I S RECOMMENDED as decidedly superior to any other known combination of Medicine, for Coughs, Colds, Influenza, Consump tion, Asthma, Spitting of Blood, Hoarseness, Difficulty of Breathing, Hooping Cough, Pains and Weakness of the Breast, and all diseases of

the Pulmonary organs. This medicine is highly and justly recom mended, by numerous and respectable individuals, who have found relief from its use. Ma ny who have been laboring under protracted Coughs and pains in the breast and have been supposed by themselves and their friends far advanced in consumption, have been happily restored to perfect health by the use of this valuable Expectorant.

Persons laboring under chronic or consump ive coughs, will find great advantage from carrying a small quantity of the Indian Expectorant with them, while attending to their va rious avocations, and taking a teaspoonful oc casionally. Their cough will be scarcely felt and they will be enabled to expectorate with the greatest facility, and the irritating matter will thereby soon be removed and a perma nent cure effected. Let the afflicted try it. Prepared only by Dr D. Javne, of Salem, N.

These are but different modification of the ame disease, arising from the same cause. disinguished by the same diagnosis, and curable by the same remedies. Their common cause an irregular action of the Electro-Galvanic forces in the system; they may all be detected by pressure upon the sides of the vertebræ and giands of the neck, which elicits the E'ectro-Galvanic S. mptoms, and they may be cured by these Electro-Magnetic remedies. The latter tre accompanied by a compendious medical treatise; explaining the principles of the discovery upon which they are founded, and staing the manner in which they are to be applied. In this work Dr. Sherwood demonstrates the fact that every part of the human body, together with every particle of animate and inanimate matter, is either in a negative or posiive state of electricity; and that every motion, in all matter, whether in the largest masses of in the smallest particles, is produced by the attracting and repelling forces of this universal principle. The morbid action which produces lisease of the organs or limbs, he proves to be occasioned by the undue preponderance of one of these forces in the system, and his remedies seeds of the disease are cradicated, and a per the class of diseases to which they are applica- and bestows to it a transcendent gloss. ble can be discovered, under the directions
