

The next fortnight is pregnant with events highly important to the future destinies of this Republic, so far as they are controlled by its legislation. In six States of the Union, within those two weeks, officers of the State Governments are to be elected by the People, and in two of them Representatives in Congress also to be chosen, to the number of forty. So extensive a renovation of the Legislative Bodies of the State and Federal Governments may exercise an important influence on the character and temper of the Public Councils.—*Nat. Int.*

**Fatal Affray.**—On Monday evening, about 8 o'clock, a man named John Rich, a stevedore, was killed in an affray in Ann street, near Fleet street, by a person or persons who are not yet known. Rich had been at work through the day on board a brig at Central wharf. He afterwards proceeded with one of his companions down Ann street, where they met a number of men, one of whom shoved Rich as he passed. This Rich resented, and an altercation took place, in the course of which Rich received one or more blows, and fell, and was a few minutes afterwards found dead. On an examination of the body, there was no appearance of external injury. An inquest was held the same evening upon the body, and the verdict of the jury was, that the deceased came to his death by a blow or blows inflicted on him by a person or persons to them unknown.—A young man named Emanuel Currant, who was probably accidentally present at the affray, was also stabbed in the side by some unknown person. Three young men, named Ullmer, Campbell and Freeland, have been arrested, accused of being concerned in the affray, and have been committed for examination on Friday. The young man who was wounded was living on Tuesday afternoon, but his life was still despaired of. [Boston Dai. Adv.]

**COMMERCIAL.**

**BALTIMORE MARKET—Sept. 29.**

**Flour.**—Howard Street.—The receipts of this description, during the week, are only about 2500 bbls. In the early part of the week, sales from store were made at \$5 87½. Firmness, however, was imparted to the market from the circumstance of the smallness of the receipts and the consequent reduction of the already limited stocks; the store price advanced 12½ cents, and sales were effected at 6 00 per bbl. On Thursday, from the same cause, a further advance was realized, and sales were made from store at 6 12½. To-day a sale of 200 bbls. was made at 6 12½; some holders ask that price, while others demand a higher price. The stock is very trifling, and the mills are doing but little work in consequence of the drought. The wagon price was uniform up to yesterday, at 5 75. To-day it ranges from 5 75 to 5 87½.

**City Mills Flour.**—The sales for export during the week comprise from 3000 to 4000 bbls. some parcels of which were taken at \$5 75, on time with interest added, and others at that price on 60 and 90 days credit without interest. A sale was made this morning at 5 75, on 60 days without interest. The stocks in millers' hands are very small, and in consequence of the lowness of the waters, the quantity manufactured continues limited. A lot of 200 bbls. Frederickburg (Rio brand) was sold yesterday at 6 00 cash.

**Grain.**—Wheat.—The market has been but scantily supplied this week. The sales of good red have generally been made at 100 a 105 cents, and the prime parcels at 107 cents. One parcel was taken at 107½. To-day there is a better supply, and sales good to prime continue to be made at \$1 00 a 1 07. One parcel of prime white was taken this week at 1 14; we quote the range of this description at 1 10 a 1 13, as in quality.

**Corn.**—At the beginning of the week sales of parcels were made from store at 70a72 cents.—On Wednesday a cargo of mixed Virginia was sold 73 cents, and a parcel of yellow at 73½.—On Thursday some small parcels of yellow were sold at 74 cents, and one of white at 72 cents. The market is flat to-day, and we cannot quote parcels of white for shipment above 70a71½.

**Outs.**—Sales at 35a37 cents during the week.

**Rye.**—Sales at 66a68 cents, as in quality.

**Eight Days Later from England.**

**New York, Sept. 28.**—This morning our news schooner Eclipse arrived in town from the Liverpool packet ship Napoleon, Capt. Smith, which she boarded last night.

The Editors of the Courier & Enquirer have received by this vessel regular files of London papers to the 24th August, Liverpool to the 25th, Shipping Lists, &c.

We annex the King of England's Speech to both Houses of Parliament on their prorogation. It will be seen to be a mere collection of words, and to convey little or no insight into the foreign policy of England, or the internal state of that country. The Radical papers abuse it without measure; indeed, it is very apparent that the present Ministry are fast losing all favor with that party.

It would appear, from the accounts from Portugal, that Don Pedro's Admiral had attacked the squadron of Miguel on the 10th and 11th, and that, though not successful at first, he hoped, when he had collected all his ships, to give a good account of the enemy. It will require a more decided success on his part to enable him to continue the blockade of the two great rivers of Portugal, and if the blockade of Oporto is the object of the expedition from the Tagus, it would seem that its purpose is temporarily accomplished. On land, although Don Pedro's army is more than a match for the enemy in the field, it appears to be hemmed in at Oporto by superior numbers.

Some of the leading English Journals, call loudly on the British Government to fly to the assistance of Don Pedro, and on the people to associate in public meetings and instigate the Government to interfere in his favor. We apprehend from the whole tenor of these accounts that the situation of Don Pedro is rather critical.

From France we perceive nothing of importance; nor is there any thing definitive in regard to Belgium and Holland.

The excitement is still kept up in the German States on the Rhine, in consequence of the Decrees of the Diet, and it appears to have increased in consequence of an attempt to assassinate the eldest son of the Emperor of Austria, which however does not appear to have been connected with any political object.

Shares in the Bank of England had fallen 17 per cent. in consequence of disclosures made at a meeting of the proprietors, when it appeared the contingent fund was much less in amount than was expected.

Dennis Collins, the Greenwich pensioner, who hit the King of England with a stone at Ascot Heath Races, had been found guilty of high treason and condemned to be hung. It was doubtful whether the sentence would be carried into execution.

A duel had been fought in London by the Russian Prince Troubetsky and the Russian Count Tolstoy. Prince Paul Lieven was one of the seconds. It ended without bloodshed. Lord Ranelagh, the celebrated duellist, who was on duty at the Horse Guards, supplied the "air trigger Mantons."

**PROROGATION OF PARLIAMENT.**

The King this day proceeded in state to the House of Lords, and prorogued Parliament in person.

His Majesty, attended by the Great Officers of State and the customary retinue, arrived at the House precisely at 2 o'clock.

There were fewer persons collected in the streets than we ever before remember on any similar occasion. In fact, the numbers fell far short of those usually assembled to witness the Lord Mayor's show. His Majesty appeared in good health. He was, however, received by his loyal subjects in the most profound silence. Not a cheer was given, neither did there appear any disposition to offer a mark of disapprobation.—His Majesty having taken his seat on the Throne, the Usher of the Black Rod summoned the House of Commons to their Lordship's Bar. In a few minutes the Speaker, attended by several Members, entered the House of Lords, when his Majesty, in an audible tone, delivered the following most gracious Speech:

**THE KING'S SPEECH.**

"MY LORDS AND GENTLEMEN:

"The state of the public business now enabling me to release you from a further attendance in Parliament, I cannot take leave of you without expressing the satisfaction with which I have observed your diligence and zeal in the discharge of your duties during a Session of extraordinary labor and duration.

"The matters which you have had under your consideration have been of the first importance; and the laws in particular which have been passed for forming the representation of the people have occupied, as was unavoidable, the greatest portion of your time and attention.

"In recommending this subject to your consideration it was my object, by removing the causes of just complaint, to restore general confidence in the Legislature, and to give additional security to the settled Institutions of the State. This object will, I trust, be found to have been accomplished.

"I have still to lament the continuance of disturbances in Ireland, notwithstanding the vigilance and energy displayed by my Government there in the measures which it has taken to repress them. The laws which have been passed, in conformity with my recommendation at the beginning of the Session with respect to the collection of Tithes, are well calculated to lay the foundation of a new system, to the completion of which the attention of Parliament, when it again assembles, will of course be directed.

"To this necessary work my best assistance will be given, by enforcing the execution of the laws, and by promoting the prosperity of a country blessed by Divine Providence with so many natural advantages. As conducive to this object, I must express the satisfaction which I have felt at the measures adopted for extending generally to my people in that Kingdom the benefits of education.

"I continue to receive the most friendly assurances from all Foreign Powers; and, though I am not enabled to announce to you the final arrangement of the questions which have been so long pending between Holland and Belgium, and

though unhappily the contest in Portugal between the Princes of the house of Braganza still continues, I look with confidence, through the intimate union which subsists between me and my Allies to the preservation of general peace.

"GENTLEMEN OF THE HOUSE OF COMMONS.  
"I thank you for the supplies which you have granted to me, and it is a great satisfaction to me to find, notwithstanding large deductions from the revenue occasioned by the repeal of some taxes which pressed most heavily on my people, that you have been enabled; by the exercise of a well considered economy in all the departments of the State, to provide for the service of the year, without any addition to the public burthens.

"MY LORDS AND GENTLEMEN,

"I recommend to you during the recess the most careful attention to the preservation of the public peace, and to the maintenance of the authority of the law in your respective counties.—I trust that the advantages enjoyed by all my subjects, under our free Constitution will be duly appreciated and cherished, that relief from any real causes of complaint, will be sought only through legitimate channels; that all irregular and illegal proceedings will be discountenanced and resisted; and that the establishment of internal tranquility and order will prove that the measures which I have sanctioned will not be fruitless in promoting the security of the State and the contentment and welfare of my People."

**LIVERPOOL, August 24th.—Corn Exchange.**

Our supplies from Ireland are again small, and up to the last night we have had nothing in coastways since Tuesday, except a few Beans and Peas. From abroad the import includes 1,497 quarters Wheat from Canada, 560 do. from Stettin, and 1,800 bags Flour from Calcutta.—With occasional showers in the course of the week, and intervals of fine weather alternately, accompanied by brisk drying winds, the harvest has not suffered any serious interruption, and a large proportion of the Wheat crop in this neighborhood has been secured, mostly in fair condition. The Corn trade in consequence was extremely heavy between Tuesday and to-day, and the decline in Market-lane on Monday aided to increase the languor which prevailed, but without producing that reverse in prices, which might have been expected. To-day our market was very thinly attended, and our local millers being exceedingly inactive, the demand for Wheat was limited chiefly to the wants of a few country buyers; and although fine qualities, from the small supply at hand, were held at nearly the rates of Tuesday, all other descriptions were nominally 2d to 5d per bushel cheaper. Flour upon a more difficult sale was rather lower.

**GLORIOUS VICTORY!**

**PHILADELPHIA, Sept. 29.**—We met the enemy yesterday at the ward polls, and routed them horse, foot and dragons. It will be seen that we have carried THIRTEEN out of the fifteen wards. And the aggregate majority against us in the two last wards is less than one hundred.

Never was there a more complete, a more GLORIOUS POLITICAL TRIUMPH than the one we now record. Let our State, and every other State in the Union, see what is the state of feeling in Philadelphia with reference to Jackson.

The Anti Jackson Ticket prevailed in all the Wards of Spring Garden, and in six Wards out of seven in the Northern Liberties. We have carried Roxborough, and the result is conclusive evidence that Jacksonism is done in Philadelphia City and County.

Our friends were in such a state, that we found it impossible to get the exact vote which was given to the two Inspectors on each side, but we have, where that could not be obtained, given to both alike on the same ticket. If there is a slight error of one or two votes, we will make the correction in our next.—It will make no difference in the aggregate of returns.

Last year our opponents beat us at the wards by nearly ONE TWO HUNDRED votes; this year we defeat them by about FIFTEEN HUNDRED. We have already a clear Anti Jackson gain of twenty five hundred in the city proper, and we shall nearly double it at the general election.

The Block Committees deserve the hearty thanks of every American.

Southward has given the people's ticket against the Sutherland-Jackson ticket, a majority of 278.

German town has gone for the anti-Jackson ticket.

The rout is complete.

We have mentioned in another column the triumph of the Anti Jackson Party in Albany.—The subjoined extract will show what is thought of the victory.

**ALBANY, N. Y. Tuesday Evening, Sept. 25.**

While I am writing, the whole city appears to be a scene of general joy; guns are firing; fires are burning in the streets; the boys are setting off their crackers, &c; and what is for, you will ask? It is the COMPLETE PROSTRATION OF THE REGISTRY in this city.

We have met the enemy this day at the polls, and our victory has been complete. We have gained the election in every ward except the first, and in that, a great change has been effected.—We have struck a blow which will be felt, by the month of November, throughout the State. We have attacked the lion in his den, and have driven him from his strong hold. The cannon which are now roaring sound the knell for the Regency. I have but on one occasion seen such a general burst of joy pervade a community, as does at this moment prevail in this city, and that was in your city, when the intelligence of peace was received, at the conclusion of the late war.

**RICHMOND, Sept. 28.**

The Epidemic.—The report Mr. Woodfin indicates an alarming increase mortality; but the reader will bear in mind, that the interments from 12 yesterday, to 12 to-day, have relation to the day before yesterday, rather than to the last 24 hours.

We presume from the information within our reach, that there is no belief it has ceased since yesterday. It is supposed to be at that it has diminished it will remain nearly stationary for some days, and then decline.

Thirty-five the general average of about 105 cases, agreeably to have been near the ratio third, which America. One hundred and five in Europe a population of 15,000, (supposing cases a day) to have left the population about the above

(that number) argues a much greater extension of the malady here than at New York, or, we believe, anywhere else, save possibly at Montreal and Portsmouth.

In New York, the greatest number of cases in a day, was 311—deaths 104. If 150,000 give 104 deaths, what ought 15,000 to give? The reader may work the sum. The population of New York was supposed to be reduced by flight from 220,000 to 150,000.

There are a few burials at the old Church—7 or 8 in all.

Interments near the Poor-House for 24 hours ending at 12 o'clock this day, 28th September—white 9, colored 26—Total 35.

**GEO. WOODFIN.**

**Cholera in the Penitentiary!**—It gives us pain to inform our readers, that notwithstanding all the precautions that have been so prudently taken by the Superintendent and Physician, (Dr. Chamberlayne), the Cholera has at length broken out in the Penitentiary. One of the convicts was found yesterday morning in his cell, in the asphyxia—and was supposed to be dead yesterday evening. Seven or eight other cases had broken out in that Institution yesterday.
