

Buick

THE CAR THAT SELLS BY THE TRAIN LOAD

More than \$2,000,000 worth of Buicks have been shipped out of Flint by the train load in the past thirteen months.

Buick export shipments have been more than \$1,000,000 in the past three months.

THE REASON:

The famous Buick overhead valve. motor is guaranteed to have more power and more speed than any other type of motor on the market. It will pull stronger on low grade gasoline than any other type of motor ever built and the fuel consumption is less.

With the cost steadily going up, fuel con-sumption is an important consideration. Read what this owner says:

"I have run my Buick 45,000 miles in three years, and it has cost me only \$17.70 for repairs. It has never been laid up and is giving me as good service today as it did the day I bought it. I get about 20 miles to every gallon of gasoline. Buick spells economy and it doesn't take a mechanic to run one."_H. W. Beltz, Oklahoma City, Oklahoma.

Readsters and Touring Cars, \$850 to \$1650, F. C. B.
