

FOR A CHILD

who is "not doing well"—the condition occurs now and then with all children.

Scott's emulsion of cod-liver oil is a food that begins to build you up at once—of course, it don't show at once.

"Not doing well" means that the child is not getting the good of his food. Not today, or this week; it may have been going on for a month; before it begins to show in the child's condition.

You want him to get back to turning his usual food into strength.

You want the food that begins to build, up at once.

We'll send you a little to try, if you like.

A Fiendish Attack.

An attack was lately made on C.F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, or sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at A. G. Luken & Co.'s drug store.

His One Daily Meal.

Dr. George Fordyce, the celebrated anatomist and lecturer on chemistry, used to eat one meal a day and one meal only, but it was a mighty one, washed down with liberal drafts of wine and beer. At 4 o'clock every day he used to enter a certain chophouse and take his seat at a table always reserved for him. A silver tankard containing a quart of strong ale, a full bottle of port and a quarter of a pint of brandy were placed before him immediately.

The moment the waiter announced the doctor's arrival the cook put a pound and a half of rump steak on the fire, and to while away the time until the steak should be properly broiled the waiter brought the doctor some tempting morsels like a broiled chicken or a plate of fish. When he had eaten this, Dr. Fordyce drank half of his brandy and then began on his steak. While eating the steak he drank the tankard of ale and after that the rest of the brandy. The waiter then uncorked the bottle of port, and the doctor proceeded slowly to enjoy it until it was all gone. He spent an hour and a half daily at his one meal and after it returned home to give his lectures on chemistry, which are still quoted as classics of that science. He ate nothing else until the next day, when he returned at the same hour to the same chophouse for the same sort of a meal. Dr. Fordyce lived to be sixty-six years old and kept up his one meal custom to the last.

Why the Joke Fell Flat.

A big, good natured farmer was awaiting the suburban train, accompanied by a handsome Gordon setter. Two sons of Britain stood near him. The dog strayed away from his owner, who was reading a newspaper.

"Hey!" called the farmer. "Come here, Locksmith," and the dog immediately ran to his feet.

One of the Englishmen approached the farmer.

"May I ask," he said, "what you called that dog?"

"Locksmith," said the farmer.

"And why, pray?"

"Because every time I kick him he makes a bolt for the door."

There was a general laugh, in which the Englishman joined.

When he returned to his companion, he remarked:

"Most extraordinary name that man over there calls his dog."

"What?" asked his friend.

"Locksmith," replied the first Briton.

"And why such a name?"

"Because, he says, every time he kicks 'im he bolts for the door."—St. Louis Republic.

The Weight of Ice.

The ice-man and the coal-man are often suspected of giving short weights—maybe oftener suspected than guilty; maybe oftener guilty than suspected. The means of testing the weight of from ten to thirty pounds of ice are not always at hand in the house, but a close estimate of the weight can be reached by multiplying together the length, breadth and thickness of the block in inches and dividing the product by thirty. This will give very closely the weight in pounds. Thus, if a block of ice is 10 by 10 by 9, the product is 900, and this divided by thirty gives thirty pounds as the correct weight. A block 10 by 10 by 6 weighs twenty pounds. This simple method can be easily applied, and it may serve to remove unjust suspicion or to detect short weights.

French Railways.

Railways in France are forbidden to carry persons visibly or notoriously affected by contagious diseases in compartments that are used by the public. In the second place, the daily cleaning and the periodical disinfection of all cars are required. Linens of sleeping cars must bear a ticket indicating to the passenger the date of the last cleaning, and they must be properly washed and afterward subjected to a high temperature. Dry sweeping and dusting, which only serve to scatter disease germs, are prohibited, it being required that all floors, seats and woodwork be wiped with cloths moistened with some antiseptic solution.

The Arctic Weasel.

In cold countries where snow prevails during a long winter many of the animals change the hue of their coats to a white tint. The Arctic weasel and fox are white throughout the year. The northern hare is brown in summer and white in winter. The weasel is especially curious. It retains its brown coat until the first snow appears and then whitens in a few hours.

He Remembered.

Wife (revisiting the scene of her betrothal)—I remember, Algernon, so well when you proposed to me how painfully embarrassed you were.

Algernon—Yes, dear, and I remember so well how kind and encouraging you were and how easy you made it for me, after all.—T. G. Bits.

A Clever Dog.

"A Durango man," remarks the Floresville (Mo.) Chronicle, "was showing to a friend the good points of his dog and threw a half dollar coin into the river. Obeyingly the dog dived for the coin and brought up a two pound catfish and 35 cents in change."

The Railway Instinct.

"How did that railway magnate's daughter happen to accept Jim Boozle by Buffer?"

"I think it's because he runs his name in three sections."—Cleveland Plain Dealer.

The word "mile" comes from the Latin "mille," a thousand. A thousand paces of a marching soldier made the Roman mile.

A Career Ending Joke.

This is a true story about one of the mayors of Kansas City. He was mayor when the incident occurred, not so very many years ago. Two newspaper men, both very good friends of the mayor, were about to leave town, and they asked Mr. Mayor to help them celebrate their departure.

It was a hot day in summer, and after an hour or two of convivial indulgence the mayor of Kansas City was very much under the influence of liquor. The newspaper men were feeling jovial, but they were still able to walk around. It finally became necessary to do something for the mayor. Seizing a fruit wagon pass, one of the newspaper men ran out and hailed the driver. When he drew up to the curb, he was asked whether or not he wanted to make \$2. He replied that he most certainly did.

It was then explained to him that a drunken man would be stretched out in his wagon, face toward the sky, that he must drive through all the streets of the town and then take the man home.

Not knowing who his passenger was to be, the driver consented, and the joke was carried out to the letter. Through the streets of Kansas City the mayor of the town, stretched out on an open wagon asleep, was driven, and there was a placard that announced the cause of the strange plight fastened on the back of the wagon. The mayor was not re-elected.—Chicago Chronicle.

The Legend of the Snowdrop.

An old legend gives the following as the origin of the snowdrop: After Adam and Eve had been driven from the garden of Eden Eve was disconsolate. One day as she sat silently grieving an angel appeared and sought means to comfort her. She longed for the flowers, but the fast descending snow was wrapping the barren earth in a robe of white.

As the angel stood and spoke words of hope to the weeping, repentant woman he caught a snowflake, breathed gently upon it and said:

"Take form, pure snowflake, bud and blossom and be a comfort to humanity, now and forever."

In a twinkling the snowflake changed into a beautiful flower, as white and pure as the snow itself, and when Eve beheld the newborn blossom gladness and hope came to her heart, and she smiled through her tears.

Having fulfilled his mission of love, the angel departed, but where he had stood there immediately sprang up a circle of perfect snowdrops.

An Aeolian Harp.

To make an aeolian harp construct a box of very thin pine, cedar or other wood, five or six inches deep, seven or eight inches wide, with a length equal to that of the window in which it is to be placed. Across the top, near each end, glue a strip of wood half an inch high and a quarter of an inch thick for bridges. Into the ends of the box insert wooden pins, like those of a violin, to wind the strings around, two pins in each end. Make a sound hole in the middle of the top and string the box with small catgut or first fiddle strings. Fastening one end of each string to a metallic pin in one end of the box and carrying it over the bridges, wind it around the turning pin in the opposite end of the box. Tune the strings in unison and place the box in the window. It is better to have four strings, but a harp with a single string produces an exceedingly sweet melody.

Automobile Terms.

The automobile has brought many new words into use. The correct word for a private collection of automobiles, equivalent to "stable," seems to afford considerable difficulty. "Motor-ban," "motorome," "motorden," "motorium," "motor shed" and "motable" have all been suggested. The French term "garage" would be a good one if it were not used for designating a place simply for storing and repairing automobiles.

Cures Cancer, Blood Poison, Eating Sores, Ulcers—Costs Nothing to Try.

Blood poison or deadly cancer are the worst and most deep-seated blood diseases on earth, yet the easiest to cure when Botanic Blood Balm is used. AUTUMN FASHIONS.

COATS AND TAILOR GOWNS FOR TRAVELING AND COUNTRY VISITS.

Turn-down Collars and Flat Capes to the Fore—Sack Backs to the Text. Jackets—Browns, Greens, Navy and Grays are Coming Colors.

Not a storm or model collar will be left in the land by the time autumn modes are well established, if present indications hold good. Deep, flared capes falling straight from the neck rank well to the front and it is rumored, are likely to be doubled and trebled.

Then another effective finish to tailor made coats will be flat, stielike pieces

SMART TRAVELING COAT.

of velvet stitched at either edge with a narrow fancy galloon or embroidery. These, following the outline of the neck, terminate midway down the front, or, again, long, natural lapels formed by the throwing back of the front of a coat or corsage—narrow, unassuming affairs, but distinctly stylish—are surmounted by a narrow stitched strapping in lieu of a collar.

People who are rushing from one pleasure resort to another will still find opportunity for displaying smart toilets, long, sweeping skirts and airy bodices. But travelers and those about to visit rural districts will turn to other modes. Contrary to what is much to be desired—viz, short skirts—some of the smartest gown builders are making up their new autumn gowns of serge, homespun and kindred stuffs to touch the ground, and the accompanying short bolero jackets, over blouses, have generally wide turn-down collars.

The flannel dresses are quite pretty. Those with blue, pink or black stripes have accompanying jackets of the Chesterfield or bolero shape, and alpaca is again being pushed. Traveling coats are the smart thing either in three-quarters length or longer. One style, entirely covering the gown, has ample pockets at the side and a turned down collar and is made of rainproof fabric in fawns, grays, black, navy or blue and white.

The accompanying sketch shows a practical and stylish coat suitable for traveling, country wear in general or yachting. It is made with the sleeve put in the ordinary way, not running up into the shoulder and collar band. It is not a sack, but is full in the skirt, with comfortable, useful pockets, including one for tickets and suited alike to grown up people and younger ones. By means of a slit in the seam at the side the skirt can be held up without interfering with its appearance. It is made in various materials, some with herringbone weaving Scotch tweeds and checks, as well as serge.

Very pretty dresses, just what people want for traveling, are made up in

serge, shepherd's plaid and several varieties of wool, in brown, green, fawn, gray, mignonette and lichen greens, with various tones of gray. These bid fair to be the fashionable colorings in "tailor made" during the ensuing autumn.

Two examples are shown for sport and country wear, one gray and green mixed tweed, piped with gray and trimmed with tartan; the other, dull red striped flannel cloth with white cloth trimming. Toques in soft materials and ornamented with quills are stylishly worn with these.

The three flounced skirt is making headway with the tailors, and stockings are being introduced on many cloth dresses.

Health and Happiness

depend on the Kidneys and Liver. If you have pains everywhere and at all times in your back, and in your head, a dull, heavy, tired sensation, you are sick and miserable—cross and unhappy, growing irritable. They may be the forerunners of Rheumatism, or Jaundice, or Bright's Disease of the Kidneys, or Diabetes, or a disordered Liver or diseased Kidneys, or both. These much abused organs are unable to perform the work imposed upon them until they have regained their normal condition of health.

In the effort to obtain relief, don't use liniments or ointments. Rubbing the muscles and joints may temporarily ease the pain or drive it into some other part of the body. You are not curing the disease by external applications. Constitutional treatment is necessary.

Take a vegetable remedy only. Mineral remedies, that are almost universally prescribed, fail to cure, because they weaken the digestion, thus impairing instead of building up.

DR. McLEAN'S LIVER AND KIDNEY BALM

cures Kidneys and Liver, and tones the stomach. During the one-half century of its use it has cured hopeless cases. If you are one of the many who have become disheartened by repeated failures with other remedies, don't despair. A bottle (\$1.00) will convince you that Health and Happiness can still be yours. It's purely vegetable. It's absolutely safe. At your druggist's.

Tot Causes Night Alarm.

"One night my brother's baby was taken with croup," writes Mrs. J. C. Sider, of Crittenden, Ky. "It seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from croup and whooping cough. It cured me of chronic bronchial trouble that no other remedy would relieve." Infallible for coughs, colds, throat and lung troubles. 50c and \$1. Trial bottles free at A. G. Luken & Co.'s drug store.
