SHEPHERD'S PATENT SPECIFIC OINTMENT, (formerly Judkins',) Prepared by C. HERSTONS, near Frederick

town. Maryland. THE public will be please I to understand that I was the original discoverer of Judkins' Ointment, and sole proprietor of the patent from September. 1817, until the expiration of the same; but, having connect ed myself with Dr. Judkins in the commencement, I permitted the Ointment to bear his name. The term of the patent having expired on the 26th June, I have made an improvement in the same, and taken out a patent thereon.

SHEPHERD'S PATENT SPECIFIC OINT.

MEN [, (formerly Judkins'.) When I first made and prepared this Ointment, and had, in several instances experienced its good effects, I sent it to several physicians, with instructions in what cases to apply it, who were of opinion that the Ointment would be a valuable public benefit. I concluded that the Ointment would occasionally fall into many hands, some of whom would probably undertake to make it, and knowing the difficulty of the process—nevertheless, it might be progated in this adulterated situation, as it might in some degree resemble the original contents. tuation, as it might in some degree resemble the original—and in this way its good effects would be obliterated. Under these considerations, I secured the original. nal and certain remedy for those obstinate diseases, some of which have so long baffled the skill of me dical science:

1st White swellings of every description; 24 Sore legs and ulcers of long standing, 3d Schirrus or glandular fumors, particularlythose hardened tumors in women's breasts, which oftentimes

erminate in ulcerated cancers; 4th Felons; or what some people know by the name of catarrhs, of every description. 5th Rheumatic pains of the joints; 6th Sprains and bruises of every description, or in

whatever part situate;
7th Tetters of allkinds. In this complaint the pa-

tient, in applying the ointment, must keep the part out of water; 8th Chilblains or parts affected by frost.

It is also one of the best remedies for burns and scalds. It eases the pain and draws the fire out in a

For inflamed women's breasts and glandular swel lings, it is superior to any medicine yet known to the medical faculty. It is much safer than mercurial ap-plications, (as it does not contain the smallest atom of any preparation of the mineral,) because it does not lay the patient liable to injury from exposure to cold.

This Ointment has cured sores of many years stand where it is impossible or imprudent to heal the external sore, in consequence of the bones becoming carious or rotten, it will stop the progress of the caries, increase the quantity of discharge, remove the offensive smell, and case the pains. It cures the worst Felods and Whitlows, on applica-

tion of forty-eight hours.

CERTIFICATES. From the Hon. John Cocke Member of the House of Re-

presentatives is Congress.
WASHINGTON, March 22, 1826

Sir - My son having been afflicted for five years with white swelling, and having applied every remedy recommended by the most eminent physicians within my reach without success, I at length procured one jug of Dr Judkins' Patent Specific Unitment, and made the application according to the directions accompanying the Unitment, and state, for the benefit of the afflicted, that before one jug was used, a perfect cure was effected. My son has enjoyed good health ever since. I have no doubt that to the Ointment alone he is indebted; for nothing else was used for more than nine months before the application of the Ointment. Respectfully,
Dr. Wm. Gunton, Washington City. JOHN COCKE.

From L P. W. Balch, Esq Counsellor at Law, F ede-

Fundanica, Md. May 6, 1831. Mr. C Herstons -I deem it proper to state, for the benefit of the public, that, several years since, two of my children were affected with scald head of an invemy cantaren were anected with scala field of an inve-terate character. My family physician, Dr John T. Wilson, of Leesburg, Va. who was very skilful and ju dicious in his practice, in vain endeavored by every means to effect a cure. At length Judkins' Ointment was applied, and the affection was permanently relieved. Very respectfully, your obedient servant

gress, dated
Nasausoros, January 22, 1829.
Sin-It has been my wish, for a considerable time to communicate to you the good effect with which I have used the Ointment invented by a Mr. Judkins, and which I now understand is made and sold by agents appointed by yourself, I have applied this Ointment during the last three years to every species of tumor and wound, without failure to produce a cure in every instance. I consider it the most decided and efficient remedy in all cases of tumor, be the cause what: may; and I have found nothing so good for wounds of any description It may be proper to add, that the cure of a tumor called white swelling, given over by the most distinguished physicians as in-curable, and which they decided would, without amputation, prove fatalto the patient, was, under my imme diate notice, effected by the use of Judkins' Ointment and the patient is in fine health. His limb affected by the tumor being restored to a perfect state of sound-ness. Also that the leg of an aged man which had been wounded, and exhibited one dreadfully ulcerated surface from the knee to the foot, and which, for more than two years, had been considered incurable, was ef-fectually cured by the application of Julkins' Ointment. I mention these two cases, which fell under my immediate notice and management, as a decided evidence of the efficacy of this remedy in cases of tumor and of ulcers: I have experienced, as decidedly, the good effect of this remedy in the cure of Felons, and of every species of fresh wound. It seems to me that who will observe on the operation of this Ointment, must be satisfied as to its beneficial effect. I can with the utmost confidence recommend the use of this valuable remedy. I am, sir, very respectfully, JOHN TALLANDERO.

Health Secured,

BY the use of the Hygeian Vegetable Universal Medicines of the British College of Health, London, which have obtained the approbation and recommendation of thousands who have been cured, in consumptions, cholera morbus, inflammations, internally or externally, dyspepsia, fevers, sque, indigestion, bilious or nervous affections, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux. lious or nervous affections, and all diseases of the liver; vellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepay, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the female form is so distressingly liable, and which sends so many of this fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions; fistula, piles, strictures, ruptures, and syphilis in all its stages; constipated bowels, worms, scurvy, itchings of the skin, king's evil, and all cutaneous disorders; in short, every complaint and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, un-der all their varied forms and names; as the Hygeian conviction is, that man is subject to one only real Disease,—that is, TO THE IMPURITY OF THE BLOOD,—from whence springs every complaint that can possibly assail his complicated frame; and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscous, acrid humours, with which it has become commixed, through the negligence of parents; the ignorance or maltreatment of the Doctors; or the vicious or gormandizing propensities of us all.

This valuable Medicine, being composed only of

vegetable matter, or medicinal herbs, and warranted, on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are un congenial to the nature of man, and therefore destruc tive to the human frame,) is found to be perfectly harmless to the most tender age or weakest frame, un-der every stage of human suffering; the most pleasant and benign in it operation, and at the same time the and benign in it operation, and at the same time the most searching out the root of every complaint, however deep, and of performing a cure, that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, by merely swallowing a certain number of small pills, and being called a few extra times to the purposes of evabeing called a few extra times to the purposes of evacuation, with the least possible sensation of pain, or exhaustion of bodily strength, and without the fear of eatching cold, or attention to dress or diet, in any way different from their accustomed habits.

These pills cure all cases, and cannot be taken to excess Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact; and extensive use of them has already verified

its truth in this country.

These medicines cure by purging; and yet the weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, because they clear the body of its bad humours, and invariably account sound steep. They are the safest and most procure sound sleep. They are the safest and mos efficacious menicine to take to sea; preventing scurvy costiveness, &c.

The Vegetable Cleansing Powders are of great as sistance to patients, and facilitate the evacuation of bad humours; they soften, cleanse, and detach the acrimonious phlegm; are cooling, and allay the thirst. One, two, or three powders may be taken throughout the day, mixed in half a wine glass of water.

Extract of a Letter to Dr. Mout. Sin: The motive which has induced me to write this letter to you, is, that I might be instrumental in the recommendation of Morrison's Universal Vegetable Medicines to the afflicted, which, by the Divine blessing, has cured me of the Scarlet Fever. My case was as follows: Whilst returning from Washington to Alex-andria, I was taken very ill, which obliged me, on my arrival, to retire suddenly to bed, but could not sleep and the next day my throat became so much inflamed, that I could scarcely swallow; and my face, breast, and body, presented evident symptoms of the great dan-ger I was in, and I knew not what to do: Calomel or Mercury I abhorred as poison, and therefore desired no assistance from the Druggest; but my mother, who had experienced the good effect of the Hygeian Pilis in a case or two of her own, most strenuously advised me to try their virtue, which, with reluctance, I con sented to, and commenced by taking eight No. 1 pills at night, and eight No 2 the next morning and con tinued taking, increasing daily, morning and evening, until I took sixteen No 2 at a time, which were dissolved in water, as, by means of my sore throat, I could not otherwise a vallow them. I confess the dose made me feel somewhat qualmish, &c ; but the pills and the powders, of which I took one or two tea-spoonsfull a day, operated well, and the final result was, that I fell into a sound sleep, of which I had been deprived, and the next morning a woke in a state of perspiration, freed from fever, cool and comfortable, and my reason (for I had been deranged in mind) returned; and on the 9th day from the time I was first taken, I left my room, and have ever since enjoyed better health than I did before. You have my leave to make what use you please of this. I wish you success, and am. sir, you obedient friend, MARY ANN FOWLER.
