STRUCK A NEST OF SKUNKS. The village of Monticello, N. Y., has been undergoing a strange experience for the last two days. Houses have

been closed tight and housewives have been industriously burning Sugar and coffee in an effort to clear the atmosphere. Schools has been continued only by an effort and with a greatly decreased attendance.

On Friday morning, while workmen were tearing down an old barn in the rear of the Hotel Rockwell, Fred Mitchell, a carpenter, stepped through the timbers, his foot struck a soft object, a queal was heard and an unmistakable odor filled the air. He tried to get away but was too late. With a cry of 'A skunk!" he went home to change

his clothes. Frank Geraghty, who lives next to the barn, keeps a large hennery and or two years has been bothered with chicken thieves. As soon as he heard the word skunk he grabbed a gun, ran o the barn and shot the animal. A crowd of school children gathered Some one discovered another skunk and it was quickly laid low, The workmen reluctantly began to take np more planks. One of them pried up a big board and started to lift it away when he straightened him self up and rubbed his eyes. Between the crossbeams he saw a black and white mass moving around. The place was filled with skunks. A long stick induced the game to appear. There heads came up. Bang! Bang! spoke the gun and two more victims were secured. Robert Jones, who was told to let down the plank while the gun was being loaded, forgot to act as ailor and three more skunks crawled out and made for the crowd before the others were secured. The result was that many spectators withdrew dis-

Four dogs next appeared and a rough and tumble fight ensued. Two of the skunks were kille i and the third took refuge under a pile of boards. The condition of the a mosphere was such by this time that people living fully a mile away took cognizance of the bat-When the gun was reloaded the plank was lifted. Four more animals app ared. One was killed, but the marksman was so excited that he missed the second shot. Then began a sec ond rush among the spectators. In all more than a dezen skunks were killed and a few escaped under another barn which will be torn down next week. When the flooring of the latter structure is torn up many families are seriously considering moving away for a

BEATEN TO DEATH BY THREE GIRLS. Miss Nora Bitner, a highly respected young lady of Allegheny, Pa, was beaten so badly yesterday afternoon by three girls (none of whom are over fifteen years of age) that sne will proba-bly die. Her assailants, Mamie Wright, Sophia Mickle and Victoria Bennett, are in jail. The cause of the assault is rather mysterious. It seems that Miss Bitner, with a young lady companion, was walking along east Ohio street and in passing a group of young girls at play she made some jocular remark concerning the party, whereupon one of the youngsters seized her by the hair and pulled her to the ground While prostrate Miss Bitner was kicked on the head and beaten into insensibility. Her companion was unable to protect her and a rescue was only effected when two men came upon the scene. The physicians attending Miss Bitner say her skull is fractured and a blood clot has formed on the brain. Her recovery is doubtful.

Glorious News Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bot-les of Electric Bitters has cured Mrs Brewer of scrofula, which had caused her great suffering for years. Terrible spres would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood puri-fier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisors, helps digestion, builds up the strength. Only 50 cts. Sold by E. L. Allen and E. S. Leadbeater & Sons,

From New Zealand, REEFTON, New Zealand, Nov. 28, 1896.—I am very pleased to state that since I took the agency of Chamber-lain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know

its value from the use of it in my own honsehold It is so pleasant to CENTLEMEN in need of medium weight own honsehold It is so place the bottle take that we have to place the bottle take that we have to place the bottle beyond the reach of the children. E. J. SCANTLEBURY.
