Instrumental and Vocal Music.

WILLIAM PRATT, professor of Mu-
sic, avails himself of this opportunity
of expressing his acknowledgments
to his friends, who have kindly patronized
his exertions, and informs them that he
and his friends of Alexandria generally,
and he has made such arrangements, as
will enable him to receive several addi-
tional pupils.

Mr. Pratt respectfully tenders his ser-
vices as an instructor on the Piano Forte,
Guitar, Flute, Violoncello, &c. Also, as
a teacher of Vocal Music. His system
of instruction communicates, in an easy
and familiar manner, the rudiments of
the science as well as the more abstruse
parts of the theory of Music, which tends
to enlarge the mind, cultivate the taste
and facilitate the progress of his scholars.
He has great pleasure in referring to
Miss M. Coleman, and Messrs. P. H.
Hoff and J. Mass y.

Any communication left at the Sem-
inary of Miss Coleman or at J. Mass y's,
will meet with immediate attention.

GLAD TIDINGS
PETERS
VEGETABLE PILLS
THESE PILLS have long been known, and
are celebrated for their extraordinary and
immediate powers of restoring perfect health,
to persons suffering under nearly every kind of
disease to which the human frame is liable.
When taken according to the directions ac-
companying them they are highly beneficial in
the prevention and cure of Bilious Fevers, Fe-
ver and Ague, Dropsy, Liver Complaints,
Sick Headache, Jaundice, Asthma, Dropsy,
Rheumatism, Enlargement of the Spleen, Piles,
Cholic, Female Obstructions, Heart Burn, Fur-
ried Tongue, Nausea, Distention of the Stomach
and Bowels, Incipient Dropsy, Fatulence,
Habitual Constipation, Loss of Appetite, Bitch-
ed or Sallow Complexion, and in all cases of
torpor of the Bowels, where a cathartic or an
aperient is needed. They are exceedingly
mild in their operation, producing neither nau-
sea, griping nor debility.
Perhaps no article of the kind has ever been
offered to the public supported by testimonials
of a character so decisive, from sources as re-
spectable, or that has given more universal sat-
isfaction.
They have the testimony of the whole medi-
cal profession in their favor, while not a single
case of ill consequences or inefficacy can be
adduced against them.
Hundreds and thousands bless the day they
became acquainted with Peters's Vegeta-
ble Pills, which, in consequence of their extraor-
dinary goodness, have attained a popularity un-
precedented in the history of medicine.
The very circumstance alone that physicians
in every part of the Union (but more especially
in the Southern States, where they have long
been in use) are making free use of them in
their practice, speaks volumes in their praise.
Add to this the fact that all who use them
recommend them to their friends, and the tes-
timony in their favor is almost irresistible.
An anti-bilious remedy, and to prevent consti-
pation they have no rival. One fifty cent box will
establish their character, and prove that there
is truth even in a snapper's remark.
More than two millions of boxes of these
celebrated Pills have been sold in the United
States since January, 1837.
Dr. Peters has received upwards of fifteen
hundred certificates, all given in consequence
of the good done by his Medicines.
Prepared by Jos. Priestly Peters, M. D. at his
institution for the cure of obstinate diseases by
means of vegetable remedies, No. 129 Liberty
street, New York. Each box contains 40 pills.
Price 50 cents.
For sale by Wm. Stabler, Wm. Heper, Cook
& Leadbeater, and John E. Sayre.

Sherwood's Electro-Magnetic Remedies
FOR CHRONIC DISEASES.
Of the class Hyperstrophy, including all the
forms of Scrophulous, viz:
TUBERCULAR CONSUMPTION, White Swel-
lings, Dropsy, Scrophulous Sore Eyes,
Chronic Disease of the Liver, of the Heart,
of the Spleen, of the Kidneys, of the Spine, King's
Evil, Leucorrhoea, Gleet, Menorrhagia, or
Female Complaints.
These are but different modifications of the
same disease, and grow from the same cause,
distinguished by the same diagnosis, and curable
by the same remedies. Their common cause
is an irregular action of the Electro-Magnetic
forces of the system; they may all be detected
by pressure upon the sides of the vertebrae and
glands of the neck, which elicits the Electro-
Magnetic Symptoms, and they may be cured by
these Electro-Magnetic remedies. The latter
are accompanied by a compendious medical
treatise explaining the principles of the dis-
eases upon which they are founded, and stat-
ing the manner in which they are to be ap-
plied. In this work Dr. Sherwood demonstrates
the fact that every part of the human body, to-
gether with every particle of animate and in-
animate matter, is either in a negative or pos-
itive state of electricity; and that every motion,
in all matter, whether in the largest masses or
in the smallest particles, is produced by the
attracting and repelling forces of this universal
principle. The morbid action which produces
disease of the organs or limbs, he proves to be
occasioned by the undue proportion of one of
these forces in the system, and his remedies
restore health by subduing this regular action to
an equilibrium. By this means, the very
seeds of disease are eradicated, and a per-
manent cure effected, even in cases where sit-
tment of red from other sources is abandoned.
The Electro-Magnetic Remedies are the only
preparations applicable to this prevailing class
of disease, and they never disappoint the con-
fidence reposed in them. The symptoms of
the class of diseases to which they are applica-
ble can be discovered, under the direction of
the author, and the directions contained in the
work which accompanies them, and they can be
used with perfect safety and success without
aid of a physician, or any further advice
than this work affords. Price 15 dollars; for
sale by J. I. SAYRE, Druggist,
dec 25—11 King street, Alexandria.

ticles of Landreth's Garden Seeds, fresh
and genuine, which, with 3126 parcels on hand
makes 12 000 parcels all neatly put up and la-
belled to suit purchasers. Landreth's Seeds
have been used in this part of the country for
about ten years, and their reputation has been
constantly extending. The following observa-
tions are quoted from Landreth's catalogue for
1838.
"The proprietor's opportunities for exten-
sive practical observation, have enabled him
indisputably to discriminate such varieties of
vegetables as are really worthy of culture, from
the inferior, or as is not infrequently, worthless
varieties of the same kind, which have been
perpetrated through ignorance."
"As regards the quality, the proprietor would
only observe, that as the seeds sold by him are
of his own growing, (with but slight excep-
tion) he can therefore warrant them with entire
confidence, and he is equally confident that
they will, on trial, prove to be far superior to
those of foreign importation, or such as may
be casually collected in the United States."
The subscriber is agent of LANDRETH
only, for the sale of Garden Seeds, and will
assure the public that so far as his exertions
are concerned, all will be done that the nature
of the case admits of to prevent seeds from
being disposed of that have become too old to
vegetate. His entire stock of Seeds he has re-
cently and carefully examined and those of

other, to be returned to Philadelphia.
