The Bank has claims on the Government for fully the amount of the latter sum, and with regard to the protested Bill, the public mind has long since been made up on that subject. The trial is to take place on the first Monday in November next."

SMUGGLING AT MADEIRA.-A letter in the Philadelphia North American, dated Madeira, August 31st, states that an English brig, the Bernardo from Gibraltar, has been seized by the Custom House authorities of the Island and found full of brandy, tea, silks, &c., which she had endeavored to smuggle on shore. A chapel on the peak of Canical was also found full of goods, and a boat load on the Deserlas, a few barren rocks in the neighborhood .-Gunpowder tea had been selling at about 50 cents a bushel, and silk umbrellas for 50 to 60 cents a piece, by the country people, who stole them from these and other hiding places.

An attempt was made by an English brig of war, the Savage, immediately after the seizure, to obtain possession of the smuggler and crew, and a demand to that effect CATTLE MARKET .- A large supply of Beeves | was made upon the Portuguese authorities, further measures were taken, however, by the Savage-the Portuguese having expressed their determination to resist any attempt, even by force.

OHIO RIVER .- The Cincinnati Chronicle of October 16, evening, says-

There is now something more than 6 feet in he channel of the river to Louisville, and an abundance of water for boats of the middling lass as far up as the mourth of the Kenawha.

The Commission which sat some time during the last summer in New York, by apoutment of the Executive, in examining the atlairs of the New York Custom-house, is, we understand, about to resume that investigation. There will be one change in the composition of the Commission, namely, William A. Bradley, Esq. of this city, in place of Mr. Kelley, of Ohio. The latter gentleman returned to Ohio, we believe, soon after the Commission closed its examination in September Nat. Int.

The STATUE OF WASHINGTON was yesterday removed from the Navy Yard, and such progress had been made in the course of the day that at sunset a part of the difficult ascent of the Capitol hill had been overcone. The Statue is very massive-weighing, with ts easings, it is said, near twenty tons. It was brought from the Navy Yard to Maryland able ways, by means of capstans, &c. along Maryland avenue to the Capnol. The removal of the Statue is under the direction of our enterprising fellow-citizen, Mr. William Easby; 1 and, so far, his delicate task has been accomshed without accident.-Nat. Int.

SALT MARKET .- It is with pleasure we see that the Kenawha salt is coming into considerable a e nand in many counties east of us, that used formerly to use only the imported article. It is seen from the active exertions made by our sait makers to make a superior article, and set! if at a very reduced price, that it is the interest of a very large portion of Virginia to give us the preference. We are are always willing to exchange for provisions and produce of almost every description. Kana wha Jeffersonian.

MILITARY CONVENTION .- The delegates to the Military Convention met at Frederick on Monday. The convention was called to order by the appointment of Col. J. M.
