New and Magnificent SCHEME! COHEN'S OFFICE—BALTIMORE, November 11th, 1825. WE have the pleasure to present the handsomest and comparatively most brilliant Scheme, ever offered to the public. The price of Tickets only Ten Dollars, with the Capital Prize of the immense magnitude of ONE HUNDRED THOUSAND DOLLARS! The manner of drawing, it will be noticed, is under another of the specifications of the Improved Mode, secured by letters patent under Seal of the United States of America, and under the superintendance of the Commissioners appointed by the Governor and Council. Tickets only 10 Dollars. HIGHEST PRIZE 100,000 DOLLARS! THE NEXT Grand Sate Lottery, of Maryland, the whole to be completed in ONE DAY. On Wednesday, 15th February next. 100,000 DOLS. HIGHEST PRIZE.

Grand Scheme: 1 prize of \$100,000 is 100,000 1 prize of \$30,000 is 30,000 1 prize of 20,000 is 20,000 1 prize of 10,000 is 10,000 1 do 5,000 is 5,000 15 do 1,000 is 15,000 10 do 500 is 5,000 50 do 100 is 5,000 100 do 50 is 5,000 500 do 12 is 6,000 10,500 do 10 is 105,000 11,280 Prizes \$308,000 Every Prize subject to a deduction of Fifteen per cent.—and payable sixty days after the drawing, but for which, as usual at Cohen's Office, the CASH can be had the Moment they are Drawn. MODE OF DRAWING: The Numbers will be put into one wheel as usual—and in the other wheel will be put the drawing, but for which, as usual at Cohen's Office, the CASH can be had the Moment they are Drawn. The Numbers of the wheel will be put into a box, and the drawing will be made by drawing the terminating figure of either of the three first drawn numbers from the wheel of different denominations. To illustrate which, suppose that 13,562 be the first drawn number, then every Ticket in the Lottery ending with the figure 2, will be entitled to a prize of Ten Dollars—then suppose that No. 8,365 be the next drawn from the wheel, then all the tickets ending with 5, will also be entitled to a prize of Ten Dollars each—and in like manner, suppose that No. 29,368 be the third drawn from the wheel, then all the tickets in the scheme ending with the figure 8, will also be entitled to a prize of Ten Dollars each. This mode of drawing will permit the whole Lottery to be completed at ONE DRAWING—and a Ticket drawing a superior Prize will not be restricted from drawing an inferior one also. Whole Tickets \$10 Quarters, \$2 50 Halves, 5 Eighth, 1 25 To be had in a great variety of Numbers at

COHEN'S Lottery and Exchange Office, No. 114, Market Street, Baltimore. WHERE in the late Grand State, and other lotteries, were sold the great capital of 100,000 Dollars—3 of 50,000 dollars—12 of 40,000 dollars—5 of 30,000 dollars—32 of 20,000 dollars—17 of 10,000 dollars—32 of 5,000 dollars, &c.—and where more capital prizes have been sold than at any other office in America. Orders from any part of the United States, or territories, either by mail post paid, or by private conveyance, enclosing the cash or prizes in any lotteries, will meet the same prompt attention as if on personal application, addressed to J. I. COHEN, jr. & BROTHERS, Baltimore. Cohen's "Gazette and Lottery Register" which will be published immediately after the drawing, will contain the complete List of Prizes, and will be forwarded gratis, to all who purchase their tickets at COHEN'S OFFICE, and who signify their wish to receive the same. Baltimore, Nov. 1825.

He has also an establishment on Pennsylvania Avenue, opposite the Gazette Office, Washington, where favors will be acknowledged. oct 11-3m

Swain's Panacea. THIS valuable medicine has obtained a distinction which its efficacy alone can support. As a purifier of the blood it has no parallel. It is the most useful spring and autumn alternative ever known. All those who are affected with Scrofula, Leprosy, Scurvy, or cutaneous Eruptions, or any of those melancholy diseases arising from the impurity of the blood and juices—also, those who suffer by diseased Livers, Rheumatic affections, or from indiscretion of their youth, as well as those whose constitutions are broken down by mercurial, antimonial or arsenical medicines, should submit to a course of Swain's Panacea. The effect of this medicine is such as not to interrupt either business or pleasure, and requires only the common restraints of moderation in diet. It is conveyed by the circulating fluids, and corrects their tendencies to all those diseases which originate in vitiated blood. It is a safe, though a powerful substitute for mercury, and removes those evils which an unsuccessful use of that mineral so often occasions, &c. CERTIFICATES. "I have repeatedly used Swain's Panacea, both in the hospital and in private practice, and have found it to be a valuable medicine in chronic, syphilitic and scrofulous complaints, and in obstinate cutaneous affections. "VALENTINE MOTT, M. D. "Professor of Surgery in the University of N. York, Surgeon of the N. Y. Hospital, &c. New York, 1st mo. 5th, 1824. "I have within the last two years had an opportunity of seeing several cases of very inveterate ulcers, which having resisted previously the regular modes of treatment, were healed by the use of Mr. Swain's Panacea; and I do believe, from what I have seen, that it will prove an important remedy in scrofulous, venereal and mercurial diseases. "N. CHAPMAN, M. D. "Professor of the Institutes and practice of Physic in the University of Pennsylvania, &c. Philadelphia, Feb. 16, 1824. "I have employed the Panacea of Mr. Swain, in numerous instances, within the last three years, and have always found it extremely efficacious, especially in secondary syphilitic and mercurial disease. I have no hesitation in pronouncing it a medicine of inestimable value. W. GIBSON, M. D. "Professor of Surgery in the University of Pennsylvania, Surgeon and Clinical Lecturer to the Alms House Infirmary, &c. February 17, 1823. Caution to Purchasers. The great demand and wonderful success of this medicine, have induced a number of persons to imitate it in various ways. Some are selling sarsaparilla and other syrups, imposing them on the ignorant for the Panacea; others are mixing the genuine medicine with molasses, &c. making three bottles out of one—thus retaining some of its virtues. These imitations and adulterations, have in many instances, protracted the sufferings of patients in cases where the genuine medicine would have proved instantly efficacious. I therefore deem it a duty I owe the public, to acquaint them, that it is impossible, from the very nature of its constituents, to be discovered by chemical analysis; and consequently, that all other mixtures represented to be mine and sold as such, are fraudulent and base impositions, calculated to deceive the ignorant and unwary. The genuine medicine has my signature on a label representing Hercules and the Hydra, and my name on the seal. Communications, post paid, and orders from any part of the world, will receive immediate attention. Printed directions accompany the medicine. WM. SWAIN. No. 13, South Ninth-street, Philadelphia, Opposite the University of Pennsylvania. A constant supply of the above valuable medicine is kept by the subscribers who are appointed sole agents for Alexandria. Prices—\$3 per bottle, or \$30 per dozen. april 28 EDW. STABLER & SON.

Swain's Panacea. [From the Philadelphia Evening Post.] HAVING made the proper inquiry, we can vouch for the accuracy of the statement contained in the subjoined communication. No one should hesitate to bear just evidence to the merits of a medicine like that of Mr. SWAIN'S, which would seem to be very different from the nostrums of the day. To the Editors of the Saturday Evening Post. Dr. Gibson, Professor of Surgery in the University of Pennsylvania, in his Lecture of Monday last, spoke in high terms of Swain's Panacea. He remarked that he had found it decidedly beneficial in chronic cases of Syphilis, &c. and that he had known patients who had labored under this disease for a length of time, and tried almost every remedy commonly employed for its cure, with very little if any effect, but who, after using the Panacea, recovered quickly and entirely. He related several instances of rapid and extraordinary restoration to robust health from a state of the most miserable weakness and infection, where the most miserable salivations had produced only the mischief incident to the use of mercury. He spoke likewise of Mr. Swain, personally, acknowledging the generosity which he had shown in the distribution of his medicine to the poor, and in the support even of whole families until a cure was effected. The Professor mentioned that he had been censured by Surgeons and Physicians for recommending the Panacea of Swain, but that he thought it a duty which he owed to suffering humanity not to withhold the expression of his opinion and experience of its efficacious character. A STUDENT. N. B. We think it our duty to say, that we are surprised to find that a number of spurious mixtures have been got up lately, in imitation of this most valuable remedy, and that several strangers have been injured by the mistake. We would advise all persons who are in want of such a remedy, to apply where the genuine is known to be had. MEDICUS. april 28

Team-Boat Hotel. THE subscriber takes this method of informing the public, that he has added to his establishment A large Yard and Stable, capable of Accommodating from 40 to 50 Horses. It is situated between the Market and the Team-boat Ferry, which renders it decidedly the most convenient stand for gentlemen coming from Maryland, as well as for Drivers, who will always meet with purchasers at the subscriber's Hotel—most of the horses sold in Alexandria being for the Maryland market. The stable will be attended by Ostlers of established sobriety and industry, and will always be provided with provender of the first quality. The charges shall be as low as any others in the District, and every exertion made to please gentlemen who may think proper to call. WM. B. STEWART.

Now landing at Irwin's wharf 42 bbls and 3 tierces loaf sugar 11 quarter casks Cete and Madira 8 do do Cete Sherry } Wine. And a further supply of nails. For sale by nov 19 A. C. CAZENOVE & Co.

FOR THE CURE OF Colds, Coughs, Consumptions, Spitting of Blood, Asthmas, and all Diseases of the Breast and Lungs. THERE is perhaps no medical observation better established, none more generally confirmed by the experience of the best physicians of all ages and countries, and none of more importance to the human family, than the fact that many of the most difficult and incurable consumptions originate in neglected colds. In a climate so variable as ours, where the changes of the weather are frequently sudden and unexpected, it requires more care and attention to guard against this dangerous enemy of life, than most people imagine, or are able and willing to bestow.—The bills of mortality exhibit the melancholy fact that the proportion of deaths by this disease may be considered as about five to one. Inasmuch then as this fatal disease bids defiance to the skill of the most learned physicians, it is a gratification to the proprietor that he is enabled to offer to those afflicted with it a goodly prospect of relief, in that highly valuable remedy the vegetable Indian Specific.—The Indians are happy in their knowledge of medicinal plants; governed wholly by experience, they are certain as to their effect, and it is said by an author of great character, that a true consumption is a disease never known amongst them. For the information of those afflicted with complaints of the breast and lungs, the proprietor inserts (from among the numerous testimonials in his possession) the following Certificate: Baltimore, 7th Dec. 1824. I, W. Price, of the city of Baltimore, do hereby certify and declare, that I was for a long time afflicted with a severe cold, accompanied with an almost incessant cough, and pain in my breast and lungs; also, spitting of blood, and purulent matter from the lungs, with night sweats and fevers, and was much emaciated with loss of appetite, rest &c. I applied to several eminent physicians, and passed through a course of medicine, but could obtain no relief, and found myself fast verging on to a confirmed consumption. Having at length heard of the many astonishing cures effected by the Vegetable Indian Specific, I was induced to make trial of it, and found almost immediate relief, and my rest restored. I continued its use, improving fast, my appetite better, and all the symptoms of the disease daily diminishing, and in a few weeks was completely cured, and have remained so for several months, and am now in better health and flesh than I have been for many years. I therefore with confidence, recommend the use of the Vegetable Indian Specific to all who suffer under a similar complaint, and as a safe, pleasant and effectual remedy for consumption, and all diseases of the breast and lungs. W. PRICE. The celebrated Dr. Cullen has taught us that "our first attention should be employed in watching the approach of the disease and preventing its proceeding to an incurable state; and in persons of a consumptive habit, especially those born of consumptive parents, the slightest symptoms of an approaching consumption at the consumptive period of life, ought carefully to be attended to." This Specific is obtained by extraction from herbs, roots, flowers, plants, &c. when in perfection. In consequence of a happy combination of the most valuable herbs, &c. it becomes a balsam of superior value. It heals the injured parts, opens the pores and composes the disturbed nerves after the manner of an anodyne; consequently the obstruction of the chest and the lungs which constitute this disease, particularly need its use. It promotes the appetite and improves the spirits.—This specific may always be given in spirit—it is mild, pleasant to the taste, and may safely be given to infants, for which it is of inestimable value. It affords relief in bowel complaints, teething, whooping coughs, &c. and is found particularly useful in hypochondriacal, nervous and hysterical diseases. Each bill of directions contains a detailed account of this disease in all its different stages, and will be accompanied with the signature of W. BUTLER, in Red Ink. Sold by JOHN J. SAYRS, Druggist & Apothecary, and Sole Agent for Alexandria. june 21

Swain's Panacea. [From the Philadelphia Evening Post.] HAVING made the proper inquiry, we can vouch for the accuracy of the statement contained in the subjoined communication. No one should hesitate to bear just evidence to the merits of a medicine like that of Mr. SWAIN'S, which would seem to be very different from the nostrums of the day. To the Editors of the Saturday Evening Post. Dr. Gibson, Professor of Surgery in the University of Pennsylvania, in his Lecture of Monday last, spoke in high terms of Swain's Panacea. He remarked that he had found it decidedly beneficial in chronic cases of Syphilis, &c. and that he had known patients who had labored under this disease for a length of time, and tried almost every remedy commonly employed for its cure, with very little if any effect, but who, after using the Panacea, recovered quickly and entirely. He related several instances of rapid and extraordinary restoration to robust health from a state of the most miserable weakness and infection, where the most miserable salivations had produced only the mischief incident to the use of mercury. He spoke likewise of Mr. Swain, personally, acknowledging the generosity which he had shown in the distribution of his medicine to the poor, and in the support even of whole families until a cure was effected. The Professor mentioned that he had been censured by Surgeons and Physicians for recommending the Panacea of Swain, but that he thought it a duty which he owed to suffering humanity not to withhold the expression of his opinion and experience of its efficacious character. We think it our duty to say, that we are surprised to find that a number of spurious mixtures have been got up lately, in imitation of this most valuable remedy, and that several strangers have been injured by the mistake. We would advise all persons who are in want of such a remedy, to apply where the genuine is known to be had. MEDICUS. april 28

Swain's Panacea. [From the Philadelphia Evening Post.] HAVING made the proper inquiry, we can vouch for the accuracy of the statement contained in the subjoined communication. No one should hesitate to bear just evidence to the merits of a medicine like that of Mr. SWAIN'S, which would seem to be very different from the nostrums of the day. To the Editors of the Saturday Evening Post. Dr. Gibson, Professor of Surgery in the University of Pennsylvania, in his Lecture of Monday last, spoke in high terms of Swain's Panacea. He remarked that he had found it decidedly beneficial in chronic cases of Syphilis, &c. and that he had known patients who had labored under this disease for a length of time, and tried almost every remedy commonly employed for its cure, with very little if any effect, but who, after using the Panacea, recovered quickly and entirely. He related several instances of rapid and extraordinary restoration to robust health from a state of the most miserable weakness and infection, where the most miserable salivations had produced only the mischief incident to the use of mercury. He spoke likewise of Mr. Swain, personally, acknowledging the generosity which he had shown in the distribution of his medicine to the poor, and in the support even of whole families until a cure was effected. The Professor mentioned that he had been censured by Surgeons and Physicians for recommending the Panacea of Swain, but that he thought it a duty which he owed to suffering humanity not to withhold the expression of his opinion and experience of its efficacious character. A STUDENT. N. B.
