring the subject of Reciprocity before the American Government. He stated that the respondence. Some members thought the tariff too large a subject to be taken up so late in the session, but the motion to consider it was carried on a division. Not much probability of act this species of piracy, if the President is going tion on Reciprocity this session, as the prorogation was to take place on the 10th.

TENNESSEE FREE BANKS .- The last Legislaure passed a law requiring all Free Banks in Tennessee to keep the bonds, deposited by them s security for their circulating notes, at par .-In consequence of the recent decline in the Tennessee bonds at New York, the Comptroller of the State has called upon the Free Banks for

additional deposits of ten per cent. The Free State party in Kansas, in Mass onvention, have resolved with great unanimity to adhere to the Topeka Constitution, and will by no act recognize the authority of the bogus State Government imposed upon Kansas. This is probably the best policy, and the line of conduct which will be likely to embarrass Governor Walker. The conspiracy to make Kansas a Slave State is a failure, and has been abandoned. But the Bogus Territorial Government remains a monument of infamy, bequeathed by the Pierce dynasty and Border Ruffianism to Buchanan's Administration. We shall see how long his Administration will keep it up, and coninue to hold Kansas in bondage.

SHOOTING AFFRAY IN LEXINGTON .- In a quarel between John Clay, a son of the departed statesman, and a horse trainer named Edgar, in Lexington, Ky., on Thursday, the former shot the latter twice with a pistol. One ball entered his mouth, and came out behind the ear. Another ball lodged in his neck. Edgar is reported mortally wounded. Clay immediately left Lexington, and has not been heard from since. The parties have not been on amicable terms for

ome time. The bogus Sontag account of the Kane Arctic Expedition, published in Philadelphia, and denied by the accredited author, proves to have been elaborated from a rough article which he wrote for Harper's Magazine, but rejected by it for imperfect composition. The article was bought of his wife for a song, he being absent in Mexico, and spread over 176 pages of book form by a man of active imagination and great verbal fecundity. It was a gross fraud upon the public, as well as upon Mr. Sontag.

PROGRESS.-The Albany Evening Journal has the following excellent reply to that class of men who are forever lamenting over the de generacy of the times, and sighing for the good old days long gone: "Let any candid reader of the History of the United States since the organ ization of the Government compare the presen with the past, and he will find as much integrity, talent and patriotism among the leading men of to-day, as in any previous era Bearing in mind always that in history the dark shades of men's lives fade out and atrocious acts of Gov-ernment become modified by long familiarity, neither the statesmen nor the public acts o the present day suffer by comparison with those of the past. RAILROAD CONDUCTORS AND RAILROAD PASSENgers .- Judge Parish recently decided, in the Union County Circuit Court, as we learn from the Cairo Times and Delta, that when a person goes aboard of a passenger car without having paid his fare in advance, and the same is denanded by the conductor of the train and a refusal to pay it when so demanded, the conductor is not bound to take him to the next station, but may expel him at once, unless by such expulsion the life or health of such person would be thereby endangered; and that the offer of a bank bill, demanding a return of change, is not a tender of the fare, or offer to pay it.

OUITE A MISTAKE. - The Baltimore Republican tells a story of a young man who fell in love with a young lady residing in one of the residences in Upper Tendom. The lover, fearing a repulse from the head of the family, conducted his courtship in a clandestine manner. The upshot of the matter was, that an elopement occurred and the parties were married. After the marriage the bridegroom proposed that they should return home and procure the father's pardon. Judge, then, of his dismay when, with a trembling voice, she informed him that altho' she possessed the name of the gentleman in question, she was not related to him in the slightest degree, and was employed in his dwelling in the capacity of a seamstress. Thus all his visions of a secured fortune were scattered to the winds; and the scene of recrimination which ensued was terribly out of character for a newly married couple.

DUBUQUE REPUBLICAN .- This paper formerly published by Mr. Flint has been revived under the editorial management and proprietorship of Mr. A. P. Wood. It is a spirited and able paper, worthy the liberal support of the people

of Dubuque.

THE ADMINISTRATION'S VIEW OF MORNOS AFFAIRS .-- The subjoined article from the Washington Union of the 9th inst., is presumed to express the convictions of the President. From the statements of a government official who arrived, direct from Salt Lake City, in Washington on the 8th, and from other information the organ of the administration derives the following conclusions in reference to the condition of affairs in Utah:

1. That the Mormon legion is composed of some five or six thousand indifferently armed men, including a few squadrons of cavalry—about as well drilled and as effective as the ordinary militia of the State.

2. That the Mormons ridicule the idea of the Federal Government sending an armed force to the Targius I to recognize the laws.

4. That the presence of one thousand United States troops in the Territory would secure obedience to the laws, and that no resistance would be made by the Mormons to so large a force.

5. That it is undoubtedly true that there is a serious defection among the Mormons, and that if the disaffected could be protected by United States authorities they would gladly sever their connection with the church and its head. 6. That Salt Lake City bears the outward

DARING ROBBERY AT A HOTEL.-TWENTY DARING ROBBERY AT A HOTEL.—IWESTY THOYSAND DOLLARS IN GOLD COIN.—Between 10 and 11 o'clock on Tuesday night, a Spanish gentleman, named George Basso de la Vega, ap-peared at the office of the Chief of Police, City Hall, and stated to Sergeant Owens, who was at that time on duty, that his room at the Spanish Hotel, No. 43 Walker street, had been entered by means of false keys, his trunk broken open, and \$20,000 in doubloons (gold) and \$500 in silver, stolen therefrom, stating that \$5,000 re-ward would be paid for the recovery of the mobey.

Mr. Basso stated that he arrived a few days ago from New Orleans, and that he suspected

two or three men, who knew he had the above mentioned money—they having come on in the same steamer with him. One of these men he said was very poor, and lie had given him some money to help him along.

The Annual Exhibition of the lower classes takes place on Tuesday evening, 14th. At this commencement the College conters its first degrees of ment of rare workmanship. The design is an ear of corn, half concealed by the shuck surrounding it. The upper part is a spread eagle, on the heart of which is a shield bearing the words, "Buena Vista, Feb. 22 and 23, 1847."

The eyes of the eagle are diamonds. The scabbard is of silver, plated with gold, and ornamented, with solid gold bands and rings. The end of the scabbard is of solid gold, and of unique design. unique design.

The influence of the increased produce of gold since the discovery of California and Australia has been very great in stimulating production, and promoting a world-wide distribution of other articles. On this subject we copy the following from the Manchester Guardian: "It has been estimated that the total amount of gold in use in the world, in 1848, was £600, must be beneficial to the landed interest of Central Iowa and Chicago, but highly injurious to Davenport and the river interest. AN ABOLITION DENOCRAT IN KENTUCKY.—

Mr. A. G. G. Talbot is the Democratic nominee for Congress in the Fourth District of Kentucky. Whatever his views may now be, he was an avowed enancipationist in 1850, and introduced a resolution to that effect into the Legislature, of which he was then a member. He went, indeed, much beyond the emancipationists of Missouri, declaring himself for freedom in every State of the Union. His views were backed up by a strong speech, portions of which the Louis-ville Journal now quotes against him. Mr. Tal-

SECOND DISPATCH.

VOL. 3-NO. 32 Boston, June 17. | The Policy of Guy, Walker in Kansas.

A committee was appointed to call a mass territory to vote, that the Administration had convention in September next to ratify their taken the alarm and given up the idea of driving the white men out of the territory at the point of the bayonet to make room for negro slaves. That policy had been pursued by the last Adminis-tration until it was no longer safe, and it had become evident that if the people of the country had known one-half of the rascality practiced by Pierce, it would have insured Buchanan's de-

er of the Government. This was and is a very flis-ticklish point for the Administration, for there the is little doubt that the Southern politicians consider Mr. Buchanan as pledged to Jersey, Connecticut, Rhode Island and Vermons, the Mayors of Montreal and Baltimore, Senator Mason of Va., Judge Breeze of III., Gov. Peabody, Caleb Cashing, and a crowd of other no tables.

Toronto, June 17.

Toronto, June 17.

And it is equally clear that if ne success to constitute the pledges, every vestige of a democratic party p lation on their side, the complete control of the tetritory, and of sending out Robert J. Walker Governor for the purpose of prevailing on the pro-slavery men to give up their plan of making it a slave State. If Buchanan had failed to recognize the bogus laws he would have had the whole South about his ears. If he sustained them, and thus made Kanasa a slave State, he would be a suited as a slave state, he would be a suited as a slave state, and thus made the same the same than the same tha would have annihilated his whole party at the North. It was necessary, therefore, whilst ap-North. It was necessary, therefore, whilst appearing to side with the South by sustaining the fraudulent Code, to take measures by which Kansas might be made a free State without giving offense to the South. Hence the appointment of Walker as Governor and the proclaimed policy that it is to be made a free State, but a Democratic Free State, with Walker and Stanton for the first United States Soundors.

ton for the first United States Senators on for the first United States Senators.
Since it has become evident that Kansas is to
be free, we do not intend to trouble ourselves
about the distress which Walker and Buchanan
and others will suffer in reconciling the north
to the forfeiture of their pledges to make it a slave State. Their southern task masters will lay the lash on them when they discover the double game that is playing, and we expect to see the blood flow and the welts rise on their backs—but we shall not enjoy the triumph of seeing Kansas made a free State any the less because the Administration have been scared out of their design of forcing slavery there with the military arm of the Government, which is

or sustained there.

There is one difficulty, however, in the way
of Mr. Walker's plan. In sustaining the bogus laws, they have placed the whole power of the Territory in the hands of a small squad of proslavery fanatics, the most of whom have been guilty of gross outrages against the free State men of the Territory. If they should allow themselves to be persuaded to make it a free State, they run the risk of being prosecuted for the crimes they have committed, and they will not have Cato and Lecompte to admit them to bail and allow them to escape. Will the mur-derers of Barber, or those who murdered Phil-lips, or Jones, who cut such fantastic tricks as as Treasurer of State. The Governor has ap-pointed A. T. Stone, of this city, to fill the vasheriff of Douglas county, like to be tried by : Free State judge and jury in order to send Wal ker and St Buchanan of his embarrassment? We feel little tain to be a free State; and when a State, the United States' troops cannot interfere, nor can the infamous judges, put there by Pierce to prevent those who have committed so many crimes from being punished as they deserve. Nor will the federal offices conferred by Mr. Buchanan mon the percentage of the shield them from upon the perpetrators of crime, shield them from the arm of justice when Kansas becomes a State.—St. Louis Democrat.
