

# ALEXANDRIA:

SATURDAY MORNING, OCT. 29, 1836.

**RAILROAD ACCIDENT.**—We learn that on Thursday morning last as the train of cars was proceeding from Baltimore to Harper's Ferry, this side of the Point of Rocks, during a fall of snow, the locomotive ran off the rails and carried the cars with it shattering two or three to pieces, and severely injuring seven passengers—four of whom, it was feared, would not survive. Just as the accident happened the train from Winchester came up, the fore car of which was likewise thrown off the track but fortunately no one was injured. The accident is attributed to a decay in the foundation of the railroad.

Pennsylvania and Ohio vote for President and Vice President on Friday next—New York and New Jersey vote early in the week immediately following the Pennsylvania election. On Monday week the contest takes place in Virginia.—Our readers may rely upon the Gazette for the earliest and most accurate returns we can gather from all our sources of information. The strife waxed warmer and warmer in the States as the day of trial approaches.

Pennsylvania and Maryland are both agitated on the subject of a Convention and a reform of the State Constitution. The difference between the agitators in these States seems to be, that in Maryland they want Revolution first and Reform afterwards—and in Pennsylvania they seem to strive after Reform first, and then threaten Revolution, or, at least, a subversion of law. Mr. F. Thomas figures in Maryland—Mr. G. M. Dallas in Pennsylvania. Arcades ambo.

Requiring the N. York pet Banks to disgorge the surplus revenue, for distribution, seems to be like hard "tooth pulling." Nevertheless, come it must. We sincerely hope there may be no fractures occasioned by the operation.

Passengers were landed in Boston on Monday in fifteen hours after they left New York.—Allow six hours between Philadelphia and New York, and we have twenty one hours between Philadelphia and Boston.

Gen. W. H. Harrison arrived in Wheeling, on Saturday last.

Political Antimasonry appears to be nearly extinct in the United States, as a party. Even in Vermont, where it was so predominant two years ago, it has dwindled down to almost nothing.

We learn that the U. S. Frigate Macedonian will be launched on Tuesday next, from the Navy Yard at Gosport.

**GAIN IN THE UNITED STATES.**—The following taken from a late number of the Fredericksburg Arena:

Much curiosity has been exhibited to know the average quantity of grain produced in the United States. There is no data which enables us to arrive at an accurate result, but the following table, it is said, presents as close an approximation as the circumstances of the case will permit.

The largest meeting ever convened in Washington county Md. was held near Hagerstown on Saturday last. It was addressed by a number of gentlemen in the most eloquent manner, amongst whom were Maj. J. M. Coale and David Hoffman, Esq. two of the Whig candidates for Electors. We have no room for but two of the resolutions and one or two toasts.

Resolved, That we solemnly pledge ourselves to the friends of order and law throughout the State, and with equal solemnity warn those who have defied and are yet seeking to subvert both, that we deem it our first duty under heaven to defend the institutions bequeathed to us by our wise and gallant sires; that we acknowledge the authority of the Constitution and Laws and will uphold them as they now stand until peaceably and constitutionally changed; and that we disclaim and utterly renounce the illegal Convention proposed by the faithless Electors, and deny that it can have any power, but further to disturb the peace.

Resolved, That we will support our institutions, and resist their lawless assailants by all the means in our power; and, as our forefathers did, so do we now, in the sight of Heaven, solemnly pledge our lives, our fortunes, and our honor.

**TOASTS.**  
The Grand Conspiracy—Let its leaders remember that Guy Faux was beheaded by the common law.  
The Glorious 21—Faithful sentinels on the watch tower of liberty; they richly merit the patriot's warmest gratitude.  
The "Inglorious 15"—The good Ship of State was entrusted to their care; they have leagued with a pirate to run her down upon the rocks, and plunder the wreck.  
The Whig Central Committee of Frederick county have issued resolutions declaring, in the most emphatic manner, their firm resolution to sustain the Laws and Constitution of the State. The following is one of the resolutions:  
Resolved, "That we strike hands" with a solemn pledge to rebuke the spirit of revolution, and to vindicate to the peace, government, and dignity of the State.

**ROBBERY OF A WRECK.**—We learn from the Nantucket Inquirer, that the Brig Rising Sun, with a cargo of flour, meal, &c. was anchored near Great Point Rip, on Tuesday last, was boarded by the crews of several fishing snags, and plundered her of about 400 barrels of flour and various other articles. The officers and crew of the brig had been landed at Great Point, leaving the vessel in a condition to be easily towed into port; but when the steam-boat sent to tow her in, approached the brig, it was found that her decks had been torn up by the marauders and every thing within reach carried off. The vessel had filled and sunk to the water's edge, and it is expected will now be totally lost. Officers have been sent in pursuit of the offenders, intending to obtain the assistance of the revenue cutter at this port.—New Bedford Mer., October 24.

## PENNSYLVANIA ELECTION.

We have at length full returns of the recent election in Pennsylvania for members of Congress and of the State Legislature. The aggregate vote of the State at the general election on the 11th instant, was as follows: For Congress, Whig, 79,628; Van Buren, 91,236; whole number of votes, 170,864; majority in favor of Van Buren ticket for Congress, 11,608.

At the election in 1835 the aggregate vote of Pennsylvania was 200,413. Falling off, this year, compared with last, 29,549.

### OHIO ELECTION.

COLUMBUS, October 22.—The recent election in this State has resulted in the choice of eleven Whig, and eight Van Buren members of Congress; nine Whig, and nine Van Buren Senators; thirty-five Whig, and thirty-seven Van Buren members of the House of Representatives. As the dominant party succeeded last year in electing eleven out of eighteen Senators, they will have the ascendancy in both branches of the General Assembly, and a majority of six on joint ballot. This result would have been avoided, in spite of the Apportionment bill, had not a portion of our political friends, in two or three counties, where there is an unquestioned Whig majority, supported the Van Buren candidates from local considerations. We have however, succeeded far better than could have been reasonably expected under the circumstances; and that we can, and will carry our Electoral Ticket in November, by an increased majority, we do not doubt. Gen. Vance's majority is still somewhat uncertain; but we believe it will not vary much from 7,000. 28 counties, with a population of only 109,077 free white male citizens over the age of twenty-one years, have elected thirty-seven Van Buren Representatives, and thereby secured a majority in the House friendly to the pretensions of that gentleman; while 47 counties, whose free white male population amounts to 127,116, have returned only thirty-five Whigs—in other words that the latter, which number 13,039 voters more than the former, will have two members less in the Assembly. Had the representation been apportioned equally, among the different counties, those which have chosen Van Buren men would have been entitled to about thirty-three; while those which have elected Whigs would have returned thirty-nine.

### GEORGIA ELECTION.

ATLANTA, Oct. 20.—Our table contains the full returns of the ninety counties of the State. The Union ticket is elected with the exception of General Coffee. Col. Dawson being the highest on the State Rights ticket, is consequently elected. We have changed the order of our recapitulation; we now give it according to the number of votes each candidate has received. We are aware that there may be some variation in the returns published by us, with those published by other papers; but we believe not much difference exists. We stated in yesterday's paper the number of Union men elected to the legislature to be 155, and the number of State Rights men 111.

## POTOMAC AQUEDUCT.

PROPOSALS will be received by the Alexandria Canal Company, until Monday the 28th November, inclusive, for building six Stone Piers of the Aqueduct over the Potomac, near Georgetown.

The Piers to be founded upon the solid rock which has been discovered all across the river at the depth of about 25 feet below the tides, and to be made of the hard blue granite which is so abundant and fine upon the margin of the river and canal, within five miles of the site of the work.  
The stone to vary from 6 to 20 cubic feet, and laid partly in hydraulic and partly in common line mortar. The two large or abutment Piers will be 21 feet thick at high water mark, and slope in their whole height one inch to the foot, being about 50 feet 2 tenths, by 16 feet 2 tenths at top—and the four single Piers or Piers of support, to be about 41—46 by 7—16 at top, sloping in like manner as the abutment Piers.  
The masonry of each of the two large Piers will contain about 2500 cubic yards, and that of each of the four smaller Piers will contain about 1500 cubic yards.  
It is desired to have the masonry executed in the best manner, and according to more minute and accurate details and specifications which will be had by reference to Capt. Wm. Turnbull, Engineer, in charge of the work—communications will be directed to him in the City of Washington.  
The letting will take place at Alexandria on Thursday the 1st day of December next. All proposals will be directed to the subscriber, Clerk of the Company at Alexandria.

JOHN H. CREASE, oct 29—3taw28N Clerk of Alex Canal Co. [Globe & Nat. Int.]

\$10 REWARD.  
RANAWAY from the subscriber on Thursday the 27th inst. a negro girl named MARIA, aged about 15 or 16 years, stout built, and well set, about 5 feet high, has a scar over the right eye caused by a knife some years since. She had on a new black and white large checked domestic dress, a plaid cloak lined with a blanket, and a dark calico sun bonnet. She took with her a variety of clothing, amongst which are one dark blue calico, one pale blue domestic, one light colored domestic gingham, linen aprons, &c. I have reason to believe she is lurking about town. I will give the above reward if secured so that I get her again.  
Masters of vessels, and all others are forewarned from taking off, or concealing said slave, as I am determined to enforce the rigor of the law against all offenders.
