

Mr. Buchanan's Administration.
[From the Lancaster (Pa.) Intelligencer.]
There is a great deal of unnecessary speculation among the opposition journals just now, as to the new Cabinet and the policy of the incoming Administration. To all of these gentlemen we have only to say, keep cool and be patient a few months longer, and you will know all about it. In the meantime we have republished a portion of Mr. Buchanan's letter accepting the nomination, in which they can form some idea of the course he intends to pursue. One thing is certain. Mr. B. will be the President himself; he will select his own Cabinet, and regardless of friend or foe, will put his foot on every science which does not look to the honor, glory, prosperity and perpetuity of the Union. His Administration, we doubt not, will be eminently conservative in all its actions and policy, and in perfect accordance with his great political knowledge, ripe statesmanship, and cautious sagacity. Mr. B. has never given an intimation to a living soul on the subject. He keeps his own counsel, and when his selections are once made, it will be found that his Cabinet is not only a unit, but that it is also a Union Cabinet.

COMMERCIAL.
Alexandria Market, November 24.
Flour.—Sales on Change of about 400 bbls. Union street at \$6.25.
Wheat.—Offerings light. Sales of good to prime at previous quotations; inferior lots not saleable, except at 15¢/bushel. We quote white at 14¢/bushel; red at 14¢/bushel.
Corn.—Sales of white and mixed at 60¢.
Rye.—Sales at 70¢/bushel.
Flax Seed.—Sales at \$1.57.
No change in other articles.

The Markets.
Baltimore, Nov. 24.—Flour has declined 12¢. Howard street and Ohio \$5.50. Wheat has declined about 4¢, but prices are unsettled. Corn is firm—White 52¢/bushel—yellow 50¢/bushel.
New York, Nov. 24.—Flour has a declining tendency. State \$6.10; Southern is heavy. Wheat has an advancing tendency. White 1.00; red 1.00; yellow 1.00. Corn is buoyant; white 75¢; yellow 75¢. Stocks are dull, Virginia 65¢.

Western Pork Trade.
At Louisville, Ky., the pork trade is still dull, and prices quoted at \$5.50/\$5.75 net. At Cincinnati, up to Tuesday last, the receipts of hogs reached 41,000 head, against 19,925 for the same time last year. The Cincinnati Price Current of Wednesday says: "The prospects of the hog product favor a further decline, as the prices are not only below the current rates for hogs, but the demand is of the most limited character. Eastern purchasers are generally looking back for lower rates, as well as the packers from Europe, who under the current unfavorable advices from the English and Irish markets, manifest great want of confidence in present prices."
There have been some sales of long middles within the week at 75¢, packed, and at this rate the market is dull. Lard is also declining, and has been sold as low as 10¢, including packages.
Our advices from the interior are that farmers are anxious to sell their hogs, particularly in Kentucky and Tennessee, and that there will be no late feeding done, corn being so high, and pork comparatively low.

Wool in Ohio.
The Ohio Farmer says: "There has been a steady rise in the price of wool ever since May, with no prospect of a decline. This should induce farmers to take good care of their sheep, and to shear them early. The wools of Jefferson and Harrison are now selling at home for from 55¢ to 60¢ a pound, and fine wools of Washington County, Pennsylvania, are held at 65¢. Good-ale & Co., Cleveland, have furnished us with the following: 'The wool market presents an upward tendency; our sales amount to over 200,000 lbs. within the last three days, at an advance over former prices. We are anticipating still further advance between this and February, owing to the short supply on the market; but not owing to any ability of the manufacturers to pay higher prices, for it is evident that wools bear much higher rates in proportion than woolen goods.'"

Baltimore Cattle Market, Nov. 21.
The offerings at the scales this week amounted to 1,100 head, of which number 920 head were sold to city butchers at prices ranging from \$3.12 1/2 to \$4.25 per 100 pounds on the hoof, averaging \$3.62 1/2 gross. There were 60 head over and 110 driven off. We have no change to note in hogs, the market remaining about the same as last week. We continue to quote at \$7.75 per 100 pounds, with sales. Sheep dull, and we note sales at \$3 per head.

Fabrics.—Vessels are in demand this week for London at an advance on last week's rates for grain, in shippers' bags, &c., but there are no vessels of the class wanted offering. Tobacco and heavy freights unchanged. A vessel of 1400 bbls. was taken for India at \$100 per bbl. Also, for same destination, a vessel of 1000 bbls. at \$80 per bbl. Several vessels out and return at about \$1.12 per bbl., and foreign port charges paid. A cargo of corn to Portland, Me., at 9¢, per bushel; a cargo of flour and corn to Fall River at 8¢, per bushel, and 3¢, per bbl. Two vessels the schooner, Wm. Allen, and Maria, per bbl. Also, for same destination, a vessel of 1000 bbls. at \$1.12 per bbl. Medium wares at \$1.02 1/2 per ton. We quote flour to Liverpool at 28¢, per bbl., grain 30¢, per bushel; tobacco 20¢; heavy freight 25¢, per ton. Tobacco to Havre 30¢. Nothing doing to Amsterdam or other German ports.—*Baltimore Sun.*

LIBRARY LECTURE.—The first Lecture will be delivered at the "LYCEUM HALL," on Tuesday evening next, 25th November, commencing at 7 o'clock, by Rev. B. SENDERLUND, D. D., of Washington City. Subject: "Vox Populi, Vox Dei." Single tickets 25¢, to be had at the door.

DANGEROUS COUNTERFEIT.—The Petersburg Express, this morning, a dangerous counterfeit note in circulation:
We were shown yesterday, a \$100 note on the Farmers' Bank of Virginia, which upon presentation proved to be a counterfeit. The note is badly executed, being upon coarse paper, the vignette and all ornaments appearing not as well developed as upon the genuine. The name of J. A. Smith, Cashier, bears a very poor, or no resemblance to the bona fide signature, and if compared will be readily detected. Wm. H. McFarland's signature is not so badly counterfeited, but nevertheless can be detected on examination by comparison. The number of the note before us is 1591, dated March 24th, 1856. Bills of lower denominations on this bank are also in circulation.

PROTRACTED MEETING.—Divine service has been going on in the Baptist Church of this place, for the last ten days and will continue through the week. Elders Dickinson and Tyree have been officiating. A good deal of interest has been manifested during the meeting by our citizens, and students of the University. The Church has been densely crowded during public service; and large numbers attend the "sun rise" prayer meetings. Eleven converts were baptized on Tuesday evening last.—*Charlottesville Ad.*

The Staunton True American says:—Pork is selling in Lexington at 87¢ per hundred; and corn at 60¢ per bushel. Corn is worth with us about 50¢ per bushel, and pork is selling in the country, at 80¢ per hundred pounds gross, which would make it worth more than 88¢, neat. We wish the farmers great prosperity, but pork is very high at 87¢, and tastes sweetly to him who earns it by the sweat of his brow at 50¢ per bushel.

The Charlottesville Advocate says:—There are 602 students at the University. The number will reach beyond 650 during the session. Had sufficient dormitory accommodations been prepared, we doubt not that 700 or more students would have been in attendance. Harvard College is the only one in the Union which has a larger number of students.

Official returns have been received by the Secretary of the Commonwealth from all but seven counties in the State, viz: Alexandria, Calhoun, (new,) Doddridge, Logan, Northampton, Warwick, and Wyoming. Buchanan's majority in the counties heard from is 29,091. No reports have been received from Calhoun, (new,) Logan, or Wyoming. The latter two gave 156 majority.

The freight train of the Virginia and Tennessee Railroad, which reached Lynchburg, on Wednesday evening, was composed of 32 cars, all heavily laden with hogs, flour and wheat. The receipts for freight alone for that day amounted to the enormous sum of \$1,367.

The Christiansburg (Montgomery, Va.) Herald quotes pork at 87¢, and says that Virginia is full of speculators, buying up hogs. The Lynchburg Virginian notices the arrival there of several lots of hogs by the Virginia and Tennessee Railroad, and quotes pork at 88¢ per hundred.

NOTICE. No. 2.—On the first of September last, we gave notice of the dissolution of our partnership, and requested all indebted to us to come forward and settle their accounts. We regret to say that but few have responded, and hence the occasion for this second notice. We do not wish to incur expense ourselves, nor to impose costs upon others, but our necessities compel us to collect what is due us, in order to be able to meet our own liabilities. We therefore beg to meet and close their accounts without further delay.

LOCAL ITEMS.
LECTURE TO FIREMEN.—A very instructive lecture was delivered by J. S. Halliwell, on Friday evening, in the Friendship Fire Company's Hall, to the members of that Company, and many other firemen and citizens, who were in attendance. The Hydrostatic, Hydraulic, and Pneumatic sciences were very interestingly expounded and illustrated, by many gratifying experiments—particularly in their application to Fire Engines. The undivided attention accorded to the learned lecturer—who for nearly two hours occupied the stand—fully evinced the satisfaction of the audience, on being thus instructed by one so able to teach the truths of natural philosophy.
The lecture was delivered under the auspices of the "Young Men's Christian Association," and was one of a series projected to be delivered, during the winter, in the Halls of our Fire Companies, and which it is hoped will be numerously attended by the firemen and other citizens.

NEW WATER WHEEL.—We saw on Saturday, at the Foundry of Mr. T. S. Jamison, an iron Water Wheel, cast for the Potomac Flour Mill at Shepherdstown, Va. This wheel is the invention of Mr. J. R. Howell, Superintendent of the Pioneer Flour Mills, of this city, and is called the "Graduated Direct Action and Double Reaction Wheel." It is seven feet in diameter and is calculated to have fifty horse power under six feet head of water. The wheel is perfectly durable, being made entirely of iron, and is so constructed as not to be affected by Back water, and will drive two runs of stone.

We learn that this wheel receives the approval of all Millers who have seen it, and it will no doubt be generally adopted throughout the state so soon as the advantages claimed for it are brought before the public.

LIBRARY LECTURES.—We trust our readers did not neglect to read the communication in Saturday's Gazette, in relation to the proposed course of Lectures for the Library Association of this place. The course promises to be an interesting and instructive one, and the Library is worthy of the encouragement and support of our citizens. The first lecture will be delivered on Tuesday evening next at the Lyceum Hall by the Rev. Byron Sunderland, of Washington; subject "Vox populi, vox dei."

THE WASHINGTON AND ALEXANDRIA RAILROAD.—Last week, run over by a train of four cars, drawn by the new locomotive John T. Towers, from Alexandria to the western end of the Long Bridge and back. Coming up the advance was slow to make trial of the machinery, but on going back the distance between the Long Bridge and Alexandria was done in eleven minutes. Early this week, it is thought, the road will be regularly and permanently opened for travel, of which due notice will be given.

CIRCUIT COURT.—A large amount of civil business was transacted at the late term of the Circuit Court, for this county. The promptness and industry of Judge Tyler, enable him to get through with the cases before him, much to the satisfaction of the gentlemen of the bar and suitors.

ADDITIONS TO THE LIBRARY.—The following books have been recently added to the Alexandria Library: "Thirty years in the United States Senate, vol. II; by Thomas H. Benton. 'Life of Rev. Spencer H. Cone.' 'Life and Times of Henry Clay.' by Calvin Colton.

THE WEATHER.—The rain of Friday last, was followed at night by a strong gale. The tide rose to an unusual height. Next day, Saturday, the sun came out brightly—and the weather was warm and summer like.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—The Young Men's Christian Association held their regular meeting at their rooms on Tuesday evening. Resolutions of thanks to J. V. Brooke, William H. Fowler, Prof. Bartenstein, and the Alexandria Richmond Band, and of respect and condolence on the death of Ossian Hart, were passed. The Committee on Schools reported the establishment of a Sabbath School at the room on Columbus street, and that the Night School would open on the 24th inst. The committee on lectures to firemen reported that a course would be opened by a lecture from J. S. Halliwell, at the Friendship Engine House, on next Friday evening. The total subscription to the Association from the Anniversary meeting, was reported at \$618.15;—it was agreed that the Association meet for prayer on the first Saturday of each month.

THE DUTY OF VIRGINIANS.—No Words, but deeds.—Foster your own home trade. This is your best protection. Build up your own towns, and they, in turn, can meet your wants. Virginians should spend their money in Virginia. Why? Because it is very apt to return back to them. Now, in conclusion, I would just say, that Worcester's Pianos, and CARBANT, NEEDHAM & CO.'S MELODIONS, are the instruments to buy, and to No. 106, King street, Alexandria, is the place to buy them. I warrant every one I sell.
