Notice of Intention.

Notice of Intention.

Notice is hereby given that the city of Los Angeles intends making the foliousing improvements on Fort street from its intersection with Third street to and including its intersection with Second street:

The street shall be graded in the following manner: The road-bed snall be prepared by cutting down or filling up the street to a subgrade eight inches below the established grade along the center line of the street, and in such manner as to give it a slope of one foot in thirty towards the gutters. The road-bed having been prepared along the whole of one block and having been accepted by the City Surveyor, it shall then be surfaced with cement gravel to the depth of eight inches.

The curb shall be of redwood 3x12 inches, spiked to posts of redwood 4x4 inches and three feet long set in the ground on the inside of and two feet below the bottom of the curb. Said posts shall be not less than six feet apart and in addition thereto there shall be a similar post set in the same manner at each and every joint of the curb, to which both ends of the curb shall be sake of 3x4 redwood and two feet long set in the ground opposite to and four feet inside of each post. There shall be a key of 1x4 redwood and four feet long nailed with not less than two ten-penny nails at each end to and connecting the stake to the post; said key to be placed four inches below the top of the curb shall be filled in or cut down at the curb to

inches below the established grade.

The sidewalks shall betwelve feet wide and shall be filled in or cut down at the curb to within six inches of the established grade, as may be necessary, with a slope of two inches from the inside of the sidewalk towards the gutter. It shall then be filled in with four inches of cement gravel and properly leveled.

Two box culverts shall be placed across the intersection of Fort and Second streets, to be made of 3-inch redwood. They shall be three feet wide and one foot deep on the inside, and so placed as to serve as crossing; the bottom to be laid longitudinally and the top crossways.

M. KREMER, ap16 10t Clerk of Com. Council.

Notice of Intention.

NOTICE is hereby given that the city of Los Angeles intends making the following improvement on Figueroa street from its intersection with Pico street to and including its intersection with Adams street: Said Figueroa street shall be graded by excavating or filling in so as to bring the centre line thereof up to the grade as established, giving the roadway a slope of one foot in thirty to the bottom of the gutter.

Sidewalks 12 feet wide shall be left on either side, which shall be averaged or filled in contraction. side which shall be excavated or filled in so as to make them correspond with the established grade. They shall then be made perfectly smooth, and all large stones or other impediments to footmen shall be removed.

with cement gravel to the depth of eight inches.

The gutters shall be four feet wide and shall be paved with granite cobble stones eight inches long and not over six inches in thickness. The centre of the gutter shall be eight inches and the sides five inches below the top of the curb, thus giving it a concave shape, the cobble stones to be thoroughly set in sand and to be well rammed.

The curb shall be of redwood 3x12 inches, spiked to posts of redwood 4x4 inches and three feet long, set in the ground on the inside of and two feet below the bottom of the curb. Said posts shall be not less than six feet apart, and in addition thereto there shall be a similar post set in the same manner at each and every joint of the curb, to which both ends of the curb shall be spiked. There shall be a stake of 3x4 redwood and two feet long set in the ground opposite to and four feet inside of each post. There shall be a key of 1x4 redwood and four feet long nailed with not less than two ten-penny nails at each end to and connecting the stake to the post; said key to be placed four inches below the top of the curb. The top of the curb shall be placed two inches below the established grade.

The sidewalks shall be twelve feet wide, and shall be filled in or cut down at the curb to within six inches of the established grade (as may be necessary) with a slope of two inches from the inside of the sidewalk towards the gutter. It shall then be filled in with four inches of cement gravel and properly leveled.

Two box culverts shall be placed across the intersection of Fort and First streets, to be made of three-inch redwood. They shall be three feet wide by one foot deep on the inside and so placed as to serve as crossings; the bottom and sides to be laid longitudinally, the top crossways. There shall be a similar culvert across Franklin street at its junction with Fort street.
