OUR NEW YORK LETTER.

Tuesday Evening. April 4, 1871.

The Continental Mailway - Cheap and Quick Transit Between the Facific and the Atlantic -A Project of Immense Importance to the West.

NEW YORK, Merch 30, 1871. This great commercial city of the Union the shortest and cheapest way to the West and the Pacific, knowing very well that on the solution of the solut the solution of this problem depends very much of its future -in fact on its solution Try it! Safe, Reliable and only 25 cents depends the maintainance of its present commercial supremacy. In the infancy of railroads in this country they were built with little or no reference to connecting distant points-much less with reference to connecting oceans. Take, for example, our New York Central : It was built in patches, under various names and charters, and reliable, instantaneous; no disappointment; a ridiculous times; remedies the avil effects of ha merely to connect certain towns. In course of time there came to be a railroad from this city to Buffalo by way of Albany, which Batchelor's Wig Factory, No. 16 Boad street, 33-div is now practically one road and under one New York. management-but it labors under disadvan tages, such as sharp curves, heavy grades, and 100 great distance, for rapid and cheap traceit. The same may be said of all the time but of expense, -two items of very | wholesome, any perfect Dye. great importance to business men, to pro ducers, and to consumers. This simple statement is enough to show why the great cheapest transportation; and why men hav- Standard Dye and continually pouring in. ing surplus capital will solve the problem, knowing very well that the shortest and the most direct line across the Continent will pay best. Such a line is now in course of immediate in its effects. The mest delightfu construction-and it embraces a great plan dressing to use after dycing the hair, is of harbor improvement at this point, with CHRISTADORO'S HAIR PRESERVATIVE all the modern appliances, in the way of elevators, warehouses, etc., for the cheap and quick handling of freight. It is earled the Continental Railway, and

is a straightway line from this city to Council Bluffs, connecting Cleveland, Toledo, Chicago, Milwaukee, St. Paul, and the principal cities west of Pennsylvania along its line, and north thereof, making a saving to ted. Bent in sealed letter envelopes, free of all the region described of more than a charge.
hundred miles; and to Pittsburg, Cincinnati, Address, Howard Sanitany Ath Associa-Louisville, Cairo, St. Louis, and the region southwest of them, of from fifty to one hundred and fifty miles over the presenroutes from New York to the regions named. It will be a low grade road, with easy curves, and is intended to be a strictly first Bigelow. class railway, in every particular. Negotiations for funds necessary to carry

forward the enterprise are well advanced and it is expected that a large portion of the line will be completed this year. The managers occupy a large house in maps, profiles, pamphlets, etc., is progress ner, examined the work of the draughtamen

tives of the large financial centres on the other side of the ocean, were present, and take the negotiations of its securities abroad This road will pass through the States of New Jersey, Pennsylvania, Ohio, Indiana, Illinois and lows, and, when completed and properly managed, will tend to greatly cheapen transportation from the great grain growing and stock raising regions of the west, particularly the of Ohio, Indiana, Illinois, Ordinarily, railroads interest only those living along and in the immediate vicinity of their lines, - but this road and cheapest outlet to the great commercial metropolis of the Union for more than 16,-000 miles of railway, already built, spread ing its benefits over a greater area than any

The plan contemplates crossing the Mississippi either at Rock Island or Muscatine either of which places is in about the lati-tude of New York and Council Bluffs Muscatine, in consequence of the great benc westward of the Mississippi river, being only about two miles south of Rock Island. is important, therefore, that the people of Rock Island should be alive to their interests and secure such a location of the linas will make their town the crossing. The have the project in hand, backed by the great commercial importance of New York and Berb Juice \$1.25 per hottle.

Dr. Schenck has discon and a liberal supply of "British Gold," will pretty surely carry the scheme to a success

Charters, with powers for consolidation have been secured across all the States through which it will pass, and work on portions of the line is progressing, and trains already running on some parts of it Nothing beyond the mere statement of facts contained in this letter is required to satisfy anyone of the feasibility and impor tance of the project-and I expect, within two or three years, to see the line completed. Most of it will be a double track road, and it will be made capable of transacting promptly the enormous business which must come to it, not only locally, but from the Pacific States, and from the immense number of roads it will cross, it will be just what its name indicates-the CONTI NENTAL BAILWAY.

After an exceedingly pleasant evening passed at the house of the friends of this great enterprise, I left, much pleased with what I saw and learned of the gigantic project fo chean and quick transportation between the West and New York I will write you on other topics soon.

GRANT's attitude toward San Domingo said to be changing. The indignation expressed by the Republicans of the country against him for his unwarranted assump tion of kingly prerogatives, and his crimina course in having Sumuer removed from the chairmanship of the Senate committee o Foreign Relations - a position which is now filled by one of the most incompetent mer in the radical party, has learned the Galena grocer a lesson which he may well head.

The Norwich (Conn.,) Bulletin tells : pathetic little story about a pigeon which became fastened by a long string hanging from one of its legs to a telegraph wire on Main street in that city. Two or three crue boys wanted to throw stones at it, but a kind gentleman telling them not to hurt the poor bird, got a ladder and carefully or wound the string and put the frightened. fluttering little creature into his bosom, when he descended. The next evening he remarked that it had made a much nicer pie than he expected.

It is rumored that Colfax will retire from private life to accept a position as President of a company who have recently patented a gum elastic tooth wash.

SUMMER VS. GRANT, ET. AL.-This case has been tried by the people, and a popular | verdist returned for the plaintiff.

SPECIAL MOTICES.

Consumption, Its Oure and its Preventive, by J. H. Schenck, M. D. The turf of the grave-yard covers the remains was no other reason than the neglect of known and indisputably proven means of cure Those sear and dear to family and friends are sleeping

the dreamless slumber into which, had they calmly adopted DR. JOSEPH H. SOHENCK'S SIMPLE TREATMENT,

And availed themselves of his wonderfully effieach us medicines, they would not have fallen.

convincing.

The Seawood Tonie and Mandrake Pills are the two first weapons with which the citadel of the malady is assailed. Two thirds of the cases of consumption originate in dyspepsia and a continually disordered liver. With this condifanotionally disordered liver. With this condi-tion the brenchial tubes "sympathise" with the Cholers Morbus and the Asiatt Ohulers. Al This is the cry of thousands who have had stemach. They respond to the morbide action orders from responsible parties promptly filled. meh?? dwly their heads poisoned and their hair rulned by the of the liver. Here then comes the culminating

The Mandrake Pills are composed of one of Nature's noblest gifts-the Podopbyllum Peltatum. They possess all the blood-searching, interests of agriculture, manufacturers, and temptast competition. From every State, County alterative properties of a salomel, but unlike cal-

"LEAVE NO STING BEHIND." The work of cure is now beginning. The viristed and mucous deposits in the bowels and in the alimentary canal are ejected. The lives, torpidity. The atomach acts responsively, and the patient begins to feel that he is getting, at

A SUPPLY OF GOOD BLOOD. The Seaweed Tonio, in conjunction with the Pills, permeates and assimilates with the food. Chilification is now progressing without its previous tortures. Digestion becomes painless, and he care is seen to be at band. There is no more datalence, no exacerbation of the stomach. An Renovator and appetite sets in.

Now comes the Greatest Blood Purifier ever yet given by an indulgent father to suffering nan. Schenek's Pulmonie Syrup comes in to perform its functions, and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the 179 South Clark Street, CHICAGO, ILL., Pri- malady is vanguished, the rotten throne that I; vate and Chronic Diseases in both sexes success- occupied is renovated and made new, and the patient in all the dignity of regained vigor, steps forth to enjoy the manhood or the womanhood
